

Panelist's Impartiality and Confidentiality Agreement
DTIS RFP 2005-19 for Community Wireless Broadband Network

I, Bram T. Elias, understand that I have been invited to participate in this Request for Proposal ("RFP") review panel to assist the City and County of San Francisco (City) in choosing the best and most responsive entity with which to contract. I understand that, to further this goal, the City desires that the evaluation process be fair and free of any improper conflict of interest. Accordingly, I agree to give each proposal fair and independent consideration. I further agree that, although I will listen to the views of other panelists, the final scores I give to each proposal will reflect my own impartial judgment on that proposal.

I also agree that I will not participate on this panel if I have any conflict of interest that would prevent me from exercising impartial judgment as to each firm submitting a proposal, as well as subcontractors that are included within the proposals. I agree that I will inform Brian Roberts of DTIS (415-554-0861) if either I, or any member of my immediate family (including my spouse, domestic partner, or dependent children): (1) have received income or gifts within the past year from any of the firms listed below; (2) have any ownership interest or other direct or indirect investments, other than mutual funds, in any of the firms listed below; (3) expect or intend to seek employment or any other relationship with any of the firms listed below within the next year; or (4) have any other direct or indirect interest in any of the firms listed below or I am aware of any potential reason that my impartiality could be questioned with respect to any of the firms listed below. I understand that Mr. Roberts will, upon receipt of information from me about a potential conflict of interest, consult with the persons necessary to determine whether, based on the facts I present, the City still invites my participation on the review panel.

I also understand that, to further the City's interests in obtaining highly qualified proposals and in selecting the most highly qualified among the proposals received through a fair evaluation process, it may be necessary for the City to limit the public availability of information about both the proposals that have been submitted and the evaluation process. I understand that San Francisco's Sunshine Ordinance recognizes that responses to the RFP and records regarding the evaluation process may be kept confidential throughout the evaluation process. Accordingly, I agree not to disclose any written or oral information about any RFP proposals, including any portion of any proposal, or any written or oral information about the evaluation process, without the express consent of Brian Roberts.
