Subject:	2/10 meeting: request to reschedule
Date:	Thursday, February 09, 2017 11:15:26 AM

Hi Ashley,
Hope all is well. Apologize, for the last minute notice but we met today as a core group and realized that to be more effective with our meeting with Go Play/Pavement to Parks, we would like to push back the date to the week of Feb, 20th.
We wanted more time to effectlvely outreach and speak to the residents that would be most effected by the proposed plan (houses immediately across the medians).

Again, thank you for your leadership on this.
Best,
Jen

Subject:	Art Commission process
Date:	Tuesday, April 25, 2017 9:16:02 PM

Ashley,
A couple of things about the Art Commission process:

1. As we prepare to work with the Arts Commission we will need to be clear with them that we are happy to coordinate our Groundplay effort with the their effort but cannot take on advocating art placement on their behalf.
As you know well, we would love to place art in the central space of the turnaround and potentially in the areas behind it but the MTAB permit we are going to obtain most likely won't allow us to do so. We should thus be clear what is the canvas, sort to speak, they have available for art placement. Our goals is to be able to expand the usable area but it will be a longer process.

2. Art typology: we had the clear impression that the PM is only interested in promoting a seating element. Although we think it's great, in the current circustamnces it might prove to be one of the least flexible elements due to point 1 (i.e. limited area for installation). I am not sure if you could make them consider other elements such as murals, bike racks, identity signage (all things we will be installing and that offer better opportunity for placement). Just a thought.

Thanks for your help. Let me know if you would like to chat further about this.
Thanks, Ilaria

Date: Thursday, May 04, 2017 4:12:47 PM
Importance: High

Ashley,

It looks like the morning of 5/31 from 9:30-10:30 will work for everyone except Buffy. I need to book this to keep from blowing my schedule and spending more admin $ on scheduling efforts. Please ask Buffy to find time to attend. Ten minutes of her time is sufficient and we'll be meeting literally outside the café doors. I can't make this more convenient. Thanks for understanding and for your help in making this happen. I'll be sending out a calendar invite first thing tomorrow morning.

Subject:	Conversation with Buffy about revised design
Date:	Tuesday, April 25, 2017 8:38:17 PM
Importance:	High

Neil and Ashley,
Seung Yen and I had a call with Buffy this afternoon at 5 pm that was sort of game-changing. After meeting with Seung Yen last week, she recomfirmed today that she is strongly opposed to the MTA-revised design as she thinks it departs from the community vision and that the 2-way scheme is not worth pursuing given that it doesn't improve public space and pedestrian safety substantially while it causes loss of parking and additional car movement into Judah Avenue.
I tend to agree.

She thought that presenting the 2 schemes (original design and new revised design) would generate confusion and disgregate the community support that we gained at the previous open house (she stated that although not perfect, Groundplay's design was very accurately representing the community's vision and she felt it was a successful end product.worth pursuing). I agree with her about this as well.

I made a call on the spot as we were running out of time and options and told her we will not present the MTA revised scheme tomorrow but we will talk about design elements instead.

We will seriously need to consider next steps and make sure MTA hears the community position about the latest design. As a main champion of this project we need and want Buffy on board- she basically runs one of the main community centers of the Sunset, the immediate residents look at her to make the last call on decisions about the design and I think she could make wonders for our project. Additionally our team wants to deliver a design that works and that the local community is happy about: I also agree with her that we can do better.

She might send out a letter expressing her concern and opposition to the modified design. She will not be in support of it should that be the sole option for this project.
We can connect about this in the next couple of days but I wanted to give you the heads up in case you receive any communication from her between now and tomorrow.

Thanks,
Ilaria and Seyung Yen

Lieutenant Fedigan,

Thank you for rescheduling our meeting to review the draft plans for this community- and Supervisor-sponsored temporary pilot plaza project at the N-Judah Turnaround. We look forward to discussing the project and relevant fire access issues next Thursday at 10am.

Please see the attached for a series of diagrams illustrating existing and proposed conditions, with as much of the information you requested related to fire access as we were able to provide. If you have any specific questions about this material between now and Thursday, don't hesitate to contact me to discuss. If you are able to provide any preliminary feedback before next Thursday, please feel free to do so to the project group copied on this email. We will be happy to discuss this all with you in greater detail on Thursday, together with our project partners from MTA.

Subject: FW: Meeting this Friday 2/10- Need to reschedule week of 02/13
Date: Thursday, February 09, 2017 5:41:01 PM
Importance: High

Dear *Friends of La Playa Park,*

The Groundplay team would like to reschedule tomorrow's meeting to next week (instead of week of 02/21).

We learned that in order to keep our funds available for this project we need to ***install before 06/30/17-*** our funding will be literally gone after that. We have figured out the permit approval flow and a series of permit milestones that need to be met- the first important deadline to file to submit finalized drawings is on 02/24 so it is in the community's interest to settle on an ideal design ASAP. I don't think we are far from being able to do that.

We recommend that we meet no later than Friday 02/17/17.

Thanks so much.
Ilaria and team

Subject: Various La Playa Area Requests

Thank you for your requests to install various improvements in the La Playa neighborhood. We share your concern for pedestrian and traffic safety, and have conducted an investigation into the possibility of implementing improvements along La Playa Street at the Irving Street, Judah Street, and Kirkham Street intersections.

Upon receiving a request to evaluate an intersection for traffic control devices, we complete a study of intersection conditions such as vehicle volumes, sight lines, and reported collisions. The results of this study are measured against standards developed from state and federal guidelines, and if traffic controls are not justified, we do not recommend them.

Various locations and issues were indicated in your initial correspondence which was forwarded to the Municipal Transportation Agency for review. Those items are listed and addressed below.

1. ***Muni stop overlay at the intersection of Judah Street and La Playa Street***

This issue has been forwarded to our Transit Engineering division for review. Their current stance is that they do not intend to change the existing staging area primarily because of the following: the current use of the accessible wheelchair platform east of the staging area; the all-way stop-control at La Playa and Judah Streets, which requires motorists to stop and exercise due caution before proceeding through the intersection; and if they were to stage further to the east, driveway access to properties on the south side of Judah Street could also be potentially blocked. However, this is an ongoing discussion within the Transit Engineering group and they will continue to explore staging alternatives in cooperation with Muni.

2. ***Pigeons nesting on the rooftop of the public convenience station at Judah Street and Great Highway***

A request has been sent to the Parks and Recreation Department who maintains the convenience stations to investigate and address this issue.

3. ***Accessible ramps missing at the pedestrian island between Judah Street and Great Highway***

Accessible ramps along with pedestrian countdown signals are currently present on both sides of the median at the Judah Street crossing at Great Highway. At the Judah Street crosswalks crossing Lower Great Highway and La Playa Street, there are marked crosswalks and ramps present on the north crossings. On the south crossings there are missing ramps. I have forwarded this issue for review to the appropriate department at SF Public Works who maintains accessible pedestrian ramps.

4. ***Homeless issue at Great Highway and Judah Street public convenience station***

It is our experience at the Agency, that this type of issue is best handled by the Parks and Recreation Department's Park Patrol who has jurisdiction over the convenience stations. They can be reached directly at 415.242.6390.

5. ***Stop Sign and speed reduction measures at Irving Street and La Playa Street***

intersection

An investigation has been conducted at this intersection for the installation of additional STOP signs to stop Irving Street. Based on our investigation, we do not recommend installing STOP signs at this time. STOP signs are primarily used to designate or clarify the right-of-way at intersections where the right-of-way may be unclear. This intersection is presently controlled by the STOP signs on La Playa Street, thus vehicles on this street must stop and yield the right-of-way to traffic on Irving Street because it is the major vehicular approach. The vast majority of vehicles were observed to obey these right-of-way rules and these observations are further substantiated by the excellent collision history of this intersection within the past five years as reported by the San Francisco Police Department. In addition, the short segment of Irving Street between Lower Great Highway and La Playa Street limits the feasibility of installing a STOP sign or speed bumps for traffic turning from Lower Great Highway to La Playa Street.

6. ***Marked crosswalks at Kirkham Street and La Playa Street intersection***

An investigation has been conducted at this intersection for the installation of marked crosswalks. This intersection is unique in its configuration given the presence of the two northbound and southbound parallel approaches of La Playa Street and Lower Great Highway intersecting Kirkham Street. As such, additional prudence is necessary before making any control changes at this location. We have also been advised by the City's Attorney's Office and Mayor's Office on Disability that we cannot install marked crosswalks unless the crosswalk connects two curb ramps that are compliant with the Americans with Disabilities Act (ADA). This requirement is intended to ensure equal access for people with disabilities for all new public facilities. This location currently does not contain curb ramps across Lower Great Highway or La Playa Street and pedestrian volumes were observed to be below what we would consider for a marked crosswalk.

Although we are unable to comply with your specific requests, we appreciate your concern and interest in pedestrian and traffic safety. If you have any other questions about this request, please contact Corbin Skerrit of my staff at 415.646.2450.

Hi all,

Thanks very much for taking the time to discuss the La Playa Park project today. (I'm also copying Marcus Davies from the Arts Commission on these notes so that he is aware of what's happening)

Here are the next steps that we discussed today:

- **SFMTA Restroom building** – Ilaria and her Planning Dept team will figure out the technical historic nature of this building, and what can be done to this building on the exterior and interior. However, I cautioned against doing anything to the interior because it will be very difficult to get a replacement restroom built.
    - Community members had originally wanted to either install tile mosaic artwork around the building façade, or install a "La Playa Park" sign above on the roof.
- **Time lapse camera** – I will connect Ilaria with Buffy from Java Beach café so that she can install a time lapse camera to document the movement around the La Playa Park area.
- **Draft proposals** – Planning staff will work from now through the rest of the winter to come up with a few mock-up proposals to present to the community. These mock-ups will go through interagency review first. Ideas would be based on all of the community input already gathered. But a few ideas could incorporate closing off parts of the residential streets along La Playa, as well as pulling up the Muni trains by 48th Avenue
    - This is where the Arts Commission will come into play so that Planning staff can coordinate some designs with them.
    - Ilaria will be circling back with her team at Planning to figure out a better timeline.
    - After all relevant city departments have reviewed the draft proposals, then we will go back out to the Steering Committee to see if there's a vision match. Once there are a couple of proposals that match, then we go out to the larger community and gather feedback.

As a reminder, key short-term improvements that the community members desired:

- Seating
- Landscaping
- Info kiosk/signage for "La Playa Park" (to create sense of identity/gathering space)
- Crosswalk/ground treatments

- La Playa Park Draft Budget (as of May 2016)
- March 22nd Public Workshop Results (best high-level summary of short-term steps)
- Executive Summary from June 2013

- Next Steps document from April 2015 – so that you can see what the group was trying to do, and perhaps where they got stuck

Please chime in if I've missed anything.

Thanks all! I so appreciate your work on this project.

Buffy,

Thank you for your email. The morning of 8/7 is the date and time that works for the majority of the panelists so I need to hold it. Scheduling has been unusually challenging for this project and as a result admin charges are beyond where they should be at this point in the process. In order to bring in the work on time and within budget I need to proceed with the artist selection.

Knowing the decision making is important to you I suggest either finding a way to make this date work, recommending someone who can attend on your behalf, or submitting public comment in advance of the meeting that will be shared with panelists.

Thanks for understanding, and I hope you can join us.

Hi Marcus,

I can't make this meeting. I don't think I indicated that I was available for this date on Doodle but if I did, I apologize. I am sorry to let you know that I do not feel comfortable having the meeting without me. I have worked on this for a long time now and it is going right in front of my cafe for which I am also the property owner. I want to make myself as available as possible but this timing does not work. I would appreciate us working together to find a better time.

Thank you,

Buffy

Hi Ashley,
I hope you are well.

Is the below meeting the one you discussed briefly last week with me on the phone? Have I met Alyssa? I must admit the time commitment on all the Judah St improvement meetings is growing intense and I am not sure where we stand with the other project and how many more meetings in total?

Thank you

Hi Katy and Ashley,

I'm just checking in to see how things are progressing on the La Playa project. Do you have a project manager from Pavement to Parks on board yet? I think once that happens that would be a good point for me to step back in on planning/coordination.

Thanks, and have a good weekend.

Hi all,

We are very excited about this series of the open houses. Thank you Buffy for offering the café space. Please use the attached flyer to spread the word.

We would like to have a **conference call** with you **at 11 am on Thursday, 3/30 to review meeting materials** and format. We will send out the materials to the group to review in advance. Please let me know by 3/24 if 11 am on Thursday works for you.

In general, our goals of the open house are:

- To **remind** the community about the **vision** that was established in 2013 by the community
  - We will create a handout and a board showing the history/timeline of the project. Jen, I would like to get your input on this.)
- To explain the **intent and benefits of a pilot project** and solicit ideas.
  - We should keep in mind that this is a PILOT project, not a capital improvement project. We will have a board showing relevant pilot project examples –Jane Warner Plaza, and benefits of pilot projects.
- To discuss **potential pilot project scenarios** that could improve pedestrian safety and quality of public life (We may create some diagrams showing potential scenarios and tradeoffs)
- To stir up community interest and **recruit** a volunteer group or "working group."

Feel free to give me a call or email me if you have any ideas or suggestions.

Thank you so much for your help.

Dear neighbors,

I am reaching out to you to inform you that our office, in partnership with community members including the La Playa Park Coalition and the La Playa Merchants, as well as the Planning Department, are re-invigorating efforts to improve the area where La Playa Street meets Judah Street in the Outer Sunset. Some of you may have received a letter in the mail about this already, which I have included as an attachment in this email, that describes the history of the project and next steps moving forward.

Our office wanted to invite you and your neighbors to drop by during these two open houses to provide your input on improvements to be made at this intersection. Please let me know if you have any questions in the meantime. I can be reached at (415) 554-7460. Thank you!

La Playa Open Houses

Please drop-in to the open houses at any time within the two hour period indicated below.

Monday | April 3 | 5:00pm – 7:00pm

Subject:	La Playa Plaza concerns
Date:	Wednesday, April 26, 2017 10:13:57 AM

Dear all,
I am writing to voice my deep concerns over the last minute changes made to the La Playa Plaza design.

There was a rich background to the original La Playa Plaza (LPP) design showcased to the community on April 3 at Java Beach. The LPP background was full of long discussions, visions, compromises and lots of back and forth on site to make sure we could legitimately stand behind the big changes proposed. We got there though through the valiant work of all the City Agencies working together. I then went before my neighbors, my friends, my customers and my community to reassure them that this plan was worth supporting. I very sincerely meant it.

Now, last Friday afternoon before our meeting tonight a lone representative was sent down to Java Beach to show me the new plan that would presumably usurp the plan we worked so hard on. I was shocked. I am shocked. I took the weekend to cool off and sat with both plans side by side. I wanted to like the new plan. I wanted to be able to get behind it and get this project complete. But, I can't.

And here's why:
First of all, I sincerely believe that the new plan poses serious safety concerns; the new design feels as if someone cut and paste our old plan without the spirit of the original plan. The original design's primary goal was to make pedestrian safety better. We made very big compromises based on this-- compromises I am not necessarily willing to make for the cut and paste version. Let me be clear: the original version was not my perfect ideal; it was a pragmatic and reasonable well thought out compromise I could get behind.

I feel disheartened writing this email because I am so sincerely grateful for all the time and energy of all who really rallied on this project. We worked tirelessly to make this happen in a timeframe desired. You guys are a wonderful group and I want to say thank you from the bottom of my heart.

But, I have a responsibility to my neighbors who are my friends and I cannot stand before them and tell them I support this new version of the plan because I do not. I fear the last minute changes doomed this process. These changes should have been presented and negotiated up front not in the 11th hour. Again, please know that Pat and I are very grateful for your work, but this new plan just won't work.

Most Sincerely,
Buffy
Buffy Maguire

Subject:	La Playa check-in/design charrette
Date:	Monday, June 19, 2017 10:57:45 AM
Attachments:	image001.png image003.png

Hello team,

We would like to have a quick check-in/design charrette in the week of 6/26. Due to the complexity of this project, the phasing and content of the project keep changing (metamorphosis!); we'd like to share the latest news with you in person and answer any questions.

Since our second open house, a new timeline has been developed to accommodate community feedback – testing the one-way circulation scheme on La Playa. Long story short, changing any circulation patterns (including NX bus route) on La Playa will take at least 6 months from now, so meanwhile we would like to focus on the Muni bathroom corner, which could be done sooner than 6 months. Our current thinking is adding a mural, signage, bulletin board, greening, and seating to the corner area with a parklet to create a pleasant "habitable" space for the community by late Aug/early Sept. This is consistent with the La Playa Park Coalition's proposal from the Phase 1 workshop in March 2014. We will prepare a couple of design proposals for your review by the week of 6/26. The proposals would be somewhat conceptual, not fully baked, for the purpose of soliciting feedback.

At this meeting, we'd like to talk about:

- Project phasing/ outreach plan
- Muni bathroom corner design
- Maintenance plan

This meeting is intended to be a small group check-in, and we are inviting the La Playa Coalition team and a couple of folks who showed strong interest in getting involved in this project. Please reply with your availability by end of this Wednesday (6/21).

- Tuesday 6/27: 6 pm to 8 pm at Java Beach Cafe or somewhere in the neighborhood
- Wednesday 6/28: 10 am to 12pm at Java Beach Café
- Thursday 6/29: 6 pm to 8 pm at Java Beach Cafe or somewhere in the neighborhood

If any of these times does not work for the majority of the group, we might try the following week (although it might be harder because of July 4th).

Thank you!
Seung-Yen

Importance:	High

Nick
I am working on this project in the Sunset through Groundplay.
http://groundplaysf.org/projects/la-playa-pedestrian-improvements/

The project is going to MTAB on 06/20 and to prestaff next week.

We have to do a one-day demonstration to show the benefits of the proposed space and how the geometry would work.
We spoke to Luis Montoya who suggested an ISCOTT clearance –he might send a memo to the ISCOTT team.

We are looking at May 20th or perhaps May 27th

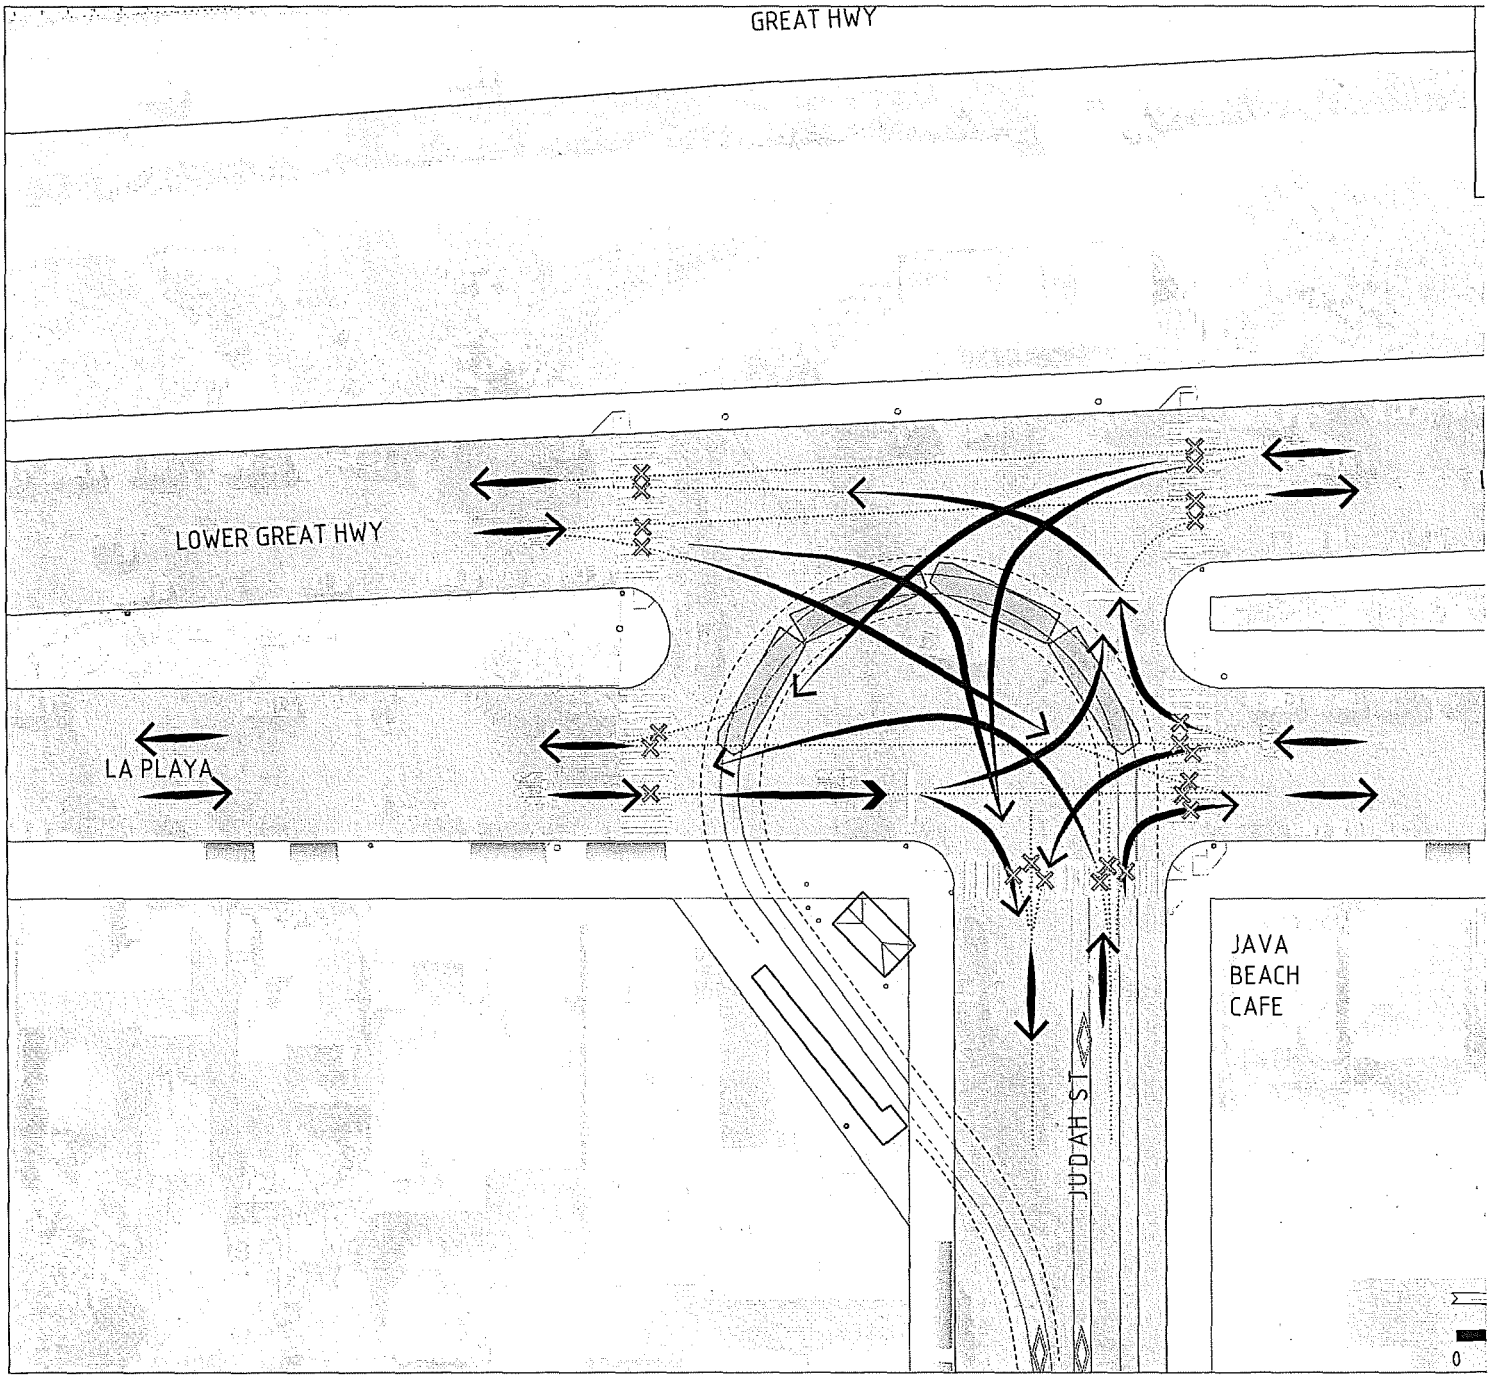

What is the latest we can apply?
Thank you.

El Proyecto Piloto de Mejoramiento Peatonal de La Playa es una iniciativa impulsada por la comunidad para mejorar la seguridad y la movilidad de los peatones, mejorar el carácter comunitario y crear un espacio público vibrante en la intersección de Judah Street con La Playa Street.

Desde 2012, los residentes, líderes comunitarios y propietarios de negocios han desarrollado una gama de ideas para volver a imaginar el área de La Playa Park, una de las intersecciones clave de Gateway de Outer Sunset. En 2016, el Departamento de Planificación de San Francisco tomó el liderazgo para desarrollar e implementar más las ideas de la comunidad a través del programa Groundplay, cuya meta es construir instalaciones temporales que transformen los espacios públicos subutilizados en lugares comunitarios. Este proyecto piloto realizará temporalmente la visión de la comunidad y probará ideas para mejoras a largo plazo.

Únase a nosotros para una serie de dos o más jornadas de puertas abiertas de la comunidad para discutir el diseño y la fase del proyecto. Por favor venga a las jornadas de puertas abiertas en cualquier momento dentro del período de dos horas indicado a continuación.

¡VENGA Y COMPARTA SUS IDEAS SOBRE CÓMO MEJORAR Y EMBELLECER LA INTERSECCIÓN DE LA PLAYA Y JUDAH!

N-Judah Gateway Plaza
Public Art Project Outline

BACKGROUND

The N-Judah Gateway Plaza project is a community-driven initiative to improve public safety and the quality of public space at and around the N-Judah turnaround tracks where the end of Judah Street meets La Playa and Lower Great Highway. The project is intended to be implemented as a pilot to create a new opportunity for public space at an important location in the Sunset neighborhood. The temporary installation may also help guide a long-term redesign of the space as part of an upcoming SFMTA Muni Forward project for the N-Judah line.

ART OPPORTUNITIES

Artist-designed sculptural seating made from stone, concrete, ceramic tile or other materials suitable to the site's marine environment. Artwork will be located within the project site in order to maximize functionality and achieve the greatest visual impact.

PROJECT GOAL

The project will promote use and enjoyment of the Gateway Plaza by providing functional, comfortable artist-designed seating of the highest aesthetic quality made of durable materials suitable to the demanding environment of the project site.

PROJECT BUDGET

Admin Fee	**$50,000**
Selection Costs	**$6,500**
Artist Contract Amount	**$138,000**
Installation Allocation	**$10,500**
Signage and Documentation	**$2,500**
Contingency	**$17,500**
Conservation	**$25,000**

ARTIST RECRUITMENT APPROACH AND ELIGIBILITY

Arts Commission staff will select a short list of artists from the 2017/2018 Prequalified Artist Pool.

ARTIST SELECTION PROCESS

The short list of qualified artists will be presented to the N-Judah Gateway Plaza Artist Selection Panel consisting of one representative from Planning, one Arts Commissioner, one community representative, and two arts professionals. The panel will identify three finalists who will be invited to develop conceptual site specific proposals after attending an orientation session with the project team and key stakeholders. These finalists will be paid an honorarium of $1,000, inclusive of travel expenses, for development of a proposal.

The N-Judah Gateway Artist Selection Panel will reconvene to consider the finalists' proposals in an interview format and will select one artist and an alternate for the project for recommendation to the Arts Commission.

COMMUNITY INVOLVEMENT

- SFAC staff will present an overview of the public art project in conjunction with the N-Judah Gateway Plaza presentation to the community.
- A community representative will serve on the N-Judah Gateway Plaza Project Selection Panel and will participate in the Artist Orientation
- The finalists proposals will be on display for public comment near the project site and on the SFAC website for two weeks prior to the final selection panel meeting
- All selection panels, Visual Arts Committee (VAC) and Commission meetings are open to the public.

TIMELINE (Subject to change)

Project Outline Approval at VAC	**February 15, 2017**
Community Meeting	**TBD**
First Project Artist Selection Panel	**Early March, 2017**
Artist Finalist Orientation	**Late March, 2017**
Proposal Development	**April, 2017**
Finalist Proposals Due	**Early May, 2017**
Public Display of Proposals	**Mid May, 2017 (on display two weeks)**
Final Project Artist Selection Panel	**Late May/Early June, 2017**
VAC Approval	**June 21, 2017**
Arts Commission Approval	**July 10, 2017**
Artist Under Contract	**July, 2017**

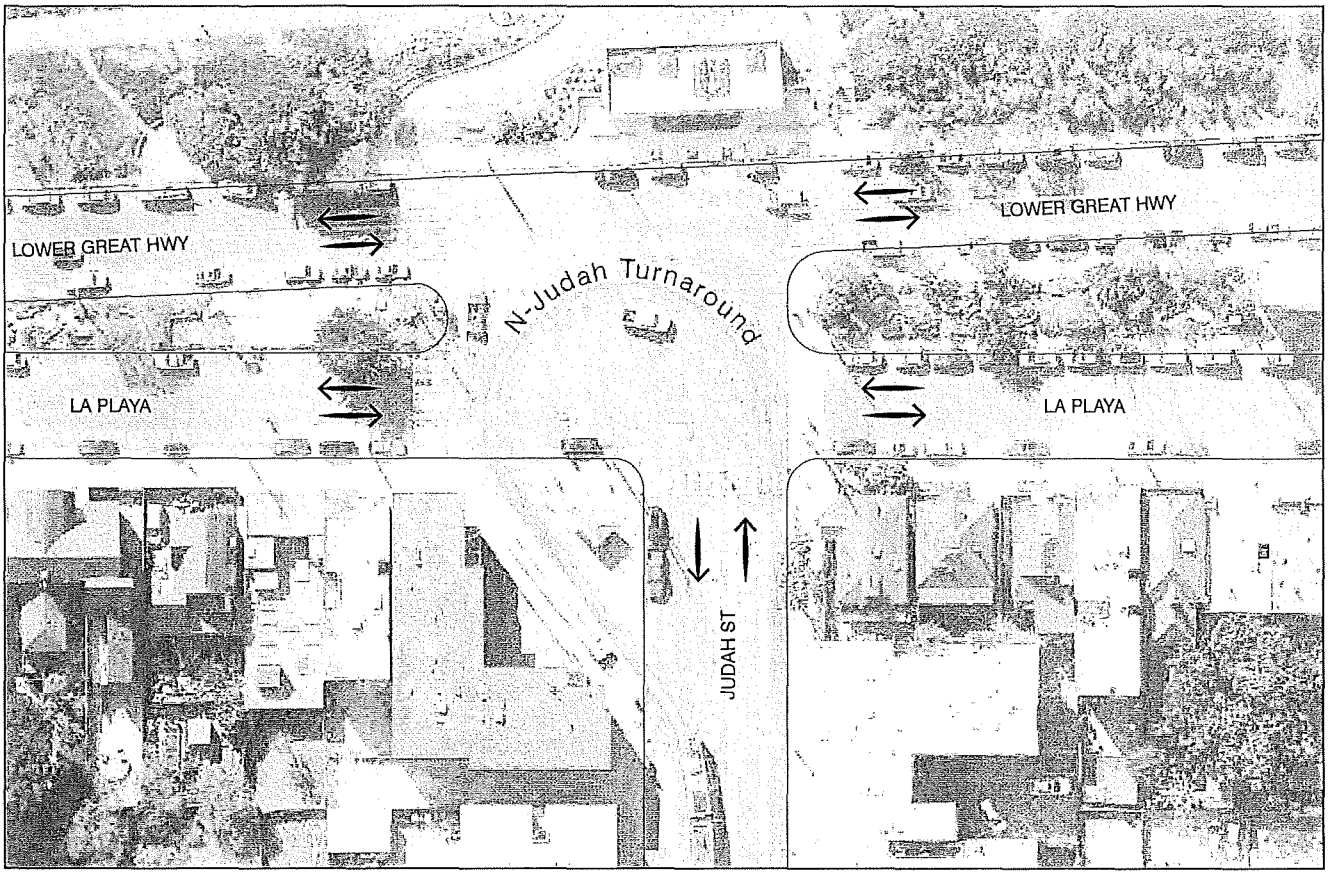

FURTHER INFORMATION

Contact Marcus Davies, Public Art Project Manager at (415)252-2232 or by email at marcus.davies@sfgov.org.

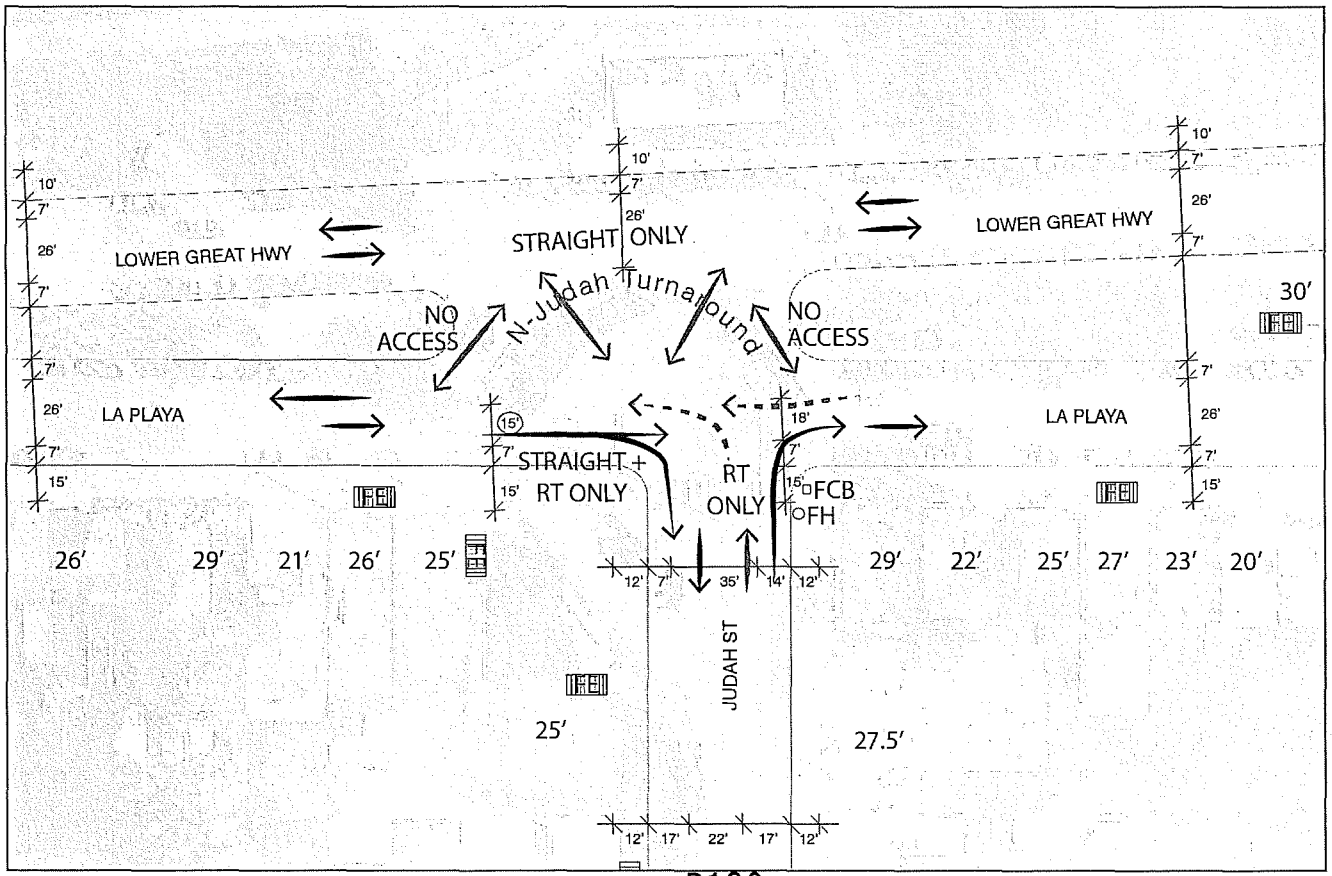

N-Judah Gateway Plaza Art Enrichment Project Schedule (subject to change)

Project Outline approved by Visual Arts Committee (VAC)	February 15, 2017
First artist selection panel	April 27, 2017
VAC approval of finalist selection	May 17, 2017
Finalist orientation w/project team	Week of May 22, 2017
Artist proposals due (six week proposal development)	July 7, 2017
Proposal display/public comment	July 10 — July 21, 2017
Second artist selection panel	Week of July 24, 2017
VAC approval of panel selection and artist contract	August 16, 2017
Full Commission approval of panel selection and artist contract	September 5, 2017
Artist under contract	September, 2017
Design Development, feasibility, preliminary engineering	September — November, 2017
VAC approval of DD phase	November 15, 2017
Construction Documents	November — December, 2017
VAC approval of CD phase	December 20, 2017
Fabrication	January — May, 2018
Installation	May/June, 2018

CONCEPTUAL SHORT-TERM DESIGN
(1/18/2017)

— Concepts for La Playa Plaza
(sequencing south from Lincoln down to Kirkham)

Purpose: Improved Safety, usage, walkability & appearance

From Lincoln:

— Create angle parking along the west side of La Playa (3/4 block) until garages begin. (recomend 2 hr parking 7am - 7pm except Sun discourages 24 hr parking

At Irving:

— Make La Playa & Irving a 4way stop.

— Mak Great Hwy & Irving a 3way Stop.

La Playa Park North:

1) Formalize City possession of the property (easements have already been created since 2003
   a) through donation or (CONTACT NEW OWNERS)
   b) Condemnation

2) Add a water drinking fountain with
   — hose adaptable spiket
   & — dog water drinking feature

3) Remove Large Plastic water container & mounting.

4) Install new night lighting.

5) ~~Brick~~ Brick in the interior park pathways.

6) Frame + replant rock rose beds.

7) Install cinder block or brick retaining walls where needed.

8) Replace benchs with granite slab benchs.

9) Install signs regarding. { Dogs, trash, butts, blocking Pathways Hours Alcohol & drug use.

"Keep off the Plants"

10) Install dog hitches.

The Public Convenience Station & surrounding Area Lower Great Hwy & Judah { BAN use of the Area for private storage!

1) Remove the ~~##~~ bushes & shrubs on the north side of the north staircase — replace with groundcover. (a safety + beautification measure) continuing problem with people concealing illegal activity & unkempt appearance.

Consider raised use of facility rooms inside with side entrance ways:

The P-Station Area cont'd DATE

2) Fensing in (To deter public traversing) the areas directly abutting the building & staircases. Planting these areas with low lying colorful plants based on the established scheme.

3) Decorative tiling + painting on the surrounding sidewalks & staircases (Beach + Ocean theme)

Gateway to the Pacific

4) Roof top Signage "La Playa Plaza" in keeping with the art Deco Style

5) Continue the pigeon abatement measures around the front of the building.

6) Signage top the stairs - (A Mapping placque)
- you are here ★
- ← Great Hwy Promenade →
- Ocean Beach Promenade
- Noriega O.B. Promenade
- La Playa Park - La Playa Village
- The Buffalo Pens
- N Judah Stop
- Beach Chalet
- Cliff House
- Sutro Park
- Golden Gate Park
- Murphys Wind mill
- The Zoo

7) Install a Surf Shower near the foot wash.

DATE P94

The MUNI Bathroom area.
(La Playa & Judah SE. corner)

1) Selected Trees - appropriate to height, micro climate & emphasizing color & flowering - (Consult Friends of the Urban Forest)"

2) Continue granite slab theme for benching

Decorative
3) Bicycle racks & dog Hitching (EAST Area)

4) Possible spot for Police Sub station on the east side.

5) Signage Placques { - History of Judah
- History of the Area (Carville ect)

- Map of the Village (Stores + restaurants)
- MUNI schedules + Routes
- Boarding signs (On the Handicapp ramp Handicapp & stroller boarding only !!! General boarding at Judah & 48th Ave.

6) Remove & Replace volunteer tool box. Also a possible place for First responders emergency cache storage.

Muni B-Room cont:

7) The Building itself
— sign of the root
La Playa { Village / Park / Plaza } Depot ?

— Trump L'Oeil painting of a depot entrance (Behind the counter (Robin Williams as Ticket Taker in old Muni Hat)

North wall

or

— Simple Sign:

It

SF Muni

— Climbing vines trellised up and over the building like bougainvillia or jazmin.

8) — Remove any unessesary wrire from the Bolding

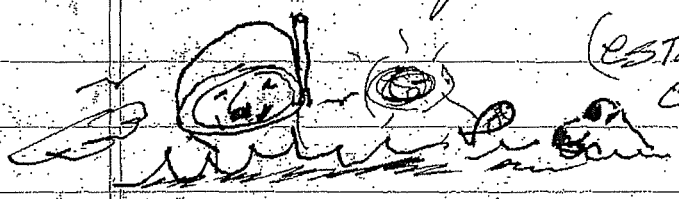

The Handicapp Ramp: { See Boarding Signage.

1) Rain shelter roofing.

2) Decorative sign – continue beach/ocean theme

"La Playa Village, the decompression Zone of San Francisco."

(establishes neighborhood character & dress)

La Playa Park South:

1) The corner at Judah.

– A bulb out following the contours of the tracks. Wave shaped.

– First Responders Honorary flag

– Possible Small audience Performance area or display area –

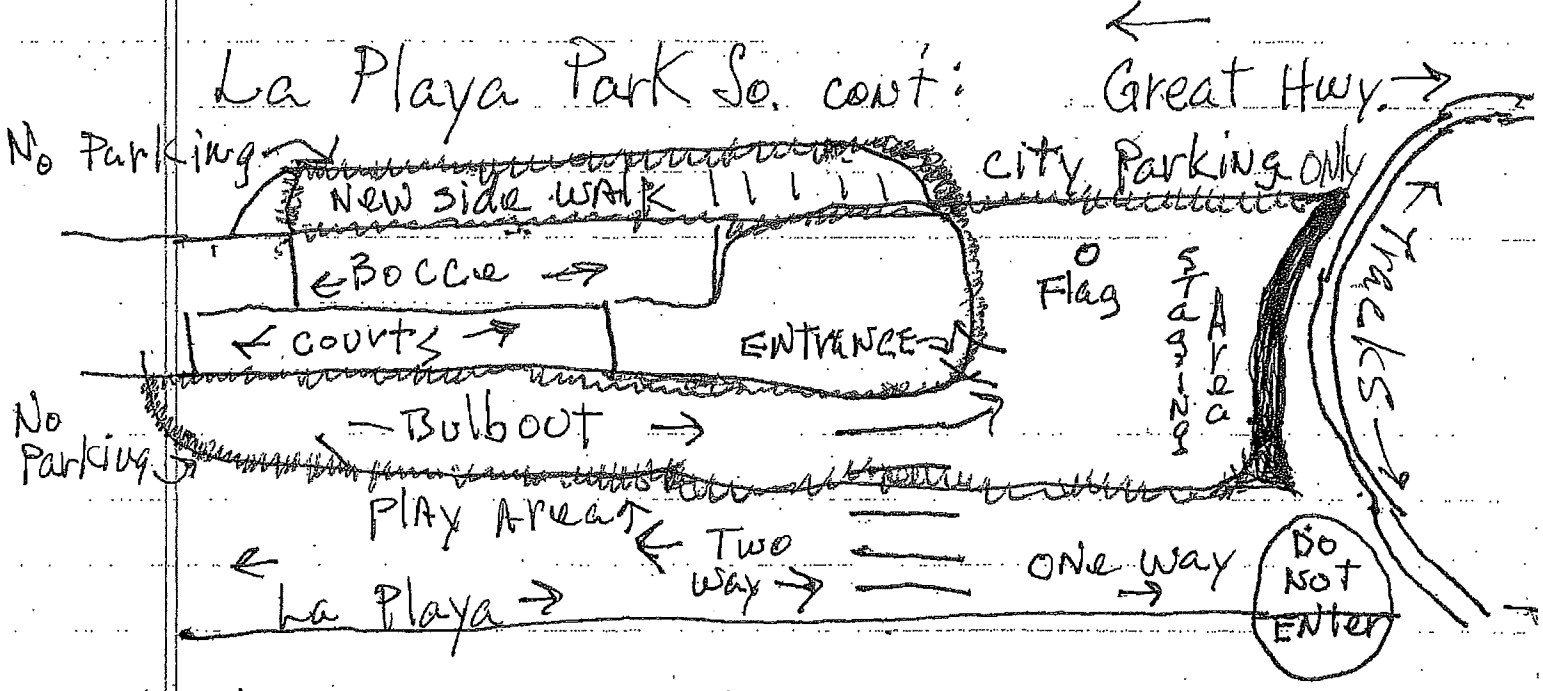

– Green park hanging sign

– Retaining Wall along the soil edge.

Terminate area for outdoor tool box or emergency cache box

La Playa Park So. cont:

1) The corner at Judah cont

— The bulbout allows for Police (City business Parking) on its westside

— A sidewalk extends south from the bulbout ~~inclu~~ the length of the bocce courts on the west side. (Eliminates 4 car spaces) on Great Hwy.

— The bulbout continues down La Playa on the east side to the end of the court. (Eliminates 5 parking spaces)

— Connect power to the interior Street Lamps by running conduit t ~~the~~ lines to the PUC. street Lamp Cristy box About 20ft. Add 4 plug outlet in a Lockup box.

— A curtesy curb on the east side running south To Kirkham from the bulbout.

DATE

La Playa Park So. continued

2) Inside the Park

- Finish the base of the antique street lights.
- Solidify & reorganize the benching
- Install fencing & planterbed bordering where needed
- Have arborist Prune the cypres tree.
- Repair the Planter boxes.
- Reinforce the bocce ball court side borders
- Replant rock roses.
- Relandscape the southern end.

Kirkham at La Playa & Great Hwy

1) Pedestrian recognition Zone demarcation crossing La Playa + Great Hwy Both Sides

~~2) Crosswalk~~

2) Crosswalk over Kirkham North-South @ La Playa.

La Playa Park

laplayaparkinfo@gmail.com

March 15, 2017

Dear Community Members,

In 2012, community members led by the La Playa Park Coalition initiated a project to *re-envision* the La Playa and Judah Street intersection. The goal of the project was and still is to improve pedestrian safety and mobility, to enhance the community character, and to create a new vibrant public space for community members to gather and enjoy. Residents, community leaders, and business owners attended a series of workshops in 2012, 2013 and 2014 and developed a new vision for the site. Ideas included seating, landscaping, artwork, signage, tables, and traffic and pedestrian safety improvements.

Commented [SH1]: I've added these to reflect the previous workshop results; I don't think the community report addressed access to the beach. Ashley, do you think adding 'access to the beach' as a goal would be received well by the neighbors?

Ashley: I think we should stick with original goals of project to make sure our steering group is on board.

Supervisor Katy Tang last year allocated enough funding to build much of the community's vision for the area. We, La Playa Park Coalition, Planning Department, and Supervisor Katy Tang's office, are reaching out to you, the neighbors, to jump start the next phase of project, which is refining and finalizing the design for short-term changes and starting construction of some of the ideas developed so far. We will be hosting a series of two or more community open houses to discuss the design and phasing of the project and to hear additional ideas from community members.

Commented [IS2]: It would be great to mention a demonstration day in May 2017 if you feel comfortable.

Ashley: Ilaria, please add in some language describing that.

Commented [SH3]: Maybe we should leave it out for now.

La Playa Open Houses

Please drop-in to the open houses at any time within the two hour period indicated below. For those who are unable to make the open houses, please contact ~~X~~Ilaria Salvadori at Ilaria.salvadori@sfgov.org or Seung-Yen Hong at seungyen.hong@sfgov.org.

Field Code Changed

Monday | April 3 | 5:00pm – 7:00pm
Beachside Cafe
4300 Judah Street @ 48th Avenue

Wednesday | April 26 | 5:00pm – 7:00pm
Beachside Cafe
4300 Judah Street @ 48th Avenue

Commented [SH4]: Can we say TBD?

Ashley: I think we need to say it in the letter so people can put it in their calendar now. I don't want to miss people if they don't come t the first one, then they won't find out about the second one if we don't send another letter.

SYH: got it. ☺ Let's do it!

La Playa Open Houses: Come and share your ideas on how to improve and beautify the La Playa and Judah intersection!

The La Playa Pedestrian Improvements Pilot project is a community-driven initiative to improve pedestrian safety and mobility, to enhance the community character, and to create a vibrant public space at the intersection of Judah Street with La Playa Street.

Since 2012, residents, community leaders, and business owners have developed a range of ideas to re-envision the La Playa Park area, one of the Outer Sunset's key gateway intersections. In 2016, Supervisor Katy Tang allocated funding to the Groundplay program, the goal of which is to build temporary installations that transform underused public spaces into joyful community places. Through this pilot project, we will be able to temporarily realize the community's vision and test ideas for long-term improvements.

We - La Playa Park Coalition, Planning Department, and Supervisor Katy Tang's office – are reaching out to you to jump start this pilot project. We will be hosting a series of two or more community open houses to discuss the design and phasing of the project and to hear additional ideas from community members.

La Playa Park at Judah/La Playa/Lower Great Highway intersection

La Playa Park, at the gateway to Ocean Beach, continues to be transformed into a vibrant c space. The La Playa Pedestrian Improvements Pilot project will build temporary installations to test ways of implementing the community's vision to improve pedestrian safety and create a strong sense of place. The possible installations, generated by the community, include murals, seating, greening, art installations, and more!

STOP
Greetings FROM LA PL

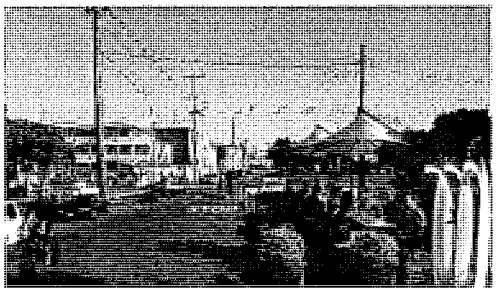

The La Playa Pedestrian Improvements Pilot Project

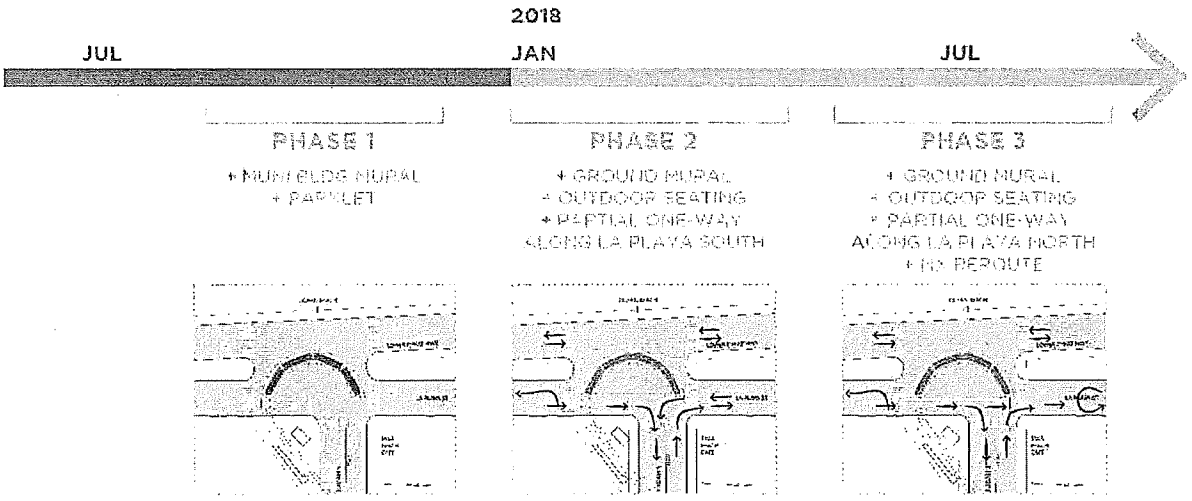

The La Playa Pedestrian Improvements Pilot project is a community-driven initiative to improve pedestrian safety, to enhance community character, and to create a vibrant public space at the intersection of Judah Street with La Playa Street.

Since 2012, residents, community leaders, and business owners have developed a range of ideas to re-envision the La Playa Park area. In 2016, the San Francisco Planning Department took the lead in further developing and implementing the community's ideas through the Groundplay program. The goal of the Groundplay program is to build temporary installations that transform underused public spaces into community places. The La Playa pilot project will temporarily realize the community's vision and test ideas for long-term improvements.

In April 2017, the La Playa Park Coalition, the Groundplay team of San Francisco Planning, and Supervisor Katy Tang's office co-hosted a series of open houses to solicit community input on the pilot project proposals, which included changing traffic circulation patterns at the Judah/La Playa intersection. Based on community feedback, the project team revisited the pilot project proposals and phasing plan:

- **Phase 1** (*Fall 2017*): Enhance and beautify the area around the Muni building on the southeast corner of Judah/La Playa. This includes murals, greening, outdoor seating, and signage as recommended at the March 22, 2014 community workshop. No circulation change is proposed for this phase.
- **Phase 2** (*Winter 2017 to Spring 2018*): Enhance and beautify the area along La Playa Park, including creating a painted outdoor seating space next to the La Playa Park. Test and monitor the first traffic circulation change on La Playa Street: About 100 feet of La Playa Street south of

Judah will become a one-way northbound street and the area between Lower Great Highway and La Playa Street will be closed to traffic to discourage dangerous vehicular maneuvers.

- **Phase 3** (*Spring 2018 to Summer 2018*): Continue beautifying the area along La Playa Park with greening and ground murals. Test and monitor the second traffic circulation change on La Playa Street: About 100 feet of La Playa Street north of Judah will also become a one-way northbound street and NX bus will be rerouted off of La Playa to another street. The area between Lower Great Highway and La Playa Street will continue to be closed to traffic to discourage dangerous vehicular maneuvers.

The La Playa Pilot project team is currently working on developing the design for Phase 1 and will host a series of community workdays in September to install the Phase 1 project together with community members. Please check our project website for updates: http://groundplaysf.org/projects/la-playa-pedestrian-improvements/

SFMTA
Municipal Transportation Agency

One-Way Street Request Form

Primary Contact Information

Name	Email Address	Phone Number

Street Address	Zip Code

Specify the Location and Concerns

The SFMTA will evaluate the need for one-way circulation on a block-by-block basis; a separate application must be submitted for any adjacent blocks. Please define your block:

_____ from _____ to _____
Your Street *Cross Street* *Cross Street*

Please provide more detailed information about concerns on your street, and why you believe one-way circulation will help improve conditions:

_____

_____

_____

_____

Neighborhood Petition

To be considered for one-way circulation, you must obtain signatures from a majority (50% + 1) of households on your block that would be affected by the change, using the petition form attached. One signature is allowed per address.

Signatures are required as part of the application process to ensure community support before the planning process begins. Residents on your block will be given an additional opportunity to attend/comment at a future public hearing if the proposal is accepted.

Please return to:

Hello,

Thanks for coming to the meeting yesterday. I hope you stayed dry the rest of the night.

The discussion we had on the proposed conceptual design was really helpful for us – we appreciate that you (the Friends of La Playa Park) act as a conduit between the City family and the community and inform us about what the community is most concerned about and excited about. While we had a great discussion, we left the meeting with the agreement that it would be beneficial for all of us to meet again on the site to further discuss and solicit feedback on the conceptual design. We will work with Ashley to find the best time for everyone. Stay tuned!

As requested, I've attached a copy of the presentation for your reference. Please feel free to contact us if you have any questions.

Thanks,

Seung Yen

Dear Jen, Buffy and Steve,

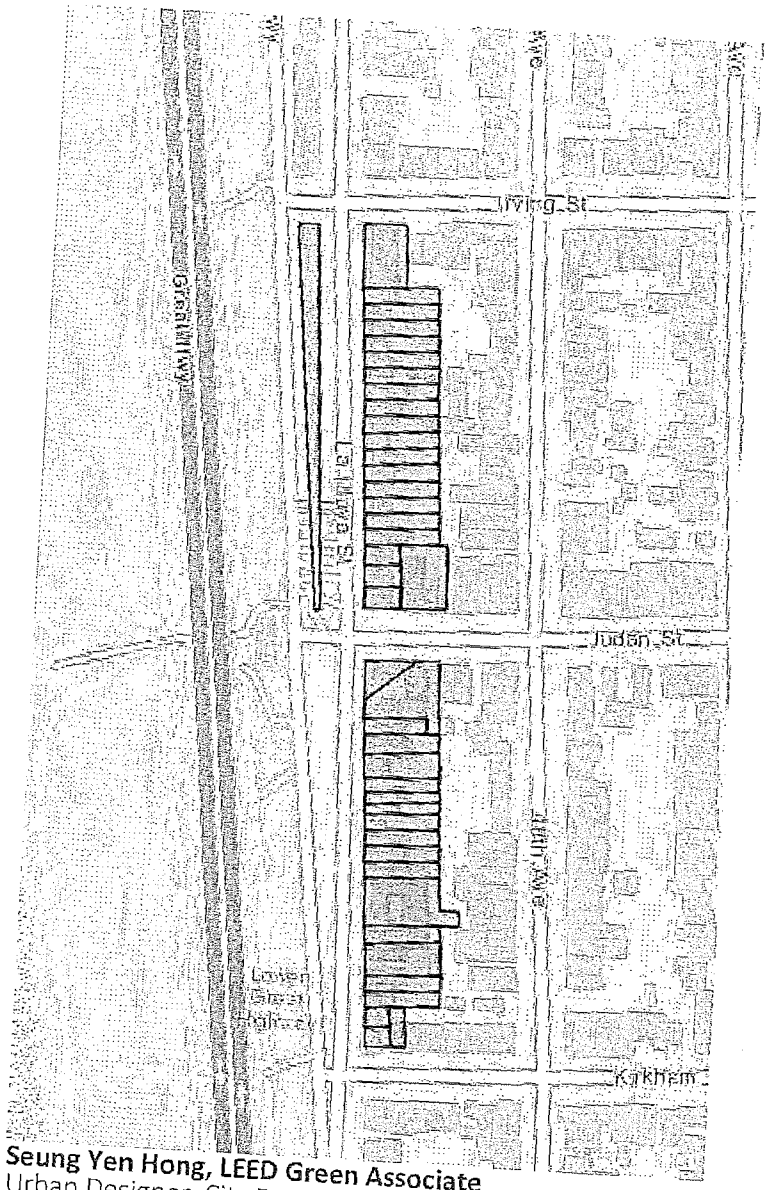

We need your help to file a petition(s) supporting one-way circulation (northbound) on La Playa approximately between 1420 La Playa and 1392 La Playa. We need signatures from a majority (50% + 1) of households on the two blocks that would be affected by the change, highlighted in the map below. We are hoping to get the signatures by 3/9, but we understand it's only 2 weeks from now. I will try to talk to MTA folks tomorrow if we can extend the deadline.

As stated in the attached petition template, a resident living on the block affected by this one-way street change should file the petition. In this case, Buffy Maguire, the owner of Java Beach Café could file the petition for the block north of Judah. Do you have any suggestion for the block south of Judah?

Sahiti, copied on this email, kindly agreed to help you fill out the petition. We encourage you to make sure the petition clearly states that it is a *temporary* change. Please let me or Sahiti know if you have any questions.

I can pull out addresses from our database if you need – we have both owners and residents addresses. I've attached residents addresses for your reference.

Thank you.

Subject:	N Judah turnaround
Date:	Tuesday, November 29, 2016 9:55:55 AM

Hi Ilaria,

We just had a crash at the F line terminal that I need to go to so will not be able to make the meeting regarding the n turnaround. Michael will be attending thought.

Basically, the near term stuff seems fine. However, I don't know what the point is for long term ideas...you note they are Muni Forward designs? As I said before we have $0 for moving track with the Muni Forward proposals, so please do not imply that we do by labeling it Muni Forward. The design itself is interesting but a lot needs to be worked out...buses need to be able to use the space, where does the track make the U turn etc. but not a bad concept...but totally unfunded and no funding in sight for it so please do not make it seem like there is. It is nothing more than a concept at this point that has no buy-in from SFMTA or Muni.

Thanks,

Sean

Date: Friday, April 28, 2017 3:05:35 PM

Buffy,

Thanks for the quick reply to the survey. The orientation will need to be scheduled the week of 5/22 in order to keep things on track. Please take a look at the timeslots provided and see if more than one option will work for you. It would be great if the artist could have the opportunity to hear from you directly.

Thanks,
Marcus

Hi Ashley,

Marcus Davies is working on scheduling the first artist selection panel for early March. He's asked our recommendation regarding a community representative, and we said we would discuss with you and get back to Marcus. Do you have time to talk about this sometime today or tomorrow?

Thank you,
Seung Yen

JD, Ashley, and Buffy,

I'm writing to confirm that the first artist selection panel for the N-Judah Gateway Plaza will be on **Thursday, April 27th, from 1pm to 5pm**, here at 401 Van Ness Avenue. I'll follow up with a formal calendar invite shortly, but please let me know ASAP if you are unable to attend.

Thanks,
Marcus

Good Morning Everyone,

Please see the attached draft copies of the art enrichment project outline and project schedule and let me know if you have any questions or comments.

My plan is to calendar this for the February 15th meeting of our Visual Arts Commission. This would allow us to schedule the first artist selection in March, with the ball rolling from there.

Best,
Marcus

Hi everyone,

I apologize for all of the emails. I created a new Doodle Poll for panel dates starting April 20th.

I really appreciate everyone's time and patience while we find a date to schedule the panel. Thank you in advance for filling out the new poll as soon as possible.

http://doodle.com/poll/ip8x84dewkvfev5p

Please feel free to contact me with any questions.

Thank you,
Alyssa

Date:	Friday, April 28, 2017 10:53:06 AM
Attachments:	N-Judah Gateway SFAC Schedule_Updated 4-28-17.pdf

Ashley, Seung Yen, Ilaria, and Buffy,

Following the first selection panel yesterday—which went very well—I've updated the project schedule with more accurate target milestones. Please see the attached. Despite a few dates being pushed out, specifically Commission approvals, our 2018 install target remains unchanged.

Buffy, you mentioned vacation planning yesterday. I've set our artist orientation for the week of May 22nd, which I need to hold in order to keep subsequent steps on track. I hope this is useful in your planning.

Thanks, and let me know if you have any questions.

Marcus

Team,
Hope this email finds you well.

We would like to meet with you and office of Supervisor Tang to review a proposed temporary proposal to install a plaza at the N-Judah terminus. We will also have designs for long term proposals to be considered in conjunction with future Muni forward improvements.
The temporary project is fully funded and on a fast track so it would be great to have your input early.

Good morning!

As we discussed, I drafted a draft text describing the La Playa project's timeline for your newsletter. I know we talked about setting a date for the Phase 1 installation, but at this point, it is hard to predict the future of this project – we will need to go through public notice periods as part of the parklet permission process, and since we haven't yet submitted the parklet application I'd hold off on settling the installation date.

I forgot to mention it last time, we have some funding left for "printing" tasks, so Ilaria, Ben, and I thought we could create postcards for the La Playa project. See attached for a draft design.

Please let us know if you have any comments or questions.

Thanks,
Seung Yen

Hi Ashely,

I checked in with my director about you joining the selection panel as a community rep and after some discussion we'd like to have you at the table as a client representative, given that Katy's office is funding the art enrichment project. You'll still be voting, but it means we need to identify someone that can join us as a community rep. Let me know if your office has any suggestions, and hopefully this is an agreeable arrangement.

Thanks,
Marcus

Ashley,

It looks like the morning of 5/31 from 9:30-10:30 will work for everyone except Buffy. I need to book this to keep from blowing my schedule and spending more admin $ on scheduling efforts. Please ask Buffy to find time to attend. Ten minutes of her time is sufficient and we'll be meeting literally outside the café doors. I can't make this more convenient. Thanks for understanding and for your help in making this happen. I'll be sending out a calendar invite first thing tomorrow morning.

Ashley,

7/31, 8/1 and 8/2 don't work, as Joseph is out of town that week. JD teaches on Tuesdays, so 8/15 is a no go. 8/16 is out because we have a commission meeting that day that requires a lot of Alyssa's time to prepare for.

I'll keep 8/14 in the mix but need Buffy to consider 8/17 , 8/18, and two other dates of her choosing that are not Tuesdays. I need to hear from her about this today.

Thanks,
Marcus

Hi Illaria,
Thank you for your update. In order to meet the 24th timeline, we would like to suggest the following timeline and action steps:

1. I will be sending over to your team, our feedback, requested revisions, and additional questions of the 1st draft proposal/design that your team created - (2/11/17)
2. Illaria and team draft 2nd proposal design (2/13-2/16)
3. Illaria and team send to La Playa group via email (or upload to Jen's dropbox) for review
4. La Playa group reviews 2nd design (2/17- 2/20)
5. La PLaya group sends comments on 2nd design to Illaria and team via email 2/21
6. La Playa group and Illaria/team tentatively meet in-person or online (video conference call) ~22nd (Jen can host zoom video conference call, need be) to make any final edits, comments
7. Submission on the 24th

Would this work with everyone? Also, Illaria / Seung Yen - can you please send over a electronic/soft copy of the 1st design proposal. For when I submit our comments - I would like to refer to this and will be making comments on the actual design for clarity of our comments, revisions.

Thank you!
Best,
Jen

Dear *Friends of La Playa Park,*

The Groundplay team would like to reschedule tomorrow's meeting to next week (instead of week of 02/21).

We learned that in order to keep our funds available for this project we need to ***install before 06/30/17-*** our funding will be literally gone after that. We have figured out the permit approval flow and a series of permit milestones that need to be met- the first important deadline to file to submit finalized drawings is on 02/24 so it is in the community's interest to settle on an ideal design ASAP. I don't think we are far from being able to do that.

We recommend that we meet no later than Friday 02/17/17.

Thanks so much.

Katy,

Thank you for the update and my apologies for the delayed reply. The Arts Commission is ready to work with the project team as soon as it makes sense to begin discussing art opportunities and options. Seeing that seating remains a key improvement goal, I still think an exploration of artist-designed seating is a good place to begin the conversation. We've had great success with this on other projects, and it's a good way to really extend the art budget. That said, I'll wait to hear from you and Ilaria about next steps.

Hi all,

Thanks very much for taking the time to discuss the La Playa Park project today. (I'm also copying Marcus Davies from the Arts Commission on these notes so that he is aware of what's happening)

Here are the next steps that we discussed today:

- **SFMTA Restroom building** – Ilaria and her Planning Dept team will figure out the technical historic nature of this building, and what can be done to this building on the exterior and

interior. However, I cautioned against doing anything to the interior because it will be very difficult to get a replacement restroom built.
    - Community members had originally wanted to either install tile mosaic artwork around the building façade, or install a "La Playa Park" sign above on the roof.
- **Time lapse camera** – I will connect Ilaria with Buffy from Java Beach café so that she can install a time lapse camera to document the movement around the La Playa Park area.
- **Draft proposals** – Planning staff will work from now through the rest of the winter to come up with a few mock-up proposals to present to the community. These mock-ups will go through interagency review first. Ideas would be based on all of the community input already gathered. But a few ideas could incorporate closing off parts of the residential streets along La Playa, as well as pulling up the Muni trains by 48th Avenue
    - This is where the Arts Commission will come into play so that Planning staff can coordinate some designs with them.
    - Ilaria will be circling back with her team at Planning to figure out a better timeline.
    - After all relevant city departments have reviewed the draft proposals, then we will go back out to the Steering Committee to see if there's a vision match. Once there are a couple of proposals that match, then we go out to the larger community and gather feedback.

As a reminder, key short-term improvements that the community members desired:

- Seating
- Landscaping
- Info kiosk/signage for "La Playa Park" (to create sense of identity/gathering space)
- Crosswalk/ground treatments

Attachments:

- La Playa Park Draft Budget (as of May 2016)
- March 22nd Public Workshop Results (best high-level summary of short-term steps)
- Executive Summary from June 2013
- Next Steps document from April 2015 – so that you can see what the group was trying to do, and perhaps where they got stuck

Please chime in if I've missed anything.

Thanks all! I so appreciate your work on this project.

Importance: High

Ashley, hello. Perfect timing.
I was about to email you an update.

We have developed a few designs and we are refining them. We have a diagram for the temporary project and a few schemes for the long term project.

We would like to set up a meeting with SFMTA in 2 weeks (11/16, 11/17 or 11/18). At MTA I would like to invite Will Tabajonda, Sean Kennedy, Tom Mc Guire or Jamie Parks.
We would also like to start meeting with the arts commission to gauge their interest in participating and funding some of the ideas. I would like to do this probably early December (week of 12/05) after we have met with MTA.
We won't need to meet with the Friends Group until early January when we hope the permit will be available.

Please let me know how you prefer to proceed to set up these meetings.
Thanks,
Ilaria

Hi all,

Thanks very much for taking the time to discuss the La Playa Park project today. (I'm also copying Marcus Davies from the Arts Commission on these notes so that he is aware of what's happening)

Here are the next steps that we discussed today:

- **SFMTA Restroom building** – Ilaria and her Planning Dept team will figure out the technical historic nature of this building, and what can be done to this building on the exterior and interior. However, I cautioned against doing anything to the interior because it will be very difficult to get a replacement restroom built.
    - Community members had originally wanted to either install tile mosaic artwork around the building façade, or install a "La Playa Park" sign above on the roof.
- **Time lapse camera** – I will connect Ilaria with Buffy from Java Beach café so that she can install a time lapse camera to document the movement around the La Playa Park area.
- **Draft proposals** – Planning staff will work from now through the rest of the winter to come up with a few mock-up proposals to present to the community. These mock-ups will go through interagency review first. Ideas would be based on all of the community input

already gathered. But a few ideas could incorporate closing off parts of the residential streets along La Playa, as well as pulling up the Muni trains by 48th Avenue

Hi Ashley,

Yes! We'd like to meet again sometime soon! Do you think it is possible to schedule an on-site meeting for next week? It would be more about getting additional feedback from the Friends of La Playa on programing of the Gateway plaza than us presenting additional materials.

Thanks,

Seung Yen

Hello,

Thanks for coming to the meeting yesterday. I hope you stayed dry the rest of the night.

The discussion we had on the proposed conceptual design was really helpful for us – we appreciate that you (the Friends of La Playa Park) act as a conduit between the City family and the community and inform us about what the community is most concerned about and excited about. While we had a great discussion, we left the meeting with the agreement that it would be beneficial for all of us to meet again on the site to further discuss and solicit

feedback on the conceptual design. We will work with Ashley to find the best time for everyone. Stay tuned!

As requested, I've attached a copy of the presentation for your reference. Please feel free to contact us if you have any questions.

Ashley,

The week of 02/06 is really difficult for our team as we have 2 community meetings.

We could keep Monday 01/30 or if the reason to postpone is additional outreach needed then we can do the week of 02/13.

In order to install on or after 04/16th we need to have final dwgs to MTA on 02/10. There are many steps to get approval.

I think doing Monday 01/30 it's probably safest.

Let us know if there are any red flags that the community needs more time to address.

Thank you!

Ilaria and Seung Yen

Hi Steve,

MTA has responded to the issues I pointed out to them based on our tour in the area.

For traffic hazard that might be caused by Muni stop overlaying at the intersection of Judah St and La Playa, MTA said that they've responded to this issue in the past and the same reasons are being considered. They said having the N-trains stop further east could create sightline issues at the new spot, block access to residential driveways and place the operator one block away from the restroom.

MTA said the reason there is no an accessible ramp at the pedestrian island between Judah St. and Great Highway is because the curb ramp would create ponding issues since there is no catch basin. And they said they will handle the requests of having a stop sign/crosswalk/speed bump at the intersection of Irving and La Playa and having a crosswalk at Kirkham and La Playa.

The homeless issue at the convenience station at Great Highway, I already referred to our homeless outreach liaison and he already visited the area.

For some other issues in the area, I already referred to related city departments.

Should you have any other questions, Please let me know.

Best,

PUBLIC WORKS

Hi Natalie,
As you witnessed by our tour, the beach village of San Francisco, La Playa Park is facing many safety and quality of life issues. High on the list were pedestrian and traffic safety issues at Irving & La Playa and Judah & La Playa. We would like to know what measures are being taken to resolve these and who is responsible for them. Can you please send me the pictures that were taken for our records? Can you update us on the prospects of La Playa Park becoming one of the focus areas for Mayor Lee's Fix-it Team next year? We have been waiting many years for most of these problems to be addressed. In the meantime our neighborhood is again facing serious problems due to entrenched encampments along the Lower Great Hwy. Taravel Station, the Park Police and La Playa Park Watch Group are working together on this. Who can I talk with at the DPW about picking up the mess people have left on the southern end of La Playa Park?

The intra-city-agency / community partnership we have had has spelled big progress over the years. If we reactivate this coalition I am sure La Playa Park can be a shining example of local community building that San Francisco can be proud of.

I hope to publish this letter and responses through our community website laplayapark.info email address laplayaparkinfo@gmail.com
I encourage any recipient on this thread or of this post to comment, respond to the questions posed or pose questions of your own.

My purpose is not to issue criticism but to encourage action.

Your prompt response will be greatly appreciated.

All the Best
Steve Ward
La Playa Park Coalition

Thank you so much Ashley. Here's a pdf copy of the flyer "set." If possible, one English version and one Chinese version would be great!

I will let Steve know that you are going to drop them off at Java Beach. ☺

Hi Ashley,

I noticed the other day, the flyer we posted at Java Beach was removed. I asked Steve to print and post a copy of the flyer, but he doesn't have a printer; also it sounds like it is not necessary to repost it.

Since you live in the neighborhood, I want to get your perspective. Do you think additional outreach or posting for the second open house is necessary?

Thanks!
Seung Yen

Hi Seung Yen ... I don't have a printer. Ashley lives out here so if you make some

flyers she can drop them off at Java Beach for me and I can post them around. Also I can send this posting to the La Playa Park e-list. Remember the community has already been through this in different forms several times.

I'm working the next couple of days.

Let me know,
Steve [redacted]

La Playa Open Houses: Come and share your ideas on how to improve and beautify the La Playa and Judah intersection!

The La Playa Pedestrian Improvements Pilot project is a community-driven initiative to improve pedestrian safety and mobility, to enhance community character, and to create a vibrant public space at the intersection of Judah Street with La Playa Street.

Since 2012, residents, community leaders, and business owners have developed a range of ideas to re-envision the La Playa Park area, one of the Outer Sunset's key gateway intersections. In 2016, the San Francisco Planning took the lead in further developing and implementing the community's ideas through the Groundplay program, the goal of which is to build temporary installations that transform underused public spaces into community places. This pilot project will temporarily realize the community's vision and test ideas for long-term improvements.

Join us for a series of two or more community open houses to discuss the design and phasing of the project and to hear additional ideas from community members on this pilot project.

La Playa Open Houses

Please drop-in to the open houses at any time within the two hour period indicated below.

Monday | April 3 | 5:00pm – 7:00pm
Beachside Café
4300 Judah Street @ 48th Avenue

Wednesday | April 26 | 5:00pm – 7:00pm
Beachside Café
4300 Judah Street @ 48th Avenue

Beachside Café is ADA accessible. For other disability accommodations or language interpretation services at the open house, please contact Candace SooHoo at candace.soohoo@sfgov.org at least 72 hours in advance of the event.

Buffy ,
I am so sorry I did not write earlier.
We would just need to probably go on the roof (if accessible) and install a time lapse camera to film Muni operations and pedestrian movement.
It should take only 15-20 mins, pending we can find the right angle.

We could come on Wednesday 11/09 or Thursday 11/10 at 2 pm.
If you prefer another time of the day and if you have days you cannot meet please let us know.
Thanks for helping out with this!

Hi Katy and hello Ilaria,
Thank you for reaching out!

Sounds interesting!

Ilaria, can we connect to go over what this would entail? My sister lives upstairs from JB on La Playa and she just had a baby so just hoping it is not too extensive.

Tomorrow (Thursday) I am on a field trip with my son's school all day, but perhaps we can connect via phone on Friday morning?

Thank you!

Hi Buffy,

Hope you are doing well! I wanted to connect you with Ilaria, who is part of the Planning Department's Pavement to Parks Team. She is leading the effort to bring the community's vision to reality for La Playa Park.

As part of this work, Ilaria would like install a time lapse camera on top of Java Beach Café so that she can more see with more accuracy how the intersection around La Playa Park is utilized currently. This documentation will help inform the Planning team's work on mock designs – all of which would be based on existing community input that was already gathered.

Please feel free to get in touch directly with each other to work this out.

Thank you!!

Hi Ashley,

I got some conflict in my schedule

tomorrow so I am cancelling the call. We could touch base on Friday if you want.

Here's a summary of a couple of updates: Today we met with our MTA team, and heard good news that we got positive feedback from John Haley on how the project has evolved (in other words, we have a go on the project), and we no longer need "approval" from RCCB. We (Sean) still will need to present the project before RCCB as an informational item next week (date/time TBD).

Let me know if you have any items you want to talk about with us or any questions. FYI Ilaria will be out from next week for about a month.

Best,

Seung Yen

Subject: La Playa Plaza Project - Open Houses in April!

Dear neighbors,

I am reaching out to you to inform you that our office, in partnership with community members including the La Playa Park Coalition and the La Playa Merchants, as well as the Planning Department, are re-invigorating efforts to improve the area where La Playa Street meets Judah Street in the Outer Sunset. Some of you may have received a letter in the mail about this already, which I have included as an attachment in this email, that describes the history of the project and next steps moving forward.

Our office wanted to invite you and your neighbors to drop by during these two open houses to provide your input on improvements to be made at this intersection. Please let me know if you have any questions in the meantime. I can be reached at (415) 554-7460. Thank you!

La Playa Open Houses
Please drop-in to the open houses at any time within the two hour period indicated below.

Monday | April 3 | 5:00pm – 7:00pm
Java Beach Cafe
1396 La Playa St, San Francisco, CA 94122

Wednesday | April 26 | 5:00pm – 7:00pm
Java Beach Cafe

1396 La Playa St, San Francisco, CA 94122

Yes, as I mentioned in my email last night, Buffy wanted to express her opposition before tonight's open house. We will hold the open house and discuss other aspects of the project that we would need to discuss anyway such as – design elements, art, signage etc.
We have a meeting with Neil tomorrow at 10.30 and we might call you all together to discuss next steps at 10.45 am.
This could push MTAB to 07/18 if needed just FYI. Worth taking time to address what Buffy expressed.

Thanks,
Ilaria

Subject: La Playa Plaza concerns

Dear all,
I am writing to voice my deep concerns over the last minute changes made to the La Playa Plaza design.

There was a rich background to the original La Playa Plaza (LPP) design showcased to the community on April 3 at Java Beach. The LPP background was full of long discussions, visions, compromises and lots of back and forth on site to make sure we could legitimately stand behind the big changes proposed. We got there though through the valiant work of all the City Agencies working together. I then went before my neighbors, my friends, my customers and my community to reassure them that this plan was worth supporting. I very sincerely meant it.

Now, last Friday afternoon before our meeting tonight a lone representative was sent down to Java Beach to show me the new plan that would presumably usurp the plan we worked so hard on. I was shocked. I am shocked. I took the weekend to cool off and sat with both plans side by side. I wanted to like the new plan. I wanted to be able to get behind it and get this project complete. But, I can't.

And here's why:
First of all, I sincerely believe that the new plan poses serious safety concerns; the new design feels as if someone cut and paste our old plan without the spirit of the original plan. The original design's primary goal was to make pedestrian safety better. We made very big compromises based on this-- compromises I am not necessarily willing to make for the cut and paste version. Let me be clear: the original version was not my perfect ideal; it was a pragmatic and reasonable well thought out compromise I could get behind.

I feel disheartened writing this email because I am so sincerely grateful for all the time and energy of all who really rallied on this project. We worked tirelessly to make this happen in a timeframe desired. You guys are a wonderful group and I want to say thank you from the bottom of my heart.

But, I have a responsibility to my neighbors who are my friends and I cannot stand before them and tell them I support this new version of the plan because I do not. I fear the last minute changes doomed this process. These changes should have been presented and negotiated up front not in the 11th hour. Again, please know that Pat and I are very grateful for your work, but this new plan just won't work.

Most Sincerely,

Buffy

Hi –

We'd need to see the proposed site plan, particularly with reference to the N Judah line, before I could move this forward in a very definite way. The latest you could apply would be to submit a complete application 30 days prior to the event date, but what kind of application you'd need to submit, and what we'd need in addition to the form, site plan, and payment, would depend on the specific location / site plan.

Nick

I am working on this project in the Sunset through Groundplay.
http://groundplaysf.org/projects/la-playa-pedestrian-improvements/

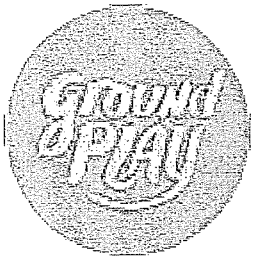

The project is going to MTAB on 06/20 and to prestaff next week.

We have to do a one-day demonstration to show the benefits of the proposed space and how the geometry would work.
We spoke to Luis Montoya who suggested an ISCOTT clearance –he might send a memo to the ISCOTT team.

We are looking at May 20th or perhaps May 27th

What is the latest we can apply?
Thank you.

Thank you Ashley. I've filled in the highlighted areas. Should we do translation too?

To recap what we discussed yesterday:

- Project name – La Playa Pedestrian Safety and Beautification Project?
- Weekly check in call at 10:45 am on Thursdays
- Ashley to do:
  - Draft a letter
  - Create a list of addresses
  - Communicate with Jen, Steve, and Buffy
  - Send out open house invitation using the email distribution list created from previous outreach events

- Planning to do:
  - Put together the project timeline
  - Send out the letters this Friday (it might be early next week...)
  - Create a flyer (Did we decide that Planning is going to do it?); also find out if we can post it on MUNI trains/stops.
  - Produce Open House #1 materials
    - Renderings
    - Diagrams with tradeoffs
    - One-page handout showing the project timeline and history (get feedback from Jen)
    - Timelapse video
    - Sign-in sheets for 1)volunteers 2)steering committee
    - One day demonstration outline (or some sort of visual information)
  - Set up a weekly check-in call with Ashley
  - Talk to OEWD PM and Buffy about the Judah beautification project – Sahiti, could you provide us with OEWD contact info?

Subject: RE: Meeting this Friday 2/10
Date: Thursday, February 09, 2017 3:40:51 PM

Ashley,
Thanks for the update.
One thing to point out is that we need to install before 06/30/17 because our funding will be literally gone after that. In order to do that, we have figured out the permit approval and a series of permit milestones that need to be met- it is in the community's interest to settle on an ideal design ASAP. We have a deadline to submit drawings on 02/24. That means that we will probably need to make design choices before this meeting we are rescheduling.

If the community wants to have input we should really meet no later than Friday 02/17/17.
I am happy to relate this information to them if you think it's better that way.

Thanks so much.

Hi team –

Unfortunately the stewards have cancelled our meeting tomorrow and want to reschedule 2 weeks out. I pushed back but they seem to be sure they want to do more outreach and discussion before meeting. I don't agree, but have to be sensitive to their thoughts as well. So, keep an eye out from them on rescheduling the week of the 21st.

Let me know if you have questions.

Thanks.

We gave Tom McGuire the heads up. I think a call from you would be great.
On our side, we finally assembled a team of talented designers and we are looking forward to starting the project. I also met Buffy in a café on Friday and we chatted a bit. They are also ready to start!

After we schedule the meeting I would like to have a call with you to make sure we coordinate the message we need to deliver to Muni re: operations. A message from you to them will be most effective.

Thank you!

Hi Ashley,

I have not heard back from Buffy. We are wondering if you could help schedule a meeting with the stewards for next week to effectively explain the urgency. I am curious how many neighbors Buffy has reached out so far. As we briefly discussed on the phone, I wonder if Planning/Supervisor Tang's office should host a community meeting or conduct some outreach (maybe at Java Beach Café) to stir up some enthusiasm from a larger crowd.

Please give us a call if you'd like to discuss our approach further.

Thanks,
Seung Yen

Hi Ashley and all,
Yes, happy Friday to you all. Thank you for all of your work on our behalf.

As I mentioned at our last meeting, I need to personally connect with our neighbors in an organic way to get a litmus test of how they are feeling with the proposed plans. I have connected with some, but not all and I feel very strongly that a petition is premature at best. I understand and respect the timeframe, but a petition is not in my comfort zone at this moment.

Thank you,
Buffy

Happy Friday everyone –

It is essential that we get these signatures to the project team by 3/9. I know it is short notice, but if the three of you can coordinate getting signatures in the next 2 weeks that would be great. I suggest going out together and knocking doors this weekend and then following up once or twice with folks that did not answer. There are 22 properties on La Playa (Irving – Judah), so you'll need 12 signatures from that block. There are 16 properties on La Playa (Judah – Kirkham), so you will need 9 signatures from that block. I did this count on Google Earth so I may be off by 1-2 properties.

I suggest prepping a short script for yourselves that gets you to the point quickly, for example. "Hi I am ___ from the La Playa Park Coalition. We are working on a project with the community and the City to create a temporary community plaza at the end of Judah. In order

to improve pedestrian safety and circulation in the area, we are proposing temporarily changing this street to a one-way local only access street and we need the signature of a majority of the households on this block to do so."

Then you can answer questions if they come up and have a more natural conversation with them. You should work with Sahiti to prep the petition language prior to going out to the community. I would also suggest using this opportunity to bring any of these people on board the steering committee or taking their contact info if they want to volunteer or help in the future.

Please let me know if you have any questions at all! Thank you for all your hard work.

Subject: N Judah petition

Dear Jen, Buffy and Steve,

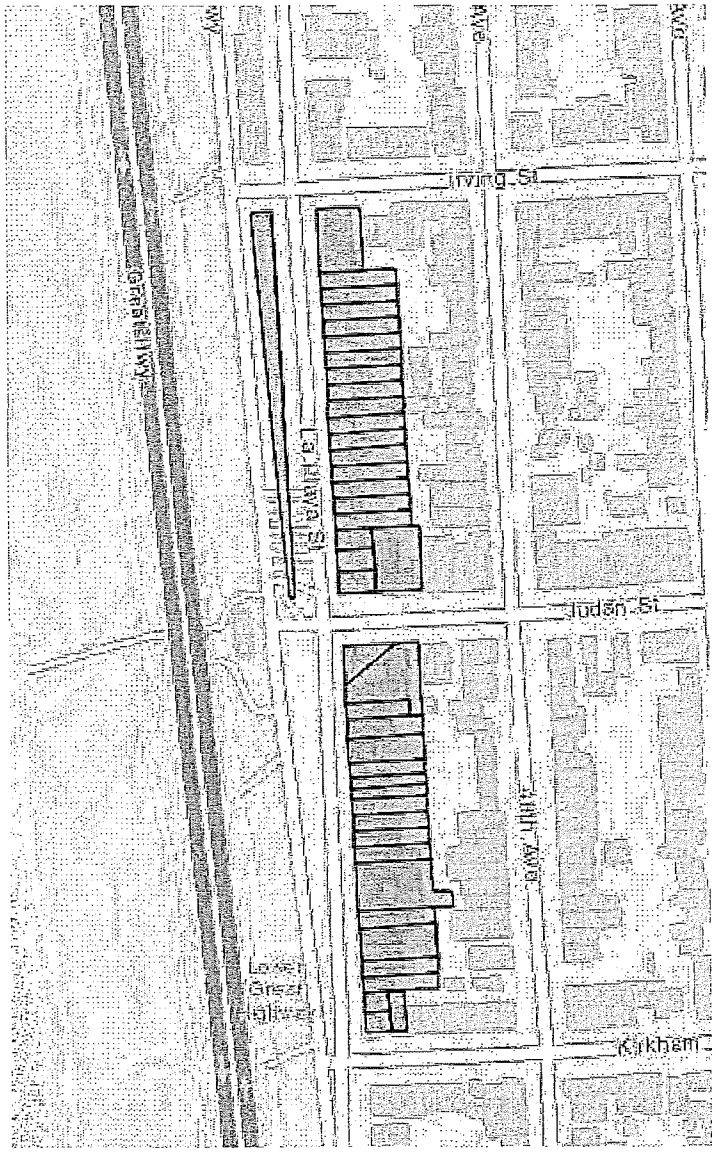

We need your help to file a petition(s) supporting one-way circulation (northbound) on La Playa approximately between 1420 La Playa and 1392 La Playa. We need signatures from a majority (50% + 1) of households on the two blocks that would be affected by the change, highlighted in the map below. We are hoping to get the signatures by 3/9, but we understand it's only 2 weeks from now. I will try to talk to MTA folks tomorrow if we can extend the deadline.

As stated in the attached petition template, a resident living on the block affected by this one-way street change should file the petition. In this case, Buffy Maguire, the owner of Java Beach Café could file the petition for the block north of Judah. Do you have any suggestion for the block south of Judah?

Sahiti, copied on this email, kindly agreed to help you fill out the petition. We encourage you to make sure the petition clearly states that it is a *temporary* change. Please let me or Sahiti know if you have any questions.

I can pull out addresses from our database if you need – we have both owners and residents addresses. I've attached residents addresses for your reference.

Thank you.

> I am open to another meeting on site to talk through design. However, I would like to state that from the outset, I know part of the community's vision was to improve pedestrian safety in the area. Without moving Muni, changing traffic flow is the only way to improve ped safety, and I think people would be open to it if they had a chance to discuss. Also, I believe if we free up a lane of traffic on La Playa, we could potentially shift to perpendicular or angled parking, which would add most likely dozens of new spaces.

Hi Ashley and all,
Yes, happy Friday to you all. Thank you for all of your work on our behalf.

As I mentioned at our last meeting, I need to personally connect with our neighbors in an organic way to get a litmus test of how they are feeling with the proposed plans. I have connected with some, but not all and I feel very strongly that a petition is premature at best. I understand and respect the timeframe, but a petition is not in my comfort zone at this moment.

Thank you,
Buffy

Happy Friday everyone –

It is essential that we get these signatures to the project team by 3/9. I know it is short notice, but if the three of you can coordinate getting signatures in the next 2 weeks that would be great. I suggest going out together and knocking doors this weekend and then following up once or twice with folks that did not answer. There are 22 properties on La Playa (Irving – Judah), so you'll need 12 signatures from that block. There are 16 properties on La Playa (Judah – Kirkham), so you will need 9 signatures from that block. I did this count on Google Earth so I may be off by 1-2 properties.

I suggest prepping a short script for yourselves that gets you to the point quickly, for example. "Hi I am ___ from the La Playa Park Coalition. We are working on a project with the community and the City to create a temporary community plaza at the end of Judah. In order to improve pedestrian safety and circulation in the area, we are proposing temporarily changing this street to a one-way local only access street and we need the signature of a majority of the households on this block to do so."

Then you can answer questions if they come up and have a more natural conversation with them. You should work with Sahiti to prep the petition language prior to going out to the community. I would also suggest using this opportunity to bring any of these people on board the steering committee or taking their contact info if they want to volunteer or help in the future.

Please let me know if you have any questions at all! Thank you for all your hard work.

Subject: N Judah petition

Dear Jen, Buffy and Steve,

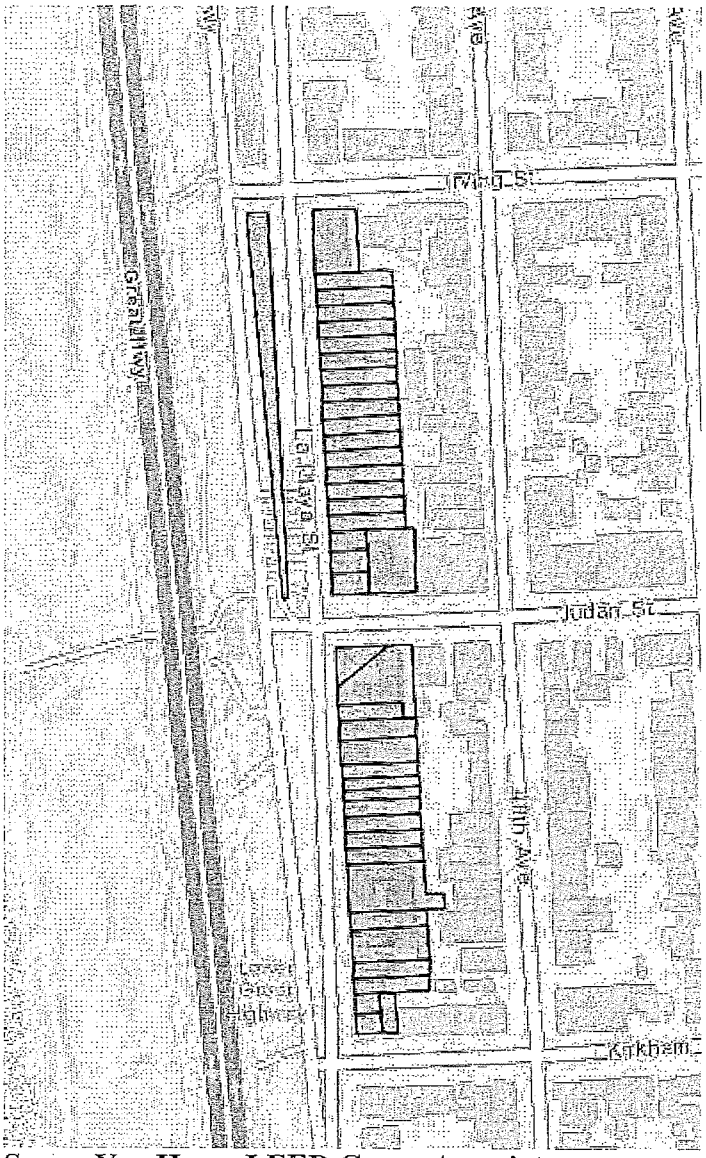

We need your help to file a petition(s) supporting one-way circulation (northbound) on La Playa approximately between 1420 La Playa and 1392 La Playa. We need signatures from a majority (50% + 1) of households on the two blocks that would be affected by the change, highlighted in the map below. We are hoping to get the signatures by 3/9, but we understand it's only 2 weeks from now. I will try to talk to MTA folks tomorrow if we can extend the deadline.

As stated in the attached petition template, a resident living on the block affected by this one-way street change should file the petition. In this case, Buffy Maguire, the owner of Java Beach Café could file the petition for the block north of Judah. Do you have any suggestion for the block south of Judah?

Sahiti, copied on this email, kindly agreed to help you fill out the petition. We encourage you to make sure the petition clearly states that it is a *temporary* change. Please let me or Sahiti know if you have any questions.

I can pull out addresses from our database if you need – we have both owners and residents addresses. I've attached residents addresses for your reference.

Thank you.

Ashley
Do you have time for a phone update tomorrow?
I don't have time for a meeting but can update you for 30 mins.

I recommend you probably hold off re: petition as we are negotiating with MTA and there might be an opening.
Thank you.

> I am open to another meeting on site to talk through design. However, I would like to state that from the outset, I know part of the community's vision was to improve pedestrian safety in the area. Without moving Muni, changing traffic flow is the only way to improve ped safety, and I think people would be open to it if they had a chance to discuss. Also, I believe if we free up a lane of traffic on La Playa, we could potentially shift to perpendicular or angled parking, which would add most likely dozens of new spaces.

Date: Tuesday, May 02, 2017 1:10:01 PM

Ashley,

Can you be available 5/24 from 10-11:30? That looks like it will work for the majority of the participants.

Also, Buffy hasn't provided any availability that works for everyone, so I may need some help here. I need 15 minutes of her time on the 24th, and I don't think opening up 18 more time slots is going to net me better results.

Thanks, and I'm happy to grab a City car so we can carpool from Civic Center.

Thanks,
Marcus

Ashley,

Can you be available 5/24 from 10-11:30? That looks like it will work for the majority of the participants.

Also, Buffy hasn't provided any availability that works for everyone, so I may need some help here. I need 15 minutes of her time on the 24th, and I don't think opening up 18 more time slots is going to

net me better results.

Thanks, and I'm happy to grab a City car so we can carpool from Civic Center.

Thanks,
Marcus

Subject: RE: N-Judah Gateway Plaza Art Enrichment Draft Outline
Date: Monday, February 06, 2017 10:48:22 AM

Hi Katy,

I understand your concern about the admin, but it's our standard 20% we assign to all projects, per out program guidelines. We have no other way to charge staff time and overhead so this is what keeps our projects from operating in the red.

As for the install allocation, this is an estimate based on past projects with similar scope. As I bring an artist under contract we'll have a conceptual proposal that will help shape a more refined budget, so this number may shift a bit.

If this all sounds agreeable, I'll work with my finance manager to encumber the funds as soon as possible.

Please let me know if you have any other question.

Best,
Marcus

Subject: Re: N-Judah Gateway Plaza Art Enrichment Draft Outline

Thanks Marcus! Overall, the proposal looks good.

Couple of questions -

The admin fee seems really high at $50,000 is even higher than the installation cost itself. Is this typical? And can you explain why the huge difference in cost between the two categories?

Timeline - it looks like installation would not occur until summer 2018. I want to make sure that the funds we set aside to the Arts Commission are still available for this project. Given that you are going through all the approvals right now, and that you'll be in contract with an artist by summer of this year, I am guessing that funds can be encumbered this fiscal year. Please let me know if not.

Otherwise, glad to be finally moving forward on this piece of the project!

Thanks,
Katy

Buffy,

Thank you for your email. The morning of 8/7 is the date and time that works for the majority of the panelists so I need to hold it. Scheduling has been unusually challenging for this project and as a result admin charges are beyond where they should be at this point in the process. In order to bring

in the work on time and within budget I need to proceed with the artist selection.

Knowing the decision making is important to you I suggest either finding a way to make this date work, recommending someone who can attend on your behalf, or submitting public comment in advance of the meeting that will be shared with panelists.

Thanks for understanding, and I hope you can join us.

Dear Buffy, Steve & Jen –

Great news! We are finally ready to get the ball rolling on the N-Judah project! We have been working with Planning / SFMTA to get things in order to present to you all. I want to propose a time in January for us to get together, so please see below and let me know what works best for you.

Additionally, is there anyone else you would like to include in this initial get together? For now, we

should keep the group fairly small. But I think after we have the first meeting we can potentially get others involved to increase ownership and investment from the community.

Here are the options for a meeting:

Thursday January 12: 5:00pm
Friday January 13: 2:00pm or 3:00pm
Wednesday January 18: 5:00pm

I look forward to hearing from you all. Hope you are having a good holiday season.

Hi Ashley,

Thanks for the summary. I've attached the layout that we showed to you last week.

Following up on our conversation, we have a couple of questions.

- Art Commission contact information – We have some relationship with one of the Art Commission members, but we don't think the person is the right contact for this project. Could you please send us the contact information of the PM for the N-Judah Turnaround project that we should use to schedule a meeting?
- Camera setup – Ilaria has been trying to coordinate with Java Beach to set up a timelapse camera but it wasn't easy to get ahold of her. It would be great if you could help us with it. Another option we have is the apartment building on the other side of Judah. Do you have any contact of this building?

Thank you,
Seung Yen

Subject: N-Judah Turnaround Meeting Follow-Up

Thank you everyone for meeting this morning. We are pleased to see some progress and some visioning done on behalf of the community by the Planning Department staff – thank you! And thank you to SFMTA for joining the meeting and following up on logistical questions. I am including some notes and follow-up items below, **please feel free to reply with any additions, comments or questions.**

Summary notes:

- Planning presented a detailed geographic layout for their short-term concept. The long-term concept is something that should be included in a holistic vision for the site, but SFMTA has indicated there is currently no funding to reroute tracks.
- The short-term layout is not a design, so the details will need to be worked out over the next couple of months with input from the steering committee, SFMTA and Supervisor Tang's Office.
- There is funding for the short-term project as well as artwork, and we should have a plan in place to spend the funding by the end of this fiscal year at the end of June.
- Construction does not need to be complete by then, however we would like it to be well underway as this project has been in the planning phase for almost five years.
- Next steps outline below.

Next Steps:

Most of these next steps should be completed within the next one-three weeks aside from the permitting issue as well as the traffic analysis.

- SFMTA tasks:
  - Find out about specific measurements, including: overhead wire height (10 feet?), max height of the proposed pots/planters for visual clearance for drivers, minimum threshold around the train.
  - Find out about allowable artwork including whether we can place a mural on the ADA ramp as well as paint on the track area.
  - Confirm whether we can place detachable signage on top of Muni restroom building.
  - Find out if operations would be okay with staging trains on Judah between 48th & La Playa rather in the turnaround if the ADA ramp is not heavily utilized.
  - Coordinate a cone test with Planning.

- Planning tasks:
  - Send designs to group.
  - Meet with the Art Commission to discuss artwork for the site, and potentially using the funding more flexibly for non-traditional art such as artwork found at the Market St. prototyping event.
  - Coordinate a traffic analysis of proposals including: one-way, painted bulb-outs, etc.
  - Coordinate placing a time-lapse camera on Java Beach to view ADA ramp and behavior in the area.
  - Find out about permitting for the site and what that may entail.
  - Set up weekly call starting in January.
- Supervisor Tang's Office:
  - Ashley to schedule steering committee meeting for first two weeks of January and to think about others we can include in the effort after initial meeting.

Subject: N-Judah Turnaround Meeting Follow-Up

Thank you everyone for meeting this morning. We are pleased to see some progress and some visioning done on behalf of the community by the Planning Department staff – thank you! And thank you to SFMTA for joining the meeting and following up on logistical questions. I am including some notes and follow-up items below, **please feel free to reply with any additions, comments or questions.**

Summary notes:

- Planning presented a detailed geographic layout for their short-term concept. The long-term concept is something that should be included in a holistic vision for the site, but SFMTA has indicated there is currently no funding to reroute tracks.
- The short-term layout is not a design, so the details will need to be worked out over the next couple of months with input from the steering committee, SFMTA and Supervisor Tang's Office.
- There is funding for the short-term project as well as artwork, and we should have a plan in place to spend the funding by the end of this fiscal year at the end of June.
-

Construction does not need to be complete by then, however we would like it to be well underway as this project has been in the planning phase for almost five years.

- Next steps outline below.

Next Steps:

Most of these next steps should be completed within the next one-three weeks aside from the permitting issue as well as the traffic analysis.

- SFMTA tasks:
  - Find out about specific measurements, including: overhead wire height (10 feet?), max height of the proposed pots/planters for visual clearance for drivers, minimum threshold around the train.
  - Find out about allowable artwork including whether we can place a mural on the ADA ramp as well as paint on the track area.
  - Confirm whether we can place detachable signage on top of Muni restroom building.
  - Find out if operations would be okay with staging trains on Judah between 48th & La Playa rather in the turnaround if the ADA ramp is not heavily utilized.
  - Coordinate a cone test with Planning.
- Planning tasks:
  - Send designs to group.
  - Meet with the Art Commission to discuss artwork for the site, and potentially using the funding more flexibly for non-traditional art such as artwork found at the Market St. prototyping event.
  - Coordinate a traffic analysis of proposals including: one-way, painted bulb-outs, etc.
  - Coordinate placing a time-lapse camera on Java Beach to view ADA ramp and behavior in the area.
  - Find out about permitting for the site and what that may entail.
  - Set up weekly call starting in January.
- Supervisor Tang's Office:
  - Ashley to schedule steering committee meeting for first two weeks of January and to think about others we can include in the effort after initial meeting.

Subject: RE: N-Judah Turnaround Pre-Staff Packet
Date: Friday, February 24, 2017 12:22:45 PM
Attachments: image001.png

Hi Carleton,

Thank you so much for leading this Pre-Staff Packet process. Yes, we'd like to present this project as a Discussion, Informational and Other Item. Is it possible to list it as the first item of the informational session? We'd like to get as much meaningful input as possible on 2/28.

We want to reiterate that we have been trying hard to meet with Fire and Transit before the PreStaff; we really hope we can make it happen prior to the next PreStaff meeting – the deadline of which is 3/10. Since Planning hasn't been involved in this review process as much as MTA, we need MTA staff's help and expertise to convene meetings with Fire and Transit, prepare appropriate review materials, and solicit feedback from them. **Carleton, Kimberly, and Jessica**, could we meet after the 2/28 PreStaff to plan for the next steps? Let's hope that the next packet prepping will be smoother.

Please let us know if you need any more information.

Thank you,
Seung Yen, Ilaria, and Ben

Subject: RE: N-Judah Turnaround Pre-Staff Packet

Hi Seung Yen, Ilaria, and Ben,

Thank you for responding to Kimberly's request for information last night. We look forward to helping move this project forward, but upon further discussion internally, we do not feel that we have the information nor the time necessary to create a strongly defensible packet for Prestaff by COB today for next Tuesday's meeting. Without the required input from Transit and Fire, the meeting attendants will not view that as complete nor ready for feedback.

Our suggestion is to receive official positions from both Fire and Transit before proceeding with the engineering legislation process. However, Prestaff also has a "Discussion, Informational and Other Items not scheduled for SFMTA Public Hearing" section at the end of the meeting. If you would like, you could attend this portion of the meeting to present the project and solicit feedback in general from staff. This would not replace the required Prestaff meeting for the engineering changes in the

future, but is another avenue to solicit additional feedback for your design. Please let me know if you would like to be scheduled on the agenda, or if you would prefer to wait until the packet is completed before coming to Prestaff.

Please let me know if you have any questions.

Carleton

Cc: Wong, Carleton (MTA); 'Garcia, Jessica'; 'Kronenberg, Chava'; 'Kennedy, Sean M'; Sallaberry, Mike (MTA)
Subject: RE: N-Judah Turnaround Pre-Staff Packet

Hi Carleton,

See our responses below. We hope these responses satisfy in the missing pieces of information. Please let us know if you need more information or have this information in different format.

1. SFFD review: We have not received any initial feedback from Fire. If we hear from Fire prior to 2/28, we will share it at the Prestaff meeting.

2. Transit review: I've attached a revised copy of the design. We also just send this version to Sean for review. We will continue to work with Sean to address any additional concerns.

3. Community outreach:
    - This pilot project is a result of a community-driven process, called the N-Judah Turnaround Beautification Project, which started in 2012. The community group leading this process is the La Playa Park Neighborhood Coalition. The design concept of this pilot project was generated through the N-Judah Turnaround Beautification Project, as shown on Page 20 and 21 of the progress report, prepared in February

2013 by La Playa Park Neighborhood Coalition, (see *N Judah Beautification Turnaround Project_Progress Report_Final.pdf*).

- The Groundplay team (Ilaria, Seung-Yen, and Ben) met with the La Playa Park Neighborhood Coalition on Wednesday, January 18, 2017 to kick off this pilot project. Since then the Groundplay team have been working with the La Playa Park Neighborhood Coalition to refine the initial design concept. I've attached a copy of email from one of the La Playa Park Neighborhood Coalition members.
- We are working with the La Playa Park Neighborhood Coalition to circulate a one-way circulation petition. We are planning to get signatures prior to the TASC meeting.
- We plan on hosting a community meeting on the design of the pilot plaza sometime in April.

4. Baseline traffic counts: Ben Caldwell sent the traffic counts via email at 1:41 pm today. See attached.

5. Dimensions for PAINTED bulb lengths and red curbs:
   - See attached (*N Judah Plaza Design - PreStaff Packet-1 to 30 on 11x17.pdf*)
   - Please note that this is a pilot project, and all proposed pedestrian public space (blue areas on the map) will be painted in latex paint and will be separated by the travel lane by planters.
   - Three pedestrian safety zones with soft posts are proposed: two in front of the public restroom along Lower Great Highway and one in front of Java Beach Café at the corner of Judah and La Playa.
   - Red curb:
     - A total of 37' on the west side of Lower Great Highway
     - A total of 37' on the east side of Lower Great Highway
     - A total of 63' on the west side of La Playa
     - A total of 73' on the east side of La Playa
     - A total of 47' on the south side of Judah
   - Green curb:
     - We propose relocating the existing green zone in front of Java Beach Café to the west side of La Playa.

Thank you,
Seung Yen

Subject: N-Judah Turnaround Pre-Staff Packet

Hi All,

I apologize for being unresponsive this past week; I am currently dealing with a major medical issue, so Carleton will be helping me with the pre-staff packet.

We understand that this project is time sensitive and needs to be on next week's pre-staff agenda in order for this project to be implemented before the end of the fiscal year. We are actively working towards this goal. However, it looks like we are still missing crucial pieces of information for the pre-staff packet (refer to e-mail sent on 01/30).

1. SFFD review: I understand that a meeting has been set up with SFFD for next Thursday 03/02, but in the meantime, has any initial feedback been provided?

2. Transit review: Have the comments from Transit been incorporated into the final plaza design?

3. Community outreach: We have not received a write-up of the outreach that has been done with the community. Was a petition circulated in the community to show that 50% plus one of the addresses on the impacted blocks support the project?

4. Baseline traffic counts: These counts were completed last Tuesday 02/14, but I need a clean copy of this data for inclusion in the pre-staff packet.

5. Dimensions for bulb lengths: We have not received an updated plaza design showing the length and width of proposed bulbouts and parking loss associated with this. We are unable to write the legislation without these numbers.

I believed that today's internal check-in was to prepare for pre-staff, but since we do not have a packet available for review, I suggest that we cancel this meeting. Note that the deadline for the packet is tomorrow, which also requires review and approval by Mike.

I will be out of the office the rest of this week, so please feel free to coordinate directly with Carleton. If we are able to get all of the above information by COB today, Carleton will work with you to get this pre-staff packet completed and reviewed.

Thanks,
Kimberly

Hi –

I've just found out about some of the background on this, which addresses some of the questions/concerns I had. Unfortunately, I missed it at our prestaff meeting today because I had too much going on – turns out it might have saved me some time today. Seems like there are enough people aware of this, and enough of the issues have been considered to move it forward, but we will still need a written description of the temporary event that details activities and elements as part of the application, and hopefully you can specifically address the issue of pedestrian flow. We'll need to think about how to do the signage for La Playa and Judah – which I am assuming will just be temporary versions of what is intended for the longer term "pilot" to come.

Subject: RE: N-Judah turnaround ISCOTT event

Ben –

A fairly quick response – as this seems like it requires some rushed action – so there may be things I've got wrong or missed...

This is a more complicated street closure than the previous things consider for play streets / ground play. A few points:

- It looks like you've got stuff in the middle of the intersection – which is typically not allowed primarily because of emergency access requirements.
- You've got stuff in the space where the N does its turn-around. It doesn't look there's anything that would actually interfere with the trains, but I suspect Muni will want to take a close look, and might require an inspector or something.
- The combination of stuff / event space on both sides of the N-Judah turnaround with the stuff within the turnaround area seems like it might be problematic in terms of pedestrian safety, as it looks like it would create a sense of a plaza space extending across the turnaround. I'm assuming this is something that you all have considered, but I'd want details on that aspect.
- What's intended with SB traffic on La Playa approaching Judah isn't clear to me.
- What's intended for WB traffic on Judah approaching La Playa also isn't clear to me.
- You seem to have stuff in parking spaces on La Playa on both sides of Judah, as well as on Judah east of La Playa

Can you clarify who you are working on this with at SFMTA? I'd like to consult with them. It's possible I am reinventing the wheel here and some of these issues have already been considered and addressed.

Strictly from an ISCOTT perspective, we'd need a fleshed out written description of the event and all the elements. We'd also need to consult with Muni about issues with that turnaround area. And we'd need to think about the traffic patterns created by the closure.

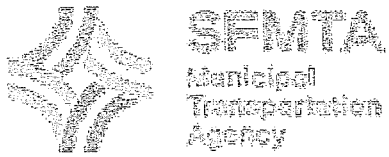

It's a bit complicated to have come in at the last minute, and also doesn't meet our criteria for a neighborhood block party so would need to be submitted on the Special Events application form, with the appropriate fee.

The deadline for the April 27 ISCOTT hearing was last week, though I could stretch it to today – though I'm uncomfortable putting something like this on the agenda with so many issues that still seem to require addressing. The next ISCOTT hearing is May 11, which does not leave much time before the event. For instance, it would be too late to apply for "no parking" signs through the normal process. So that's another issue we'd need to address specially.

I will try to discuss this with Muni today, and maybe you can get me a complete application today, but having to do this in a rush fashion is problematic, and doubly so given the other demands on my time.

Great, the next step on our end was for me to connect with you and submit the application and site plan.

Here, attached, is a draft site plan. The event would not impact MUNI operations in any way. The closures would be:

-Judah Street between La Playa and Lower Great Highway (effectively closes the middle of the intersection where the N-Judah turns around – but only for vehicles and NOT for MUNI vehicles, which would continue through the area unimpeded as usual)
-SB La Playa approaching Judah.

Hi Nick,

I'm helping coordinate the Groundplay N-Judah turnaround project Planning is working with MTA on. I believe you have spoken with Ilaria about the Planning Department's request for ask SF Parks Alliance to apply to ISCOTT for a temporary street closure for a one-day demonstration event related to the Groundplay N-Judah turnaround project. Just wanted to double-check that this was on your radar, and see if you foresee any issues on being able to move quickly on processing the permit application once we get it to you. We are hoping to do the event on May 20th, which leaves us just a couple days to submit in time for the 30-day deadline. Apologies in advance if we are pushing this timeline. This project has been on a very tight timeline from the start.

Thanks much,

Ben Caldwell

Nick,

Thanks very much for taking such a quick look at this today. We acknowledge a number of concerns you raised, and do want to be sure that this community event is something both MTA and Planning support, and have enough time to appropriately review. Going ahead with an ISCOTT application at this last minute that isn't fully supported and hasn't been fully thought through or reviewed does not seem like a good idea for anyone concerned. So we will not submit this ISCOTT application this week after all.

We would like to continue the conversation about having a community outreach event of a different scale and scope, perhaps two weeks later (we are thinking June 3rd ; let us know if you foresee any issues with this date). It would not be a demonstration project for the pilot project, encompassing the entire intersection with all its complexity and areas of concern, but instead something smaller and simpler, more of a community building/outreach event to build awareness and support for the coming pilot project, perhaps with a more simple closure of the end of La Playa on the north side of Judah. But we will be back in touch next week when we've got a better idea of our new ISCOTT proposal to come.

Thanks again for your help today,

Ben Caldwell

Hi –

I've just found out about some of the background on this, which addresses some of the

questions/concerns I had. Unfortunately, I missed it at our prestaff meeting today because I had too much going on – turns out it might have saved me some time today. Seems like there are enough people aware of this, and enough of the issues have been considered to move it forward, but we will still need a written description of the temporary event that details activities and elements as part of the application, and hopefully you can specifically address the issue of pedestrian flow. We'll need to think about how to do the signage for La Playa and Judah – which I am assuming will just be temporary versions of what is intended for the longer term "pilot" to come.

Subject: RE: N-Judah turnaround ISCOTT event

Ben –

A fairly quick response – as this seems like it requires some rushed action – so there may be things I've got wrong or missed...

This is a more complicated street closure than the previous things consider for play streets / ground play. A few points:

- It looks like you've got stuff in the middle of the intersection – which is typically not allowed primarily because of emergency access requirements.
- You've got stuff in the space where the N does its turn-around. It doesn't look there's

anything that would actually interfere with the trains, but I suspect Muni will want to take a close look, and might require an inspector or something.

- The combination of stuff / event space on both sides of the N-Judah turnaround with the stuff within the turnaround area seems like it might be problematic in terms of pedestrian safety, as it looks like it would create a sense of a plaza space extending across the turnaround. I'm assuming this is something that you all have considered, but I'd want details on that aspect.
- What's intended with SB traffic on La Playa approaching Judah isn't clear to me.
- What's intended for WB traffic on Judah approaching La Playa also isn't clear to me.
- You seem to have stuff in parking spaces on La Playa on both sides of Judah, as well as on Judah east of La Playa

Can you clarify who you are working on this with at SFMTA? I'd like to consult with them. It's possible I am reinventing the wheel here and some of these issues have already been considered and addressed.

Strictly from an ISCOTT perspective, we'd need a fleshed out written description of the event and all the elements. We'd also need to consult with Muni about issues with that turnaround area. And we'd need to think about the traffic patterns created by the closure.

It's a bit complicated to have come in at the last minute, and also doesn't meet our criteria for a neighborhood block party so would need to be submitted on the Special Events application form, with the appropriate fee.

The deadline for the April 27 ISCOTT hearing was last week, though I could stretch it to today – though I'm uncomfortable putting something like this on the agenda with so many issues that still seem to require addressing. The next ISCOTT hearing is May 11, which does not leave much time before the event. For instance, it would be too late to apply for "no parking" signs through the normal process. So that's another issue we'd need to address specially.

I will try to discuss this with Muni today, and maybe you can get me a complete application today, but having to do this in a rush fashion is problematic, and doubly so given the other demands on my time.

Great, the next step on our end was for me to connect with you and submit the application and site plan.

Here, attached, is a draft site plan. The event would not impact MUNI operations in any way. The closures would be:

-Judah Street between La Playa and Lower Great Highway (effectively closes the middle of the intersection where the N-Judah turns around – but only for vehicles and NOT for MUNI vehicles, which would continue through the area unimpeded as usual)
-SB La Playa approaching Judah.

Hi Nick,

I'm helping coordinate the Groundplay N-Judah turnaround project Planning is working with MTA on. I believe you have spoken with Ilaria about the Planning Department's request for ask SF Parks Alliance to apply to ISCOTT for a temporary street closure for a one-day demonstration event related to the Groundplay N-Judah turnaround project. Just wanted to double-check that this was on your radar, and see if you foresee any issues on being able to move quickly on processing the permit application once we get it to you. We are hoping to do the event on May 20th, which leaves us just a couple days to submit in time for the 30-day deadline. Apologies in advance if we are pushing this timeline. This project has been on a very tight timeline from the start.

Thanks much,

Ben Caldwell

Ben –

I'm glad we were able to resolve the issue, and only sorry that we couldn't have done it sooner and with less stress and wasted effort. A street closure along La Playa from Judah north is something we've done before, and could be done as a neighborhood block party, and so seems relatively straightforward, assuming you will have done neighborhood outreach and have Java Beach Café on board. The latest we could accept an application for that date would be May 4, and as with previous applications, earlier submission is preferred. If an application was submitted at the deadline, as has been the practice, it would have to be heard on May 25, less than a week and a half before the event, and thus your permit would be issued past the normal deadline for requesting temporary "no parking" signage. A completed application with no outstanding issues received by April 27 could be scheduled for the May 11 ISCOTT hearing, which would give everyone a decent interval before the event.

Nick,

Thanks very much for taking such a quick look at this today. We acknowledge a number of concerns you raised, and do want to be sure that this community event is something both MTA and Planning support, and have enough time to appropriately review. Going ahead with an ISCOTT application at this last minute that isn't fully supported and hasn't been fully thought through or reviewed does not seem like a good idea for anyone concerned. So we will not submit this ISCOTT application this week after all.

We would like to continue the conversation about having a community outreach event of a different scale and scope, perhaps two weeks later (we are thinking June 3rd; let us know if you foresee any issues with this date). It would not be a demonstration project for the pilot project, encompassing the entire intersection with all its complexity and areas of concern, but instead something smaller and simpler, more of a community building/outreach event to build awareness and support for the coming pilot project, perhaps with a more simple closure of the end of La Playa on the north side of Judah. But we will be back in touch next week when we've got a better idea of our new ISCOTT proposal to come.

Thanks again for your help today,

Hi Buffy,

I understand your sentiment wholeheartedly.

The Planning team and I have a regular Thursday conference call. I think this time around we were trying to connect with everyone so we are all on the same page. We have tried to have a couple of in-person meetings out on Judah but they were cancelled, and time is not on our side at this point. I think if we had the luxury of time, we could make this a lot more personal.

That being said – feel free to join the call or not, it's no problem. I unfortunately am out of town tomorrow for a much needed break, but I will defer to the others if they can come out at that time. I will of course be there on Monday!

If we want to regroup in person, I can come early on Monday and I am also free on Friday 4/7.

Thank you, Seung.
Can I just say to the whole group:
Honestly, this process seems to be making things more difficult than it needs to be and it is actually making things more confusing than what we already discussed. For those of us not used to working with City Agencies, this way of working together lacks intimacy. Out at Java Beach, we just meet to discuss things in person. It works much better. And to that end, can we please make all meetings in the Outer Sunset? It feels more authentic. Maybe this group already decided that definitively; I hope so.

We, the neighborhood people, began this process and we are happy to continue to lead it.

In that spirit, can any of you meet me on Friday at Java Beach (La Playa) at 11:00am to discuss this in person? I will be there from 11am to 12noon.

Thank you,
Buffy

Hi Ashley,
Thank you for following up on this. I'd wait till we meet MTA to talk through our strategies. Could we have our check in call this Friday instead of Thursday? We are scheduled to meet MTA at 1650 Mission this Thursday at 11am. You are welcome to join us if you want. Otherwise we will debrief on Friday.

Thanks!

Good suggestion. Just looked them up on a map—didn't realize they were so close to Mollusk. I'm fine with this.

I would also suggest 3 Fish Studios – they are very engaged in the community, are artists, and they participated in the mural on the side of Java Beach. They are open a lot and seem a little more welcoming in my opinion.

Good question. I'd thought about the café, but I feel like that would be perceived as a conflict of interest.

We use libraries often, but the two Sunset branches are pretty far from the site.

Mollusk would be a way to engage additional stakeholders in the process, and they're pretty dialed into the neighborhood arts community. Perhaps we could do some additional signage at the project site alerting people to the project and the opportunity to view the proposals and leave comments at Mollusk.

Ashley—does this sound like an agreeable approach?

Hi Marcus,

Thank you for the updated schedule. For the public display, do you usually display it at one place? I am wondering if Buffy's café is a better location since it is right next to the site, unless there's a conflict of interest.

Ashley, Seung Yen and Ilaria,

Now that we have a date set for the second panel on 8/29, I'm going to push out the schedule a bit and allow for more proposal development time. We'll still make the 9/20 VAC artist approval as planned. The new schedule is as follows:

8/4 Proposals due

8/7-8/18	Public display of proposals (I'm thinking Mollusk might be a good place for this)
8/29	Final selection panel
9/20	VAC approval
Mid-Oct	Artist under contract

Let me know if you have any question.

Thanks,
Marcus

Subject: additional community outreach

Hi Ashley,

Thank you so much for coordinating with the stewards on the letter drafting. On our end, we've been talking to our communications team – Candace, and the team thinks 200 addresses may not be enough. Since we cannot send the joint letter to more than 200 addresses, we will put together a flyer and send out to residences/businesses within about 300 ft radius of the project (excluding the 200 addresses that your office is pulling together). I've attached a draft language for the flyer, please let me know if you have any comments.

(By the way, it takes some time for our admin to have stamped envelopes ready so the letters won't go out till this Friday...)

Here are some additional outreach methods that our communications team recommended:

- Outer Sunset weekly update (Planning gov delivery) – we are working on it.
- Groundplay email distribution list
- Stack of flyers at local destinations, e.g. library, cafes, community boards
- Groundplay website update – we are working on it. *Could you please add "For more information, please visit the project website at http://groundplaysf.org/projects/n-judah-turnaround" to the joint letter?*
- Social media

Please let us know what you think.

Thanks!

Subject: RE: follow-up: feedback
Date: Wednesday, February 22, 2017 6:39:59 PM

Hi Jen,

Thank you so much for consolidating all the comments into one email. We really appreciate it. Yes, the detailed design of plants, materials, finishes, etc is going to be finalized working with the stewards, key stakeholders, and/or community members.

Here's our proposed next steps. Things change almost every day so these target dates may change as well...

- One-way street petition process – we will contact you about this with more detailed instructions later this week. We need to collect signatures; we are putting together petition forms, etc. We are hoping to get signatures by 3/9.
- MTA meeting #1 (prestaff): 2/28 (deadline: 2/24) - Planning will revise drawings to reflect the stewards' comments. Planning will share with the stewards about the results of the meeting.
- Meeting with Rail Control Board (TBD)
- Meeting with Fire: 3/2
- *Meeting with Police (optional)*
- MTA meeting #2 (TASC): 3/9 – depending on feedback we get from MTA Meeting #1 and Fire, we may revise drawings, and in such case we may ask the stewards for further input on 3/1; we will ask you to give us feedback by 3/6
- Meeting with the stewards to discuss detailed design ideas and artist selection (3rd week of March) - After Meeting #2, we will have a better sense of what parameters we can use to design plaza elements (planters, signage, etc). We will have about 2.5 months to develop and finalize the design of plaza elements.
- MTA public hearing: 3/31
- Community meeting (sometime in April) – we propose a mini community meeting at Java Beach Café to review the design concept and discuss detailed design elements.
- MTA Board meeting: 5/2 (deadline 4/11)

See my responses to your questions below in red text.

Please let me know if you have any questions.

Thanks!

Subject: follow-up: feedback

Hi Seung,

Thank you for your 2nd design concept based on our feedback when we meet 1.18.17. When we met as a group to debrief and discuss this concept, attached were the comments/feedback we initially had. We do like the idea of having the space inside the turnaround (on the 2nd concept design - labeled "flex space") and understand that the draft "geometric" design that you created is a balance of what we can do with the space as well as safety in mind. To confirm, the design concept is just a sample of what potentially can be done (page 2) - the "look" , what kind of plants, materials, etc... has not been finalized - for this is where we can bring our neighborhood identify to the project (e.g. more of a placeholder). Correct? YES Overall, after speaking with Steve (*please note Buffy will/may provide additional comments on the 20th - when she gets back in town*), the 2nd design concept works for us, however, there are still a few items which we want to address in particular the green zone in front of Java Beach. Hopefully, this will provide you with enough feedback to work on the 3rd draft design. Thanks, J

Based on our previous conversation, I wanted to recap:

Starting from the top of the image:

1. Each brown shaded area (painted ped Zone with softs posts) - the one at the top of the crosswalk takes approx. 4 parking spots - so a total of 8 spots Based on our observation, correct.
2. Where it says on the (parking for Muni service vehicle) in front of the bathroom on lower great highway; Muni indicated that they prefer/indicated that their cars be able to park in the spaces where parking currently exists on the Judah side in front of the Muni bathroom (blue shaded area on the map, labeled the surfboard parking/parklet) We are working with MUNI to find the location for their service vehicle parking; we will have a better answer once we have a meeting with them in person. We have been trying to schedule a meeting with them for this week.
3. The brown shaded areas where it says "potential location for art - no seating" - this space would be "inactive" meaning no play area/seating due to safety. Correct.

Space in front of Java Beach:

1. With the current 2nd design concept, Seung you had mentioned that it would be necessary to have a ped zone in front of Java Beach and that potentially the green zone move down but still be there in front of Java Beach We understand your concern about the green zone, and we are working with MTA to find a best spot for green/yellow zones. This will also be discussed with Fire as this corridor is subject to emergency vehicle clearance.
2. Could you please provide an additional design concept which would still have the green zone remain where it is. That way when Buffy comes back on the 20th and able to review she will be able to see two scenarios with one having the green zone remain where it currently is. It is important that folks can still have access to Java Beach via car for quick stops. We will work on this issue with MTA and Fire and get back to you.

Parking:

1. In this 2nd concept draft - in total there would be a potential parking loss of 19.5 (this includes the 2 spaces designated for MUNI vechicles - but it can add 2 in the night when Muni is not parked there) Muni parking spaces are likely 24/7 so won't be available for public parking.
2. potential angle parking in the lower great highway - starting at cross street of Lawton as well as La Playa side of bocce court can make up all loss parking and potentially create more spots. As part of this project process, we are working with MTA to legislate angled parking. At this point we do not know how many and where angled parking spaces would be approved by MTA Board.
3. Any update on other potential areas where we can add more angle parking in the immediate area? See above.

Area/Space that is where the Muni bathroom is:

1. In your 2nd design - it did not call out any "design/geometric" placeholder. In all of our materials I provided,

we had focused heavily on this area. As I mentioned in my previous email, the 2nd version was just for MTA engineers review so it did not include all design ideas. Please note that all MTA review materials won't have descriptions about design ideas. It does not mean that the idea has been eliminated.

Additional thoughts/comments: Thank you for pointing them out. We have been looking into these issues.

- Yellow zones - where and can this happen in the design re: delivery trucks
- Any updates re:emergency access e.g. SFFD, PD, and N-Judah express etc.. in regards to our 1 way concept on La Playa? Potential traffic back-up if Muni buses are idling.
- How will this design effect traffic when the great highway is closed?
- Timeline? What are the moving target dates? You mentioned we have to do a final comment presentation to ensure we have 50% approval. Where is this on the timeline?
- Do you know if the garden/public space that is directly in front of Java Beach - are the new owners planning to donate this land to the City? We would like to install a water line there.

Hi Ashley,
I am here with Buffy and Steve and they would really like to push it off to the week of the 20th. What does your availability look like on the 20th? I can go ahead and send the doodle, if that would be easier. Before we leave I will get the availabilty of both Buffy and Steve. Would that work?

Subject: Re: Camera on Java Beach for N-Judah Project?
Date: Wednesday, December 14, 2016 6:54:17 AM

Hi Ashley,
Can we discuss the goal of this camera on a quick phone call so that I completely understand? Originally, there was a delay because our tenants (my sister and her family) newborn (my niece) had with a terrible host of health concerns. I did not want to bother them since we have to go through their space to access roof. They are moving out Jan 15 so it will be easier to access for a few weeks, but I would like to fully understand the goal.

Is the goal to see the dangerous intersection? Or is the goal to move the last stop of N-Judah per Steve Ward? Or both?

When we do the turnaround, we will be alleviating vehicular traffic, correct? Leaving just N-Judah "traffic"?

Thank you,
Buffy

Hi Jen & Ashley,
Thank you for the info and I do think we should take advantage of it. My understanding is that Jen has been very busy recently but she will be returning to focus on some of the La Playa Park business soon. I think she is the appropriate person to head up this grant effort with my support. I also would like to enlist the support of another individual in this effort. This would be one way to pay for the waterline we need for the part of the park across from java beach. I think it was you , Ashley, or possibly Katy and I think Colm Murphy of DPW who I showed the kristy box to. I haven't received any word on the viability of the line yet. It would be good if you could find out the status of this. I left a message for Colm 641 2642, to call. I'll be working on this along with other issues; however work at SFUSD and personal business will be drawning on my time.
Jen please contact me as soon as is convenient.
All the Best

THE COMMUNITY CHALLENGE GRANT PROGRAM ANNOUNCES THE OPENING OF ITS FALL 2016 GRANT CYCLE!

We are excited to announce that the Community Challenge Grant Program's Fall 2016 Grant Cycle has opened. The CCG will make available $800,000 in grant opportunities this cycle through our application process to neighborhood groups and community based organizations facilitating neighborhood beautification projects. The CCG supports community revitalization by providing grant resources to community groups, schools, businesses and non-profit organizations to make physical improvements to their neighborhoods. The CCG focuses on projects that directly engage residents and businesses in creating green spaces, gathering places, public art, and other neighborhood amenities.

Also available this cycle are two partnership programs in the Market-Octavia Boundary Area and the Third Street Commercial Corridor, allowing the CCG to further expand its funding resources.

- The Living Alleys Grant Program is a partnership grant program between CCG and SF Planning, providing $800,000 in funding for streetscape improvements within small streets in the Market-Octavia Area Plan. These grants encourage the activation of small streets, creating pedestrian & bike-friendly public places that prioritize livability over traffic. CCG and SF Planning hope that these funds allow residents, community groups, businesses, and non-profit organizations to unite and engage in local place making by designing gathering spaces, improving pedestrian safety, and beautifying public spaces with greening, art, and other neighborhood amenities.

- The Third Street Corridor Grant is a one-time partnership grant program between the CCG, Office of Community Investment & Infrastructure and the Mayor's Office of Economic and Workforce Development, providing $250,000 in funding specifically to community groups in the Bayview Hunters Point Area to enhance the pedestrian experience and improve pedestrian safety by beautifying public spaces with greening, art and other neighborhood amenities. These grants are only available for projects located on or within three blocks of Third Street between Cesar Chavez Street and Jamestown Avenue.

CCG Fall 2016 Grant Cycle Timeline:

August 16th: CCG Grant Cycle Opens (Guidelines and Applications are available on the website – **www.sfgov.org/ccg**)

September 23rd: CCG Grant Cycle Closes (All Applications must be received **No Later Than 5 PM**)

October/September: Application Review Process

Mid-December: Awards Announcement

If you have any questions or would like to discuss a potential CCG or Third Street Corridor project contact Lanita Henriquez, CCG Director at (415) 554-4830 or by email at lanita.henriquez@sfgov.org. For questions or to discuss a potential Living Alleys project contact Jillian Johnson, CCG Program Manager at (415) 554-6435 or by email at jillian.johnson@sfgov.org.

Subject: Re: Conversation with Buffy about revised design
Date: Wednesday, April 26, 2017 8:16:54 AM

That sounds fine. I had a long call with Luis Montoya two days ago, which I relayed to Seung Yen, and I think they can be persuaded to consider the one-way design. Luis and his team have been responsive, supportive and have invested significant staff time to help move this forward as quickly as they can through the arduous and sometimes opaque MTA review process, although more conservative in their willingness to try the new circulation pattern. That said, their main concern is compliance; we can work on designing as self-reinforcing a street as we can, and with community commitment, I believe was achieve high levels of compliance. Let's relate this to Luis and his team - I'm happy to be the messenger - so that Kimberly can be prepared to talk about the best ways to increase compliance with the new circulation pattern, i.e., ensure people traveling south don't try to use the Muni-only lane and turn left, instead of turning around. We should be clear that this will have a larger parking impact at least initially since we will likely have to comply with the amount of space MTA has recommended to allow cars to make a u-turn without using neighbors' driveways (apparently a large concern of said neighbors). But as we conduct evaluations, I hope we can demonstrate there will be a low volume of cars making this u-turn and that we can safely put back some of the perpendicular parking.

Thanks everyone,
Neil

Subject: Conversation with Buffy about revised design

Neil and Ashley,
Seung Yen and I had a call with Buffy this afternoon at 5 pm that was sort of game-changing. After meeting with Seung Yen last week, she recomfirmed today that she is strongly opposed to the MTA-revised design as she thinks it departs from the community vision and that the 2-way scheme is not worth pursuing given that it doesn't improve public space and pedestrian

safety substantially while it causes loss of parking and additional car movement into Judah Avenue.
I tend to agree.

She thought that presenting the 2 schemes (original design and new revised design) would generate confusion and disgregate the community support that we gained at the previous open house (she stated that although not perfect, Groundplay's design was very accurately representing the community's vision and she felt it was a successful end product worth pursuing). I agree with her about this as well.

I made a call on the spot as we were running out of time and options and told her we will not present the MTA revised scheme tomorrow but we will talk about design elements instead.

We will seriously need to consider next steps and make sure MTA hears the community position about the latest design. As a main champion of this project we need and want Buffy on board- she basically runs one of the main community centers of the Sunset, the immediate residents look at her to make the last call on decisions about the design and I think she could make wonders for our project. Additionally our team wants to deliver a design that works and that the local community is happy about: I also agree with her that we can do better.

She might send out a letter expressing her concern and opposition to the modified design. She will not be in support of it should that be the sole option for this project.
We can connect about this in the next couple of days but I wanted to give you the heads up in case you receive any communication from her between now and tomorrow.

Thanks,
Ilaria and Seyung Yen

Subject:	Re: FW: Meeting this Friday 2/10- Need to reschedule week of 02/13
Date:	Friday, February 10, 2017 8:38:15 AM

Hi Illaria,
Thank you for your update. In order to meet the 24th timeline, we would like to suggest the following timeline and action steps:

1. I will be sending over to your team, our feedback, requested revisions, and additional questions of the 1st draft proposal/design that your team created - (2/11/17)
2. Illaria and team draft 2nd proposal design (2/13-2/16)
3. Illaria and team send to La Playa group via email (or upload to Jen's dropbox) for review
4. La Playa group reviews 2nd design (2/17- 2/20)
5. La PLaya group sends comments on 2nd design to Illaria and team via email 2/21
6. La Playa group and Illaria/team tentatively meet in-person or online (video conference call) ~22nd (Jen can host zoom video conference call, need be) to make any final edits, comments
7. Submission on the 24th

Would this work with everyone? Also, Illaria / Seung Yen - can you please send over a electronic/soft copy of the 1st design proposal. For when I submit our comments - I would like to refer to this and will be making comments on the actual design for clarity of our comments, revisions.

Thank you!
Best,
Jen

Hello,

Thanks for coming to the meeting yesterday. I hope you stayed dry the rest of the night.

The discussion we had on the proposed conceptual design was really helpful for us – we appreciate that you (the Friends of La Playa Park) act as a conduit between the City family and the community and inform us about what the community is most concerned about and excited about. While we had a great discussion, we left the meeting with the agreement that it would be beneficial for all of us to meet again on the site to further discuss and solicit feedback on the conceptual design. We will work with Ashley to find the best time for everyone. Stay tuned!

As requested, I've attached a copy of the presentation for your reference. Please feel free to contact us if you have any questions.

Hi everyone
I also wanted to provide an update of the La Playa Park Neighbors account here at SFPA. There is $1,899.64 of unrestricted funds currently in the account.

Best,
Sahiti

Greetings Pooja,

No I don't think Jen would mind. Although I think she is pretty busy right now. Did you get an email from her? Also nobody from your office contacted me regarding the photo that you wanted.

On another note Hoodline covered this meeting:
The Fix-It Workshop will be hosted this evening, June 15th, from 6:30-8pm at the Eureka Valley Recreation Center, 100 Collingwood between 18th and 19th Streets. Hoodline will be at the community workshop, and we'll have an update for you tomorrow.

Sandra Zuniga was the person I had wrote you about that was my initial liaison with the SFDPW in the birth of La Playa Park.
Responding to complaints that San Francisco's streets and sidewalks are dirty, too many of its street lights are broken and potholes are tearing up cars, Mayor Ed Lee is creating a new position, a "fix-it director" who will report directly to him.
The idea is to address growing concerns among residents about quality-of-life issues.
Sandra Zuniga, the fix-it director — that's the official job title — will oversee a team of about 40 city employees from six agencies who will go neighborhood by neighborhood, fixing broken parking meters, filling potholes and painting over graffiti.
"She will have my authority, as mayor, to coordinate all of the different departments," Lee said Thursday at a news conference

I am hopeful that Supervisor Tangs' office will pursue a path to place the La Playa Park community on the Fix-it Teams' list of focus areas for
Mayor Lee's Safe & Clean Neighborhoods initiative.

Hi Katy and hello Ilaria,

Thank you for reaching out!

Sounds interesting!

Ilaria, can we connect to go over what this would entail? My sister lives upstairs from JB on La Playa and she just had a baby so just hoping it is not too extensive.

Tomorrow (Thursday) I am on a field trip with my son's school all day, but perhaps we can connect via phone on Friday morning?

Thank you!

Hi Buffy,

Hope you are doing well! I wanted to connect you with Ilaria, who is part of the Planning Department's Pavement to Parks Team. She is leading the effort to bring the community's vision to reality for La Playa Park.

As part of this work, Ilaria would like install a time lapse camera on top of Java Beach Café so that she can more see with more accuracy how the intersection around La Playa Park is utilized currently. This documentation will help inform the Planning team's work on mock designs – all of which would be based on existing community input that was already gathered.

Please feel free to get in touch directly with each other to work this out.

Thank you!!

I think just saying that the two open houses were very successful and very well attended.
We did present some concept designs and got feedback on design ideas for street furniture, place identity and activities people would like to do in the new space.
Next steps is getting the installation permitted (Summer 2017) and built (late Summer 2017).
Community days will be announced when people will be able to participaye in painting, planting and installing the new public spaces.

Thanks,
Ilaria

The letter seems fine to me. It appears on my computer as though the higher case lettering is slightly lopped off at the tops.

All the best
Steve

Dear all,
Apologize, for just responding. Following up to Buffy's email, with the initial feedback that we received - at this time it looks like the change of flow traffic is not something that folks want at this time and we do not feel comfortable initiated a petition. Would it be possible for us to refocus our efforts to the original strategy of beautifying the area around the Muni bathroom and as well as other parts of this area that would not 1) effect the flow of traffic 2) take parking spaces away. This way we can initiate in phases, in order to get buy-in and slowly work our way back to this greater design concept.
In terms of next steps, we would love to have all of you meet with us in-person to walk through the site and further discuss and gain a vision match.
Thoughts?
Best,
Jen

Hi Ashley and all,

Yes, happy Friday to you all. Thank you for all of your work on our behalf.

As I mentioned at our last meeting, I need to personally connect with our neighbors in an organic way to get a litmus test of how they are feeling with the proposed plans. I have connected with some, but not all and I feel very strongly that a petition is premature at best. I understand and respect the timeframe, but a petition is not in my comfort zone at this moment.

Thank you,

Buffy

Happy Friday everyone –

It is essential that we get these signatures to the project team by 3/9. I know it is short notice, but if the three of you can coordinate getting signatures in the next 2 weeks that would be great. I suggest going out together and knocking doors this weekend and then following up once or twice with folks that did not answer. There are 22 properties on La Playa (Irving – Judah), so you'll need 12 signatures from that block. There are 16 properties on La Playa (Judah – Kirkham), so you will need 9 signatures from that block. I did this count on Google Earth so I may be off by 1-2 properties.

I suggest prepping a short script for yourselves that gets you to the point quickly, for example. "Hi I am ___ from the La Playa Park Coalition. We are working on a project with the community and the City to create a temporary community plaza at the end of Judah. In order to improve pedestrian safety and circulation in the area, we are proposing temporarily changing this street to a one-way local only access street and we need the signature of a majority of the households on this block to do so."

Then you can answer questions if they come up and have a more natural conversation with them. You should work with Sahiti to prep the petition language prior to going out to the community. I would also suggest using this opportunity to bring any of these people on board the steering committee or taking their contact info if they want to volunteer or help in the future.

Please let me know if you have any questions at all! Thank you for all your hard work.

Subject: N Judah petition

Dear Jen, Buffy and Steve,

We need your help to file a petition(s) supporting one-way circulation (northbound) on La Playa approximately between 1420 La Playa and 1392 La Playa. We need signatures from a majority (50% + 1) of households on the two blocks that would be affected by the change, highlighted in the map below. We are hoping to get the signatures by 3/9, but we understand it's only 2 weeks from now. I will try to talk to MTA folks tomorrow if we can extend the deadline.

As stated in the attached petition template, a resident living on the block affected by this one-way street change should file the petition. In this case, Buffy Maguire, the owner of Java Beach Café could file the petition for the block north of Judah. Do you have any suggestion for the block south of Judah?

Sahiti, copied on this email, kindly agreed to help you fill out the petition. We encourage you to make sure the petition clearly states that it is a *temporary* change. Please let me or Sahiti know if you have any questions.

There are 22 properties on La Playa (Irving – Judah), so you'll need 12 signatures from that block. There are 16 properties on La Playa (Judah – Kirkham), so you will need 9 signatures from that block. I did this count on Google Earth so I may be off by 1-2 properties.

I suggest prepping a short script for yourselves that gets you to the point quickly, for example. "Hi I am ___ from the La Playa Park Coalition. We are working on a project with the community and the City to create a temporary community plaza at the end of Judah. In order to improve pedestrian safety and circulation in the area, we are proposing temporarily changing this street to a one-way local only access street and we need the signature of a majority of the households on this block to do so."

Then you can answer questions if they come up and have a more natural conversation with them. You should work with Sahiti to prep the petition language prior to going out to the community. I would also suggest using this opportunity to bring any of these people on board the steering committee or taking their contact info if they want to volunteer or help in the future.

Please let me know if you have any questions at all! Thank you for all your hard work.

Dear Jen, Buffy and Steve,

We need your help to file a petition(s) supporting one-way circulation (northbound) on La Playa approximately between 1420 La Playa and 1392 La Playa. We need signatures from a majority (50% + 1) of households on the two blocks that would be affected by the change, highlighted in the map below. We are hoping to get the signatures by 3/9, but we understand it's only 2 weeks from now. I will try to talk to MTA folks tomorrow if we can extend the deadline.

As stated in the attached petition template, a resident living on the block affected by this one-way street change should file the petition. In this case, Buffy Maguire, the owner of Java Beach Café could file the petition for the block north of Judah. Do you have any suggestion for the block south of Judah?

Sahiti, copied on this email, kindly agreed to help you fill out the petition. We

Dear all,

Apologize, for just responding. Following up to Buffy's email, with the initial feedback that we received - at this time it looks like the change of flow traffic is not something that folks want at this time and we do not feel comfortable initiated a petition. Would it be possible for us to refocus our efforts to the original strategy of beautifying the area around the Muni bathroom and as well as other parts of this area that would not 1) effect the flow of traffic 2) take parking spaces away. This way we can initiate in phases, in order to get buy-in and slowly work our way back to this greater design concept.

In terms of next steps, we would love to have all of you meet with us in-person to walk through the site and further discuss and gain a vision match.

Thoughts?

Best,
Jen

Hi Ashley and all,

Yes, happy Friday to you all. Thank you for all of your work on our

behalf.

As I mentioned at our last meeting, I need to personally connect with our neighbors in an organic way to get a litmus test of how they are feeling with the proposed plans. I have connected with some, but not all and I feel very strongly that a petition is premature at best. I understand and respect the timeframe, but a petition is not in my comfort zone at this moment.

Thank you,

Buffy

Subject: Re: N Judah petition

Dear all,

Apologize, for just responding. Following up to Buffy's email, with the initial feedback that we received - at this time it looks like the change of flow traffic is not something that folks want at this time and we do not feel comfortable initiated a petition. Would it be possible for us to refocus our efforts to the original strategy of beautifying the area around the Muni bathroom and as well as other parts of this area that would not 1) effect the flow of traffic 2) take parking spaces away. This way we can initiate in phases, in order to get buy-in and slowly work our way back to this greater design

concept.

In terms of next steps, we would love to have all of you meet with us in-person to walk through the site and further discuss and gain a vision match.

Thoughts?

Best,
Jen

Hi Buffy,

Thank you for your email. I understand your concern and agree that rushing it may not be the best way to convince the neighbors, but without the petition, this project cannot be realized. Could we schedule a meeting or phone call to discuss this issue tomorrow afternoon?

Best,

Seung Yen

Hi Ashley and all,

Yes, happy Friday to you all. Thank you for all of your work on our behalf.

As I mentioned at our last meeting, I need to personally connect with our neighbors in an organic way to get a litmus test of how they are feeling with the proposed plans. I have connected with some, but not all and I feel very strongly that a petition is premature at best. I understand and respect the timeframe, but a petition is not in my comfort zone at this moment.

Thank you,

Buffy

Happy Friday everyone –

It is essential that we get these signatures to the project team by 3/9. I know it is short notice, but if the three of you can coordinate getting signatures in the next 2 weeks that would be great. I suggest going out together and knocking doors this weekend and then following up once or twice with folks that did not answer. There are 22 properties on La Playa (Irving – Judah), so you'll need 12 signatures from that block. There are 16 properties on La Playa (Judah – Kirkham), so you will need 9 signatures from that block. I did this count on Google Earth so I may be off by 1-2 properties.

I suggest prepping a short script for yourselves that gets you to the point quickly, for example. "Hi I am ___ from the La Playa Park Coalition. We are working on a project with the community and the City to create a temporary community plaza at the end of Judah. In order to improve pedestrian safety and circulation in the area, we are proposing temporarily changing this street to a one-way local only access street and we need the signature of a majority of the households on this block to do so."

Then you can answer questions if they come up and have a more natural conversation with them. You should work with Sahiti to prep the petition language prior to going out to the community. I would also suggest using this

opportunity to bring any of these people on board the steering committee or taking their contact info if they want to volunteer or help in the future.

Please let me know if you have any questions at all! Thank you for all your hard work.

Subject: N Judah petition

Dear Jen, Buffy and Steve,

We need your help to file a petition(s) supporting one-way circulation (northbound) on La Playa approximately between 1420 La Playa and 1392 La Playa. We need signatures from a majority (50% + 1) of households on the two blocks that would be affected by the change, highlighted in the map below. We are hoping to get the signatures by 3/9, but we understand it's only 2 weeks from now. I will try to talk to MTA folks tomorrow if we can extend the deadline.

As stated in the attached petition template, a resident living on the block affected by this one-way street change should file the petition. In this case, Buffy Maguire, the owner of Java Beach Café could file the petition for the block north of Judah. Do you have any suggestion for the block south of Judah?

Sahiti, copied on this email, kindly agreed to help you fill out the petition. We encourage you to make sure the petition clearly states that it is a *temporary* change. Please let me or Sahiti know if you have any questions.

I can pull out addresses from our database if you need – we have both owners and residents addresses. I've attached residents addresses for your reference.

Thank you.

Okay, yes, please. I need/want to be part of this process, but I truly think there are too many meetings for a non-City agency person to realistically participate. Just my opinion. We can discuss tomorrow. I am only available from 8:20-10am or later in the afternoon after 4:30pm.

Thank you

Hello Panelists,

I'm exploring a possible time change for our first panel on 4/27. Please let me know as soon as possible if you would still be able to attend the meeting if moved to **11am—3pm.** The location will still be here **at 401 Van Ness**, 3rd floor. Any flexibility would be much appreciated, but I understand if the change doesn't work for you.

This change is not confirmed yet, so please keep the original 1-5pm timeslot on your calendar for the time being.

Many thanks,

Marcus

Subject:	Re: Open House prep call and material review
Date:	Wednesday, March 29, 2017 7:19:53 PM

Thank you, Seung.
Can I just say to the whole group:
Honestly, this process seems to be making things more difficult than it needs to be and it is actually making things more confusing than what we already discussed. For those of us not used to working with City Agencies, this way of working together lacks intimacy. Out at Java Beach, we just meet to discuss things in person. It works much better. And to that end, can we please make all meetings in the Outer Sunset? It feels more authentic. Maybe this group already decided that definitively; I hope so.

We, the neighborhood people, began this process and we are happy to continue to lead it.

In that spirit, can any of you meet me on Friday at Java Beach (La Playa) at 11:00am to discuss this in person? I will be there from 11am to 12noon.

Thank you,
Buffy

Thanks for this Ashley! I do want to let you know that we decided to submit an application for the Spring cycle - Feb. 2017. I will be at City Hall this Thursday 9/19 for a meeting. Do you have time to check-in that day? My meeting is at noon. Could we check in say 11:30? Let me know what you think.
Best,
Jen

Jessica,
I did get an update from Seung Yen this AM about the RCCB conference call earlier today.

I want to express my appreciation for your continuous effort on this project and for the great work and support you have demonstrated since the beginning of this collaboration. I know you have been doing your very best to help move this project forward and your information and feedback has been invaluable to our design development.
At this point Neil, Sean and Luis have been updated on the currents status of the RCCB comments. I trust we will be able to find a way forward.

I am looking forward to collaborating further with you and the rest of the MTA team.
Thanks again from all of us.

Team,
I order to respond appropriately to Buffy McGuire's concerns, we will hold the scheduled open house tonight but discuss other aspects of the project that we would need to discuss anyway such as – design elements, art, signage etc.
We will hold off to discuss design geometry and circulation until this issue has resolved.

Thanks,
Ilaria

Subject: additional community outreach
Date: Monday, March 20, 2017 5:01:03 PM
Attachments: Flyer draft 03-20-2017.docx

Hi Ashley,

Thank you so much for coordinating with the stewards on the letter drafting. On our end, we've been talking to our communications team – Candace, and the team thinks 200 addresses may not be enough. Since we cannot send the joint letter to more than 200 addresses, we will put together a flyer and send out to residences/businesses within about 300 ft radius of the project (excluding the 200 addresses that your office is pulling together). I've attached a draft language for the flyer, please let me know if you have any comments.

(By the way, it takes some time for our admin to have stamped envelopes ready so the letters won't go out till this Friday...)

Here are some additional outreach methods that our communications team recommended:

- Outer Sunset weekly update (Planning gov delivery) – we are working on it.
- Groundplay email distribution list
- Stack of flyers at local destinations, e.g. library, cafes, community boards
- Groundplay website update – we are working on it. *Could you please add "For more information, please visit the project website at http://groundplaysf.org/projects/n-judah-turnaround" to the joint letter?*
- Social media

Please let us know what you think.

Thanks!
Seung Yen

Attachments:	Feedback to short -term design concept #1 -.pdf

Hi Seung,

Thank you for your 2nd design concept based on our feedback when we meet 1.18.17. When we met as a group to debrief and discuss this concept, attached were the comments/feedback we initially had. We do like the idea of having the space inside the turnaround (on the 2nd concept design - labeled "flex space") and understand that the draft "geometric" design that you created is a balance of what we can do with the space as well as safety in mind. To confirm, the design concept is just a sample of what potentially can be done (page 2) - the "look" , what kind of plants, materials, etc... has not been finalized - for this is where we can bring our neighborhood identify to the project (e.g. more of a placeholder). Correct? Overall, after speaking with Steve (*please note Buffy will/may provide additional comments on the 20th - when she gets back in town*), the 2nd design concept works for us, however, there are still a few items which we want to address in particular the green zone in front of Java Beach. Hopefully, this will provide you with enough feedback to work on the 3rd draft design. Thanks, J

Based on our previous conversation, I wanted to recap:

Starting from the top of the image:

1. Each brown shaded area (painted ped Zone with softs posts) - the one at the top of the crosswalk takes approx. 4 parking spots - so a total of 8 spots
2. Where it says on the (parking for Muni service vehicle) in front of the bathroom on lower great highway; Muni indicated that they prefer/indicated that their cars be able to park in the spaces where parking currently exists on the Judah side in front of the Muni bathroom (blue shaded area on the map, labeled the surfboard parking/parklet)
3. The brown shaded areas where it says "potential location for art - no seating" - this space would be "inactive" meaning no play area/seating due to safety.

Space in front of Java Beach:

1. With the current 2nd design concept, Seung you had mentioned that it would be necessary to have a ped zone in front of Java Beach and that potentially the green zone move down but still be there in front of Java Beach
2. Could you please provide an additional design concept which would still have the green zone remain where it is. That way when Buffy comes back on the 20th and able to review she will be able to see two scenarios with one having the green zone remain where it currently is. It is important that folks can still have access to Java Beach via car for quick stops.

Parking:

1. In this 2nd concept draft - in total there would be a potential parking loss of 19.5 (this includes the 2 spaces designated for MUNI vechicles - but it can add 2 in the night when Muni is not parked there)
2. potential angle parking in the lower great highway - starting at cross street of Lawton as well as La Playa side of bocce court can make up all loss parking and potentially create more spots.
3. Any update on other potential areas where we can add more angle parking in the immediate area?

Area/Space that is where the Muni bathroom is:

1. In your 2nd design - it did not call out any "design/geometric" placeholder. In all of our materials I provided, we had focused heavily on this area.

Additional thoughts/comments:

- Yellow zones - where and can this happen in the design re: delivery trucks
- Any updates re:emergency access e.g. SFFD, PD, and N-Judah express etc.. in regards to our 1 way concept on La Playa? Potential traffic back-up if Muni buses are idling.
- How will this design effect traffic when the great highway is closed?
- Timeline? What are the moving target dates? You mentioned we have to do a final comment presentation to ensure we have 50% approval. Where is this on the timeline?

- Do you know if the garden/public space that is directly in front of Java Beach - are the new owners planning to donate this land to the City? We would like to install a water line there.

Subject: one-day simulation date question
Date: Tuesday, April 11, 2017 11:21:41 AM

Hi Ashley,

We are trying to figure out the date for the one-day simulation event. The following dates are the options we have been contemplating. What's your preference?

- 5/13: Is it confirmed that Katy is going to be out this weekend? It might be too tight for us to get the permit, but since MTAB public hearing is 5/19 this event will encourage more people to come to the hearing and speak positive things about the project.
- 5/20: We could combine it with Playland. It is a day before Bay to Breakers, so it might be a bit overwhelming for the community to have two big events 2 days in a row.
- 5/27: This might be most realistic in terms of our street-closure permit timeline. But this is the Memorial Day weekend so many people might be out of town.

We want to do this event within May to keep the momentum. No date is perfect, so we should work with what we have. Also, from the administrational perspective, we need to start spending the funding...

Thanks,
Seung Yen

image002.png

Hi all,

Thank you both for coming out last night.

I talked to Jen Gasang this morning (she couldn't make it last night so we had scheduled a call for this morning). She's open to take the lead on maintaining the corner area improvements. I explained that we and SFPA will help find contractors for gardening and cleaning, and she agreed that she can be the point of contact for them. She feels strongly about opening a bidding process for mural artists, adding greening and minimal seating elements to the area. She understands that adding seating is a critical element to activate the corner area; but she's also cautious about Buffy and Steve's opinions. She said she would talk to Buffy and Steve and circle back to me.

Ashley, she also offered her students for a parking study – if we can have SFMTA on board, her students could do a simple parking study in the fall. Do you think you can talk to SFMTA's parking group (Kathryn or Hank) about this?

Best,
Seung Yen

Importance: High

Ashley,
Do you have an agenda for tomorrow's meeting?

I am interested in discussing:
the current scope of the project as you and the community understands
the possibility of a more significant urban design project as a Pavement to Parks intervention. I would like to hear from SFMTA staff opportunities and constraints.
confirmed funding
confirmed timeline.

Are we in a room where we can have computer to pull up google maps? It would be very helpful to discuss site conditions.
I will be working at a conference in the AM so I will be coming directly to City Hall.
You can contact Seung Yen if you need anything urgent otherwise we will see you at 1 pm. Seung Yen, Ben Caldwell and myself will be attending the meeting. Neil is out the whole week.

Thank you.

Hi Ashley,
I hope you are well.

I apologize that I missed your call; I was in San Jose traffic for hours and did not see you called back, but after weeding through the traffic, I listened to your voice mail.

First of all, thank you so much for troubleshooting this situation and managing the process; I know this is not easy and I greatly appreciate your efforts.

Unfortunately, I just don't feel comfortable not being there. The fact they made it August 7th-- a date not even on the calendar presented to me-- is odd and not very inclusive belying an elitist approach to this project that I simply don't understand and really don't appreciate. From a scheduling standpoint, why would they have me fill out a Doodle Poll and then not use any of those dates? It is a waste of time and it leaves me with an uneasy feeling about this process. (And, that is not to mention the tenor of Marcus' email which I am going to chalk up to emailing and give him the benefit of the doubt since sometimes emails can come off in an unintended rude manner.)

In short, I need to be at this meeting and I have reworked, postponed and compromised on many of my summer plans to make this happen.

Thank you for your help. I honestly think this is only fair.

March 21, 2017

Dear Community Members,

In 2012, community members led by the La Playa Park Coalition and the La Playa Merchants initiated a project to re-envision the La Playa and Judah Street intersection. The goal of the project was and still is to improve pedestrian safety and mobility, to enhance the community character, and to create a vibrant public space for community members to gather and enjoy. Residents, community leaders, and business owners attended a series of workshops in 2012, 2013 and 2014 and developed a new vision for the site. Ideas included seating, landscaping, artwork, signage, tables, and traffic and pedestrian safety improvements.

Supervisor Katy Tang last year allocated enough funding to build much of the community's vision for the area. We, the La Playa Park Coalition, La Playa Merchants, Planning Department, and Supervisor Katy Tang's office, are reaching out to you, the neighbors, to jump start the next phase of project, which is refining and finalizing the design for short-term changes and starting construction of some of the ideas developed thus far. We will be hosting a series of two or more community open houses to discuss the design and phasing of the project and to hear additional ideas from community members.

La Playa Open Houses

Please drop-in to the open houses at any time within the two hour period indicated below. For those who are unable to make the open houses, please contact Planning Department staff Ilaria Salvadori at Ilaria.salvadori@sfgov.org and Seung-Yen Hong at seungyen.hong@sfgov.org.

LONG TERM PRO.

BACKGROUND SUMMARY

INTRODUCTION

This document is a synthesis of the work that has been completed to date by the *La Playa Park Neighborhood Coalition (LPNC)** and charts a path forward for the N-Judah Turnaround Beautification Project.

On December 15, 2012 the ***LPNC*** hosted 60 neighbors and residents for a Community-led Workshop with the intent to identify the assets of the neighborhood and to pinpoint opportunities for actionable proposals for neighborhood improvement and beautification.

Prior to this meeting the ***LPNC*** gathered to set a vision statement for the N-Judah Beautification project that would help guide neighbors with the decision making process.

PROJECT VISION STAT

The vision set forth has three ke

1. Transform the Muni turnarou vibrant social space for neig
2. Establish the immediate neig community within the Sunse
3. Create a healthier, safer, vibr place to live, work and visit.

*Note: During the Community-led Design Workshop, participants expressed the need for a stronger community ne the N-Judah Beautification Project. Recognizing this, the N-Judah project Community Steering Committee has be coalition of neighborhood stakeholders (e.g. business merchants, youth & familiy services, public safety, etc...).

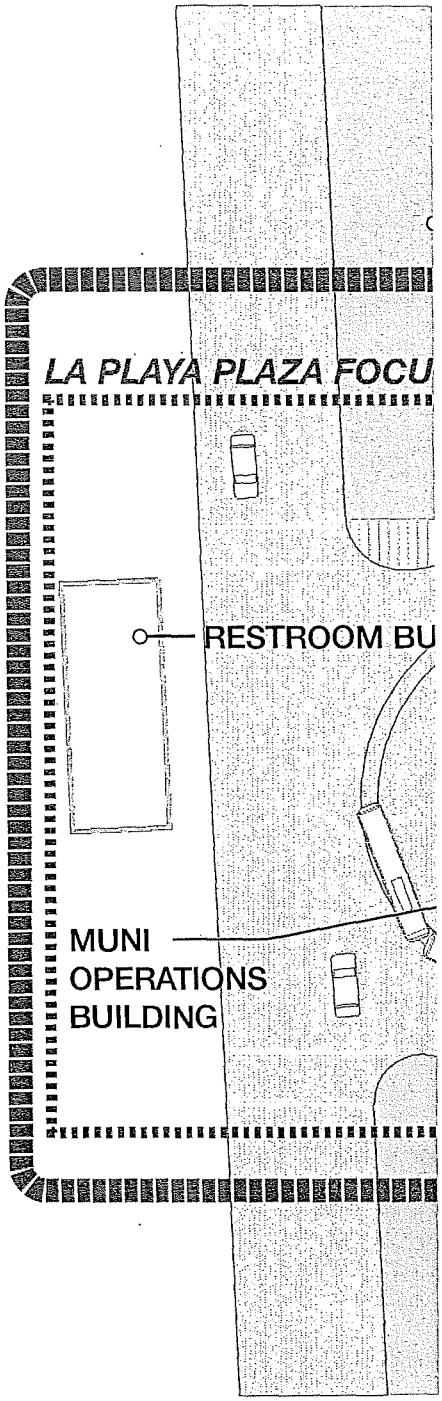

N-Judah Project Area

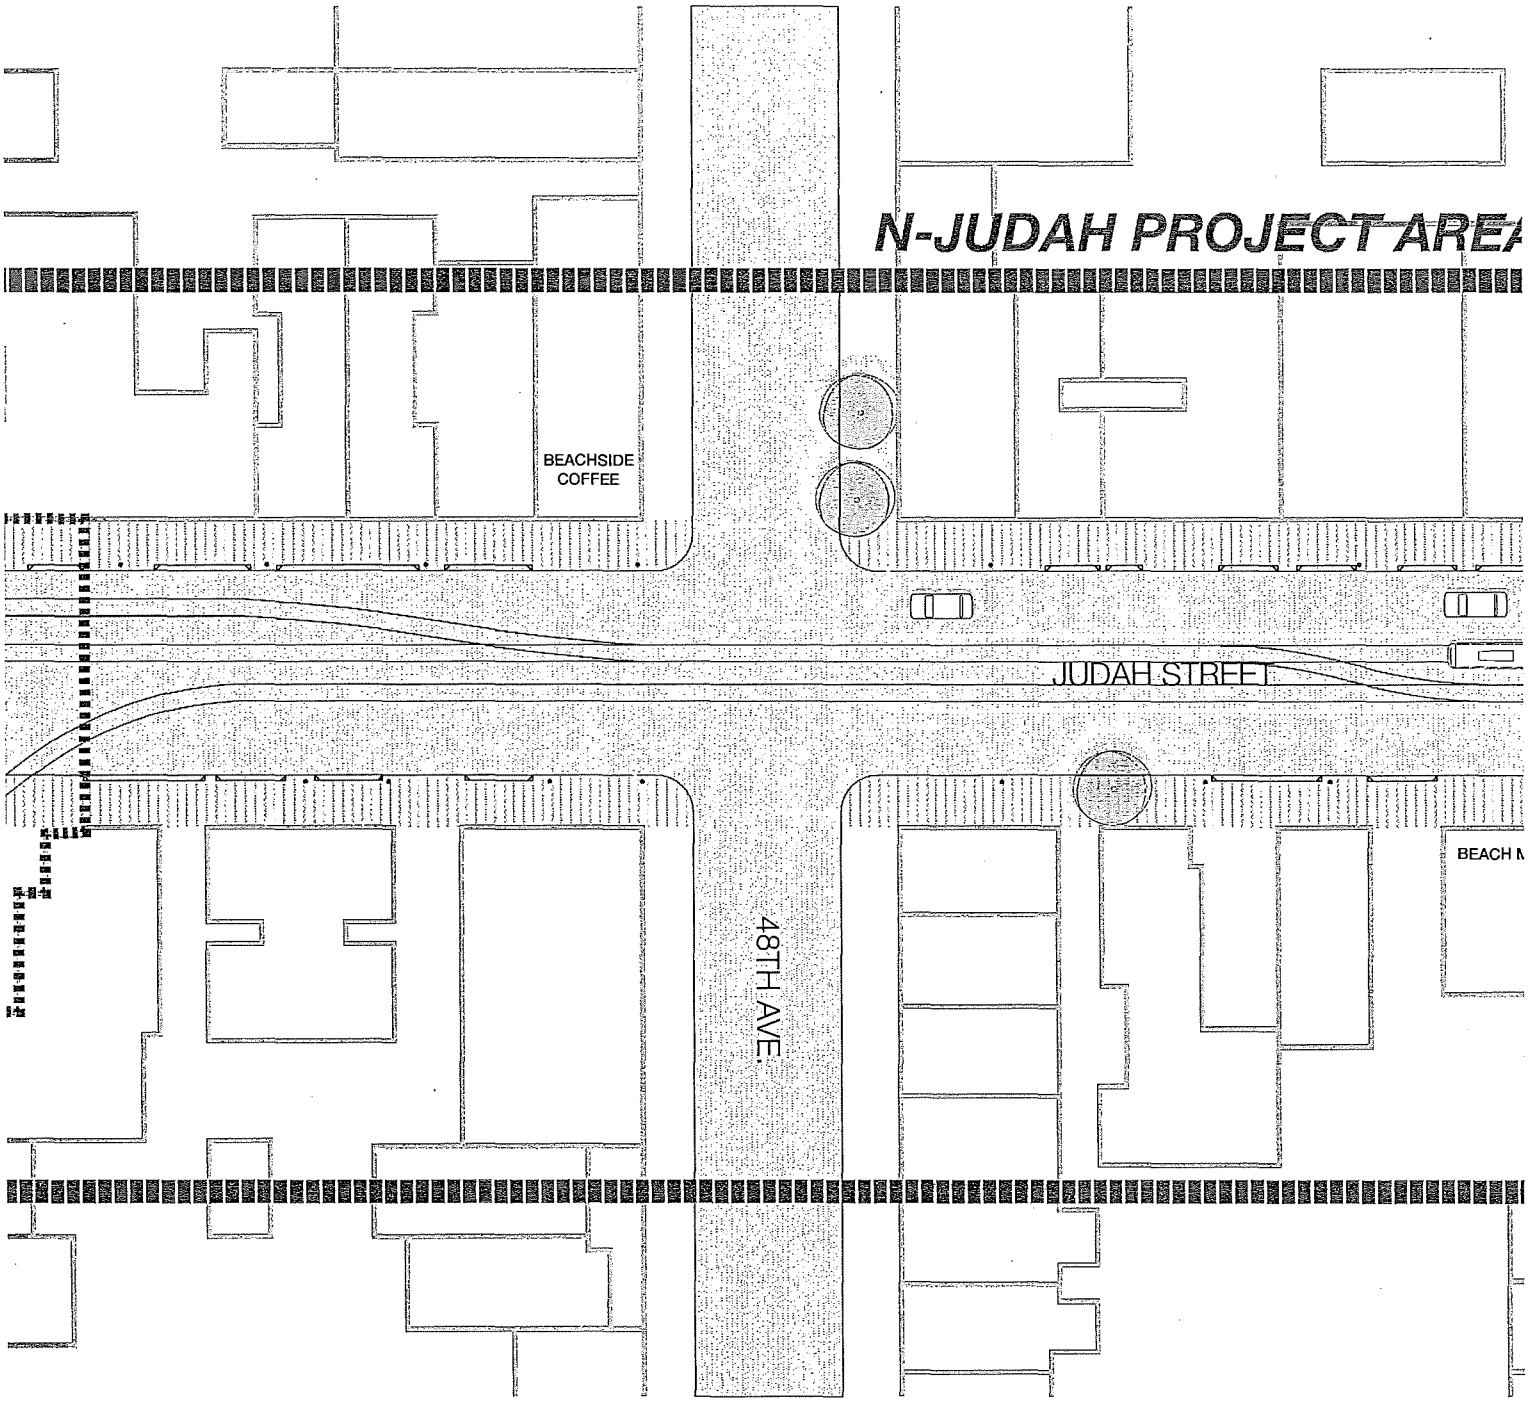

The corner of La Playa and Judah is a lively corner in the Outer Sunset district, where the N-Judah muni line meets the majestic Pacific Ocean. In recent years, local neighbors came together to create La Playa Park, a small example of the "can do" attitude that exists in this community.

During the past year, neighborhood leaders have come together once again to beautify the immediate area surrounding the N-Judah Turnaround, furthering efforts to establish the neighborhood as a distinct community in the Outer Sunset.

To the right, is a map that identifies the boundaries of the N-Judah Project area, which was the primary focus of the community workshop held last December. Also identified, is the La Playa Plaza focus area. This is the most important area for immediate short-term changes because of the Muni Turnaround and the number of street crossings.

The map illustrates some of the distinct challenges within the study area, but with a little hard work, meaningful discussion, and the "can do" attitude in the Sunset, this place can become a real neighborhood jewel.

SUMMARY DOCUMENT

At the conclusion of the Community Workshop, the *San Francisco City Hall Fellows*, in collaboration with the *Neighborhood Empowerment Network*, compiled a comprehensive progress report that cataloged and documented all of the projects and initiatives that had been put forth by residents at the community workshop. The projects and initiatives range from simple, small interventions to complex multi-year planning efforts. Several of the projects are temporary, while others are initiative-based and require City approvals and action. As a group, these projects should be taken as a collaborative effort to improve the immediate area surrounding the N-Judah Turnaround, but will also affect the neighborhood as a whole.

PROJECT THEMES

The projects and initiatives from
were organized into three theme

The Look and Feel

This addresses the aesthetics, be
hood. Most of the projects fall int
specifically on the Turnaround and

Getting Around

Mobility: Getting into, out of, and
is a good place to talk about saf
and public transportation

Things to Do and Visit

What places and activities exist,
and enrich the neighborhood. T
their houses to visit a place, com
their neighbors.

PROJECT FRAMEWORK

The *LPNG* prioritized and developed a framework that could guide them in vision, design, and implementation of the proposed neighborhood improvements. Projects and initiatives were initially categorized by potential project costs and implementation time.

The *LPNG* also grouped some of the projects and initiatives according to public policy issues and neighborhood events that could be promoted and fostered within the neighborhood. The underlying impetus in building a framework was to identify the role the *LPNG* would play in advancing the projects and initiatives in the neighborhood. Each project was assigned a role according as to who would lead, initiate, assist, and/or advocate on initiating and implementing the projects and timelines.

BEST PRACTICES AND PRECEDENT

Street life is important to building community, but a successful street life depends on a robust public realm that provides the right elements for a mix of social interactions and diverse activities. Streets and public spaces need to be visually engaging, but also foster economic growth for the community. Public spaces and streets should be designed to provide value to all users of the public realm and provide a real 'sense of place'.

This chapter is used to describe the types of projects and initiatives the *LNPG* has identified within the framework. Projects and initiatives are grouped according to the time and effort required to complete and implement, and also reference the type and scale of funding needed to complete the projects.

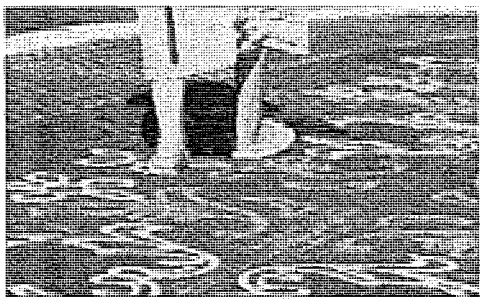

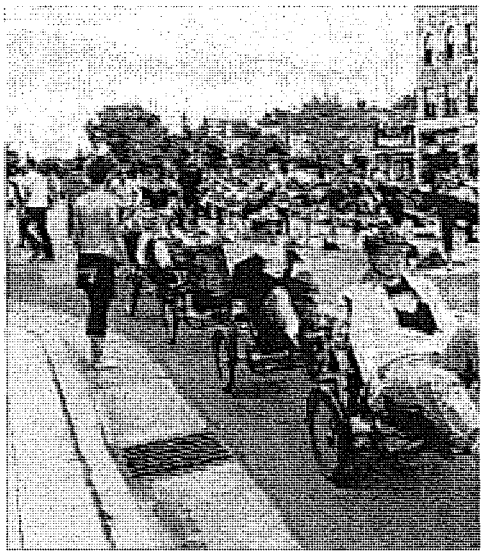

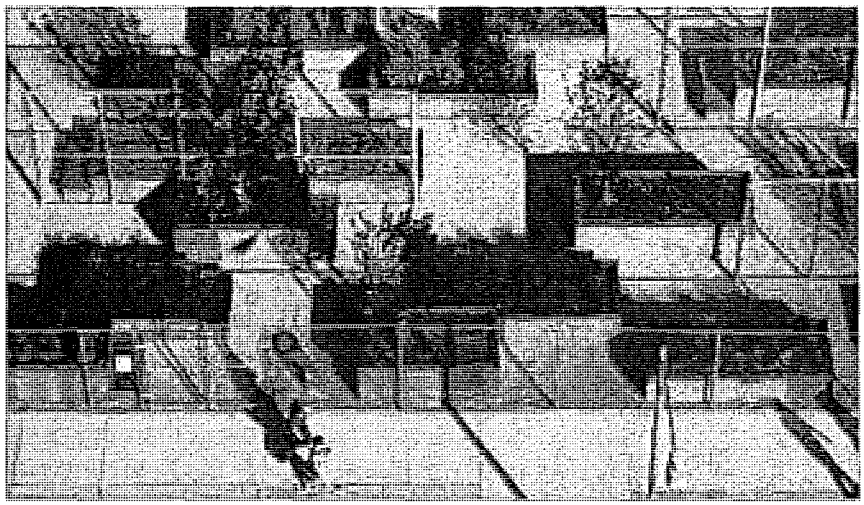

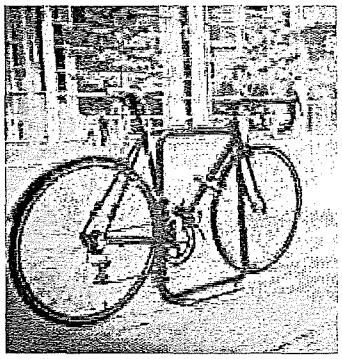

SHORT-TERM PROJECTS

Examples shown here represent a kin
implemented within 2 years time and
improvements. These projects are m
future growth in and around the N-Juc
ects help to brand the neighborhood i
momentum for the long term project g

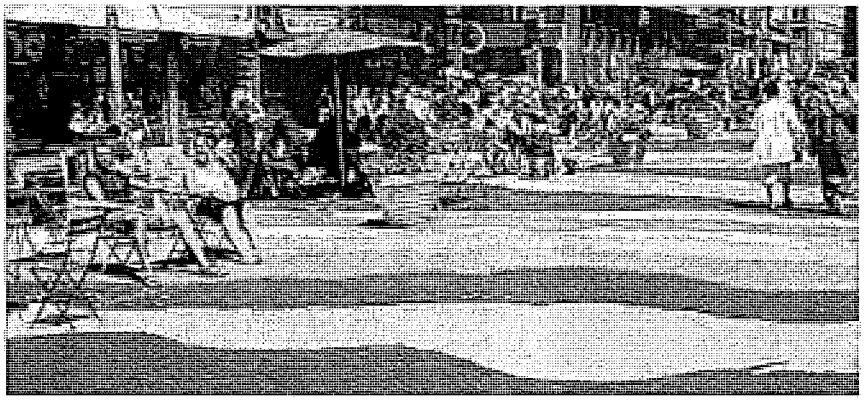

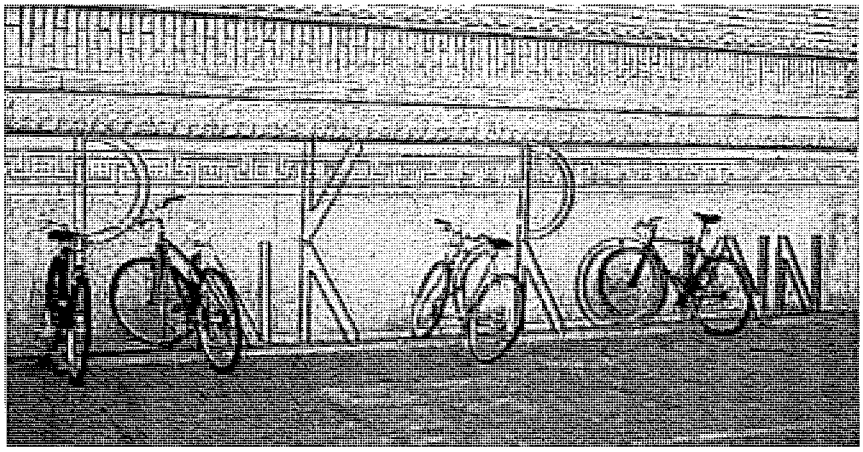

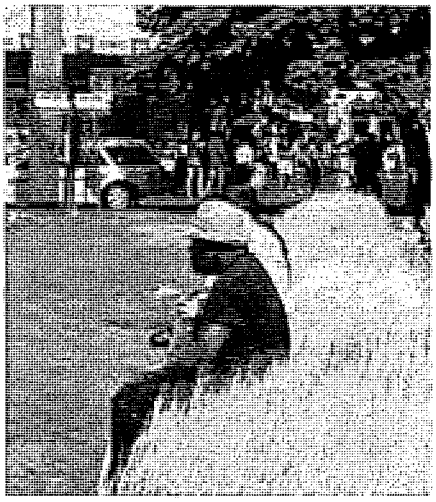

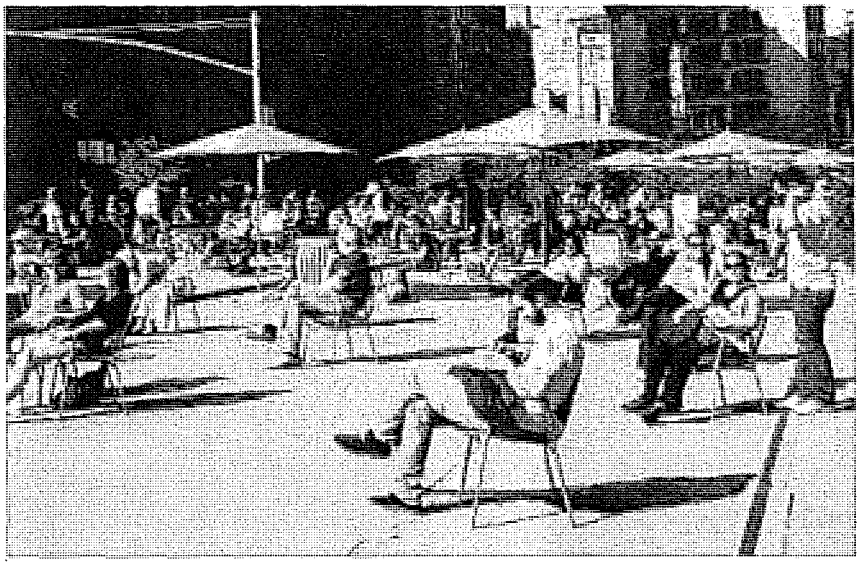

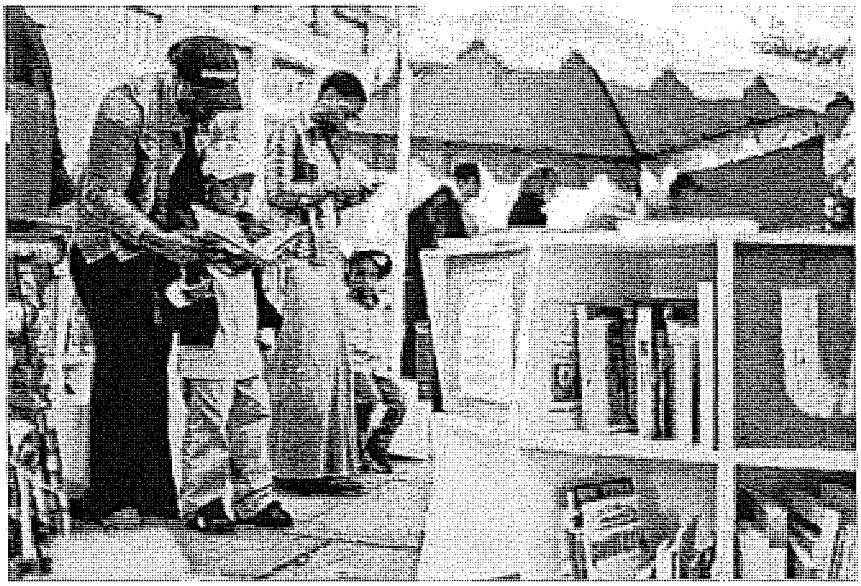

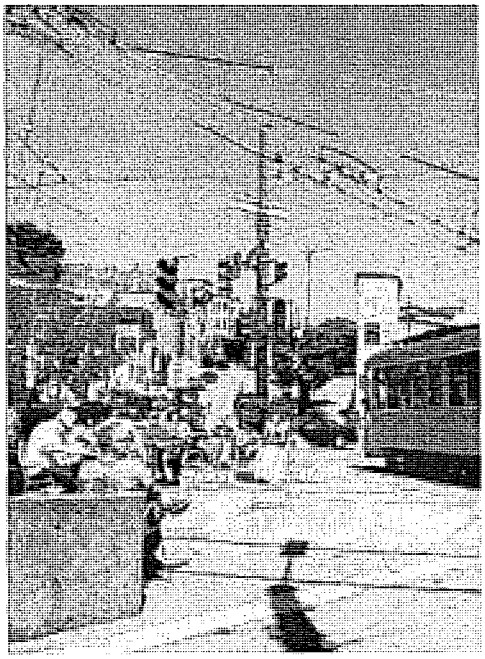

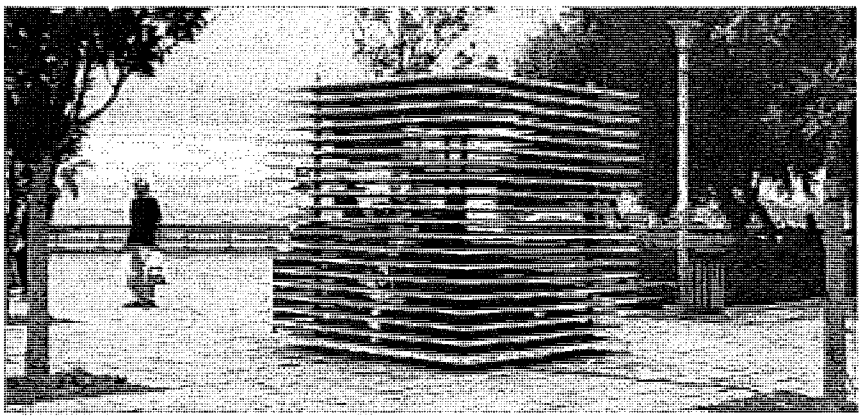

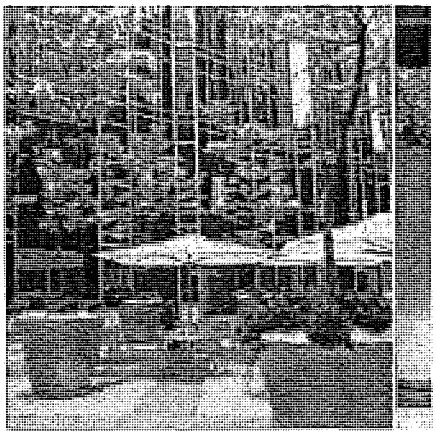

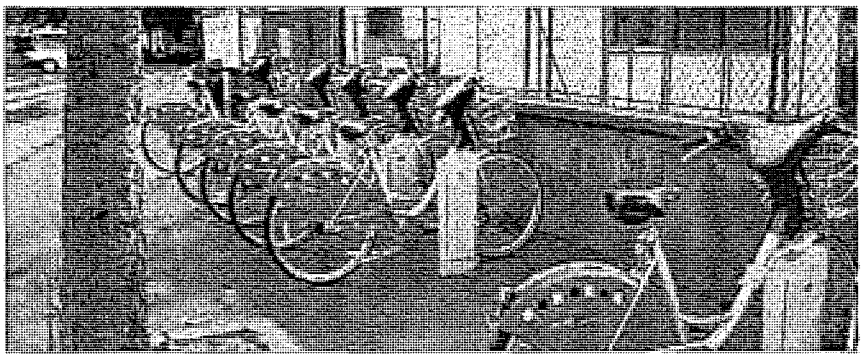

MEDIUM-TERM PROJECT

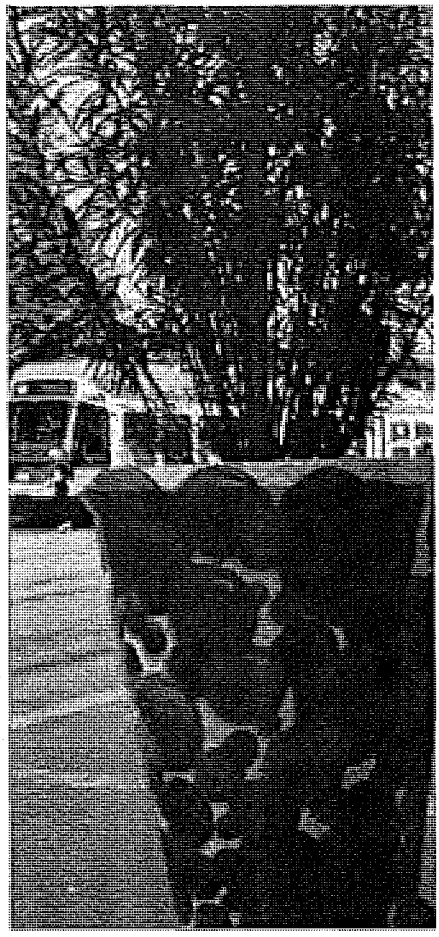

Medium term projects represent a ki
implemented within 6 years time anc
of infrastructural improvements. The
semi-permanent or permanent and s
goal of a future public plaza. These
the district and neighborhood identit
upon the gains from short-term proje

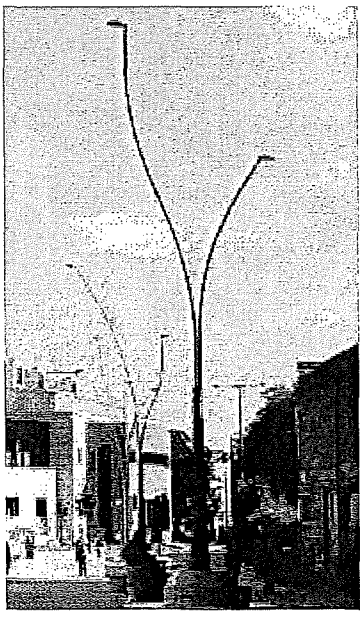

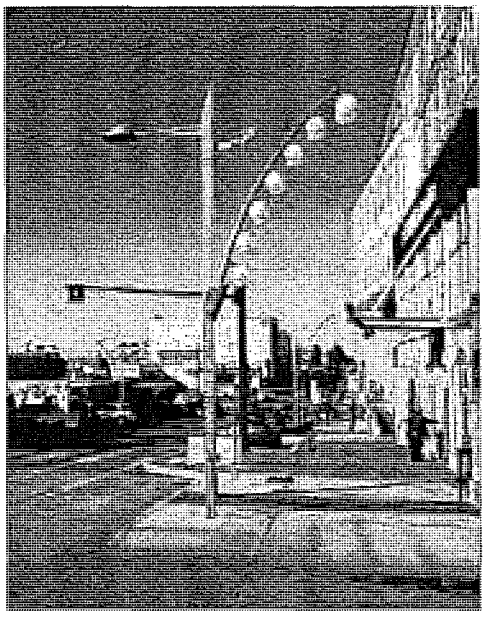

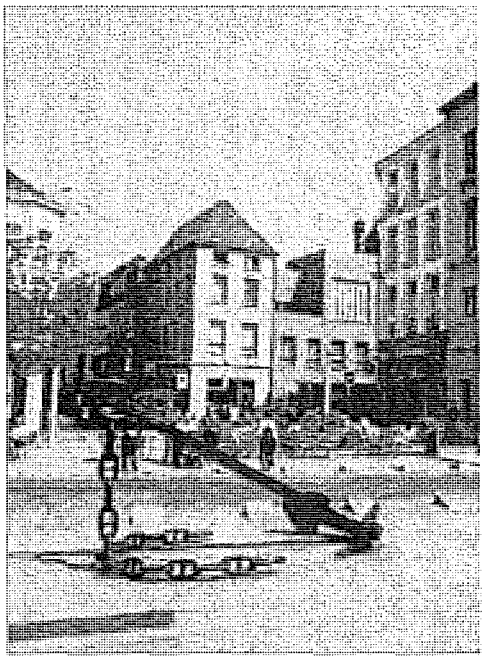

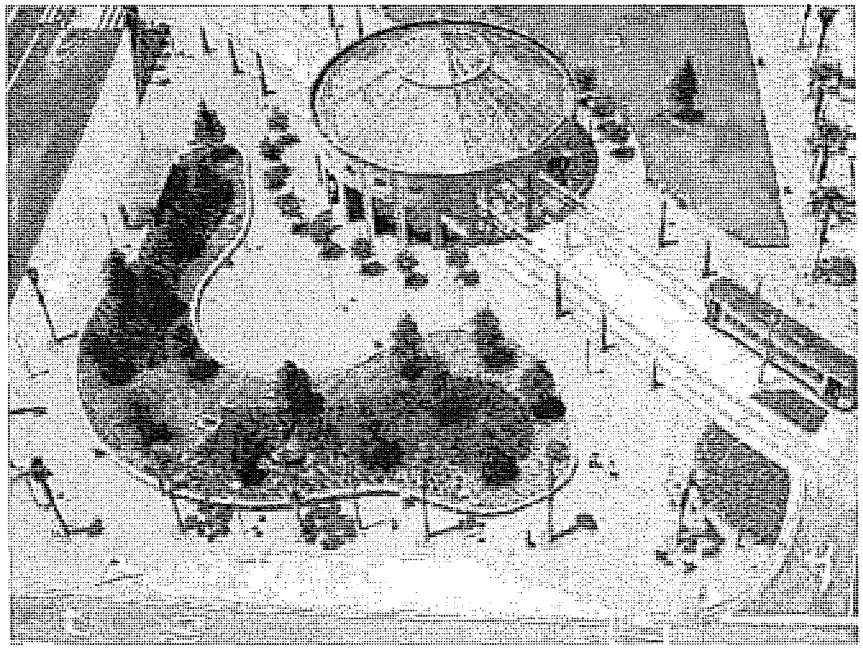

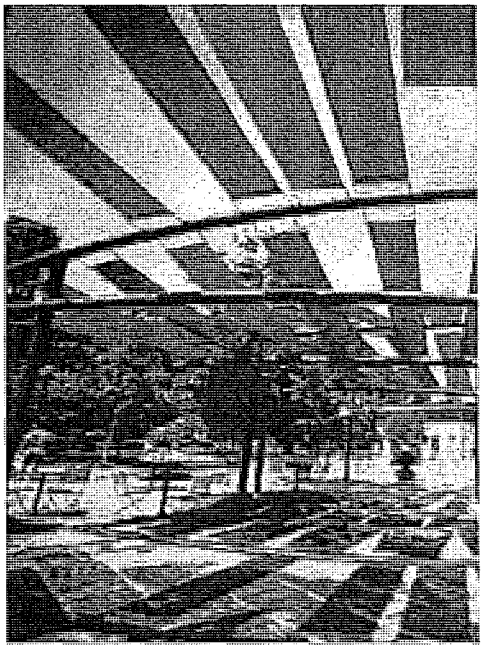

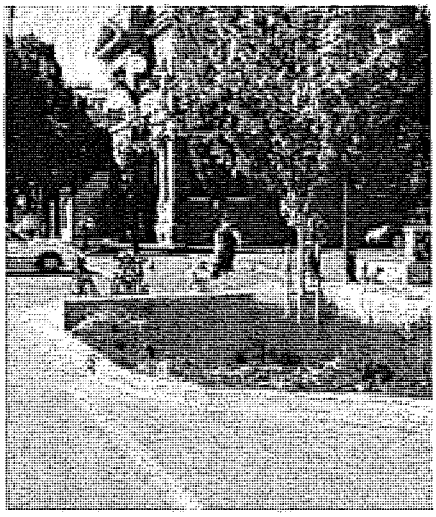

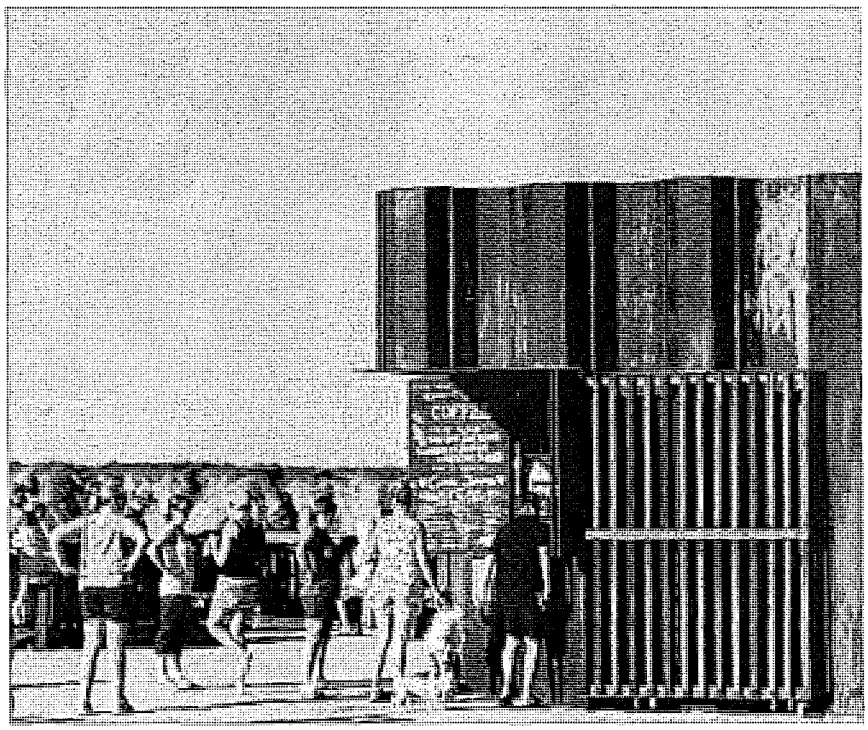

LONG-TERM PROJECTS

Long-term projects can be completed within 10 years and require an intensive planning and design effort along with concentrated coordination between multiple city and state agencies. Funding sources for these projects are usually complex and require multiple sources of capital and approvals from various local and regional agencies.

For updates, please visit:

PUBLIC WORKSHOP:

PHASE 1 OF PROJECT: COMMUNITY ENGAGEM

MARCH 22, 2014

N Judah Turnaround Beautification Project

www.njudahproject.org

SAT., MARCH 22, 2014 · 10:00 a.m.–no

Location: Corner of La Playa & Judah

Purpose:

- Learn more about our efforts to improve this corner!
- Tell us what you would like to see accomplished in the 1st phase of improvements!

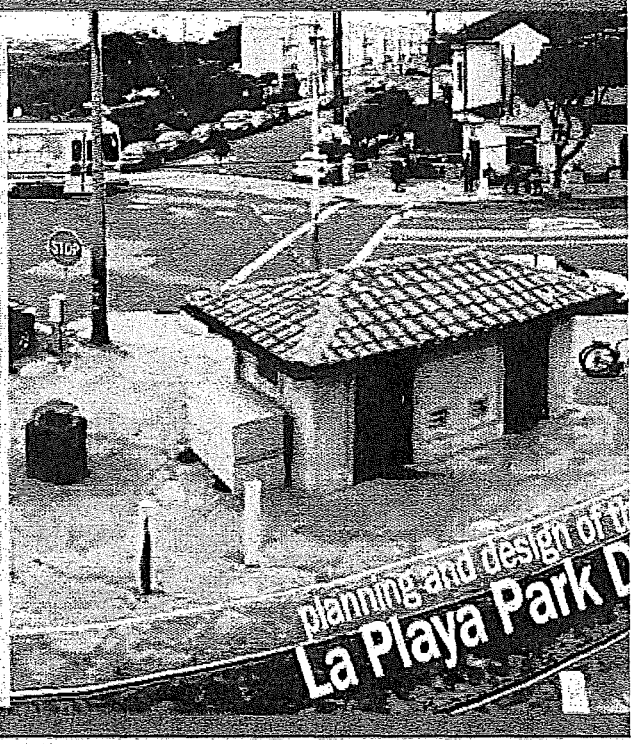

What We'll Do:

- Select image concepts that you like, discuss them, and pick your favorite!
- Concepts are the themes & community feedback from the *2012 Community-led Design Workshop*.
- **Join us anytime between 10:00 a.m. – noon! This is a drop-in workshop.**

Benefits:

- Make improvements to our neighborhood happen.
- Meet neighbors and have fun.
- Win our Raffle! Prizes donated from local artists & merchants.

For more info.:

NEXT STEPS:
STAY TUNED!

The community steering committee:

- Collaborate with volunteer landscape architects to design sit
  based on today's feedback.
- Near future (within next 3 months): Present mock-ups to comi

Next Steps

Item #	Action	Action by
1	Committee to select between strategy 1 and 2 presented 1-15-15. Purpose is to reach consensus on strategy that creates the broadest effect for the limited budget. Difference between the two strategies is that one focuses the budget on an information kiosk, and the other strategy starts with the groundscape. In both strategies the plan is to accomplish as many steps as possible (which the budget will allow) and phase the remaining steps for future grants, etc.	JG, SW, KH
2	Confirm agreement with Daniel Homsey and Ashley Summers for the City to assume responsibility for maintenance of the entire site. This would include sweeping, weed control, watering, graffitti and other similar upkeep. If the City will not assume responsibilty, does this kill the project?	JG, SW, KH
3	Focus initial separate meeting with City agencies with DPW. This is necessary because of MTA's lack of site information and the different criteria which each agency has authority over. Confirm how the DPW Sidewalk Landscaping and SIRP program will apply	TS, JG, AS, DH
4	Discuss with DPW best method for locating utilities under property. DPW may have the equipment to locate all domestic water, sewer line, electrical lines and any other utilities that may be concealed. This is due to the lack of as-built information which MTA was asked to provide.	TS, JG, AS, DH
5	Discuss with DPW the possibility removing the sidewalk adjacent to 1400 La Playa Park along the hypotenuse of the City property and for the City to assume the responsibility for maintenance of a landscape zone in its place. The park design shows the sidewalk to be replaced in an improved location and for the greater good of defining a park.	TS, JG, AS, DH
6	Discuss with DPW project delivery process: who does CD's, who does CA, who will the contractor be, etc.	TS
7	Field measure property to establish sufficiently accurate calculations of materials needed in addition to establishing property line locations which determine limits of City agency authorities.	TS
8	Create baseline drawings from field measurements.	BC
9	Meet with MTA to discuss concrete removal in area around restroom building, area adjacent to tracks, and area adjacent to handicapped ramp. The objective of the park design is to maximize permeability which is a City goal. Since MTA has authority over these previously mentioned zones, it is our hope that both Daniel Homsey and Ashley Summers can assert their influence to assist in convincing MTA to remove as much concrete as possible.	TS, JG, AS, DH
10	Plan steps beyond as informed by the above	

Key to Initials

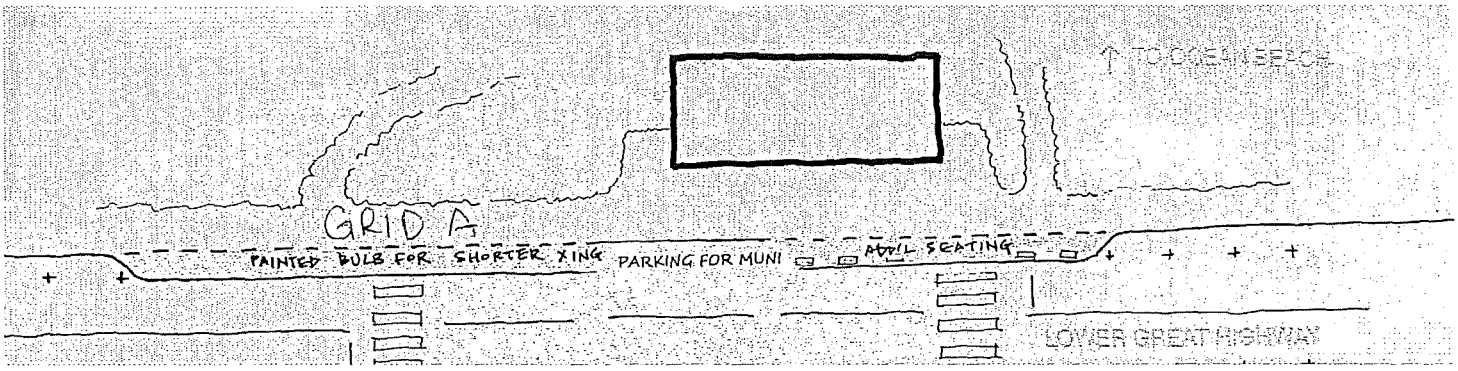

JG- Jen Gasang; SW,- Steve Ward; KH- Kathy Howard; TS- Thomas Soper AIA; BC- Brennan Cox; AS- Ashley Summers; DH- Daniel Homsey:

Notes

Steps should occur in the order shown unless otherwise agreed upon

La Playa Park Steering Committee:
Feedback Regarding Conception Short-Term Design #1 (1.18.17)

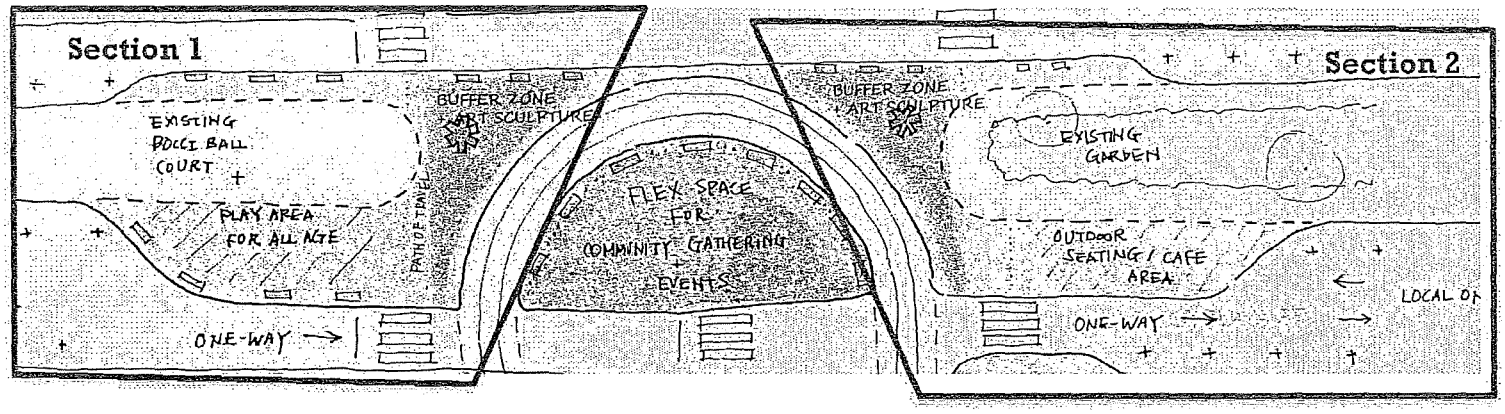

GRID A

Comments:

- Remove "additional seating" (puts back 4 parking spots)
- Keep designated parking for MUNI
- Remove "painted bulb" for shorter xing" (puts back 2 parking spots)
- Use "artwork" to tie in this area into the project e.g. mosaic staircase, painted crosswalks

GRID B

Section 1

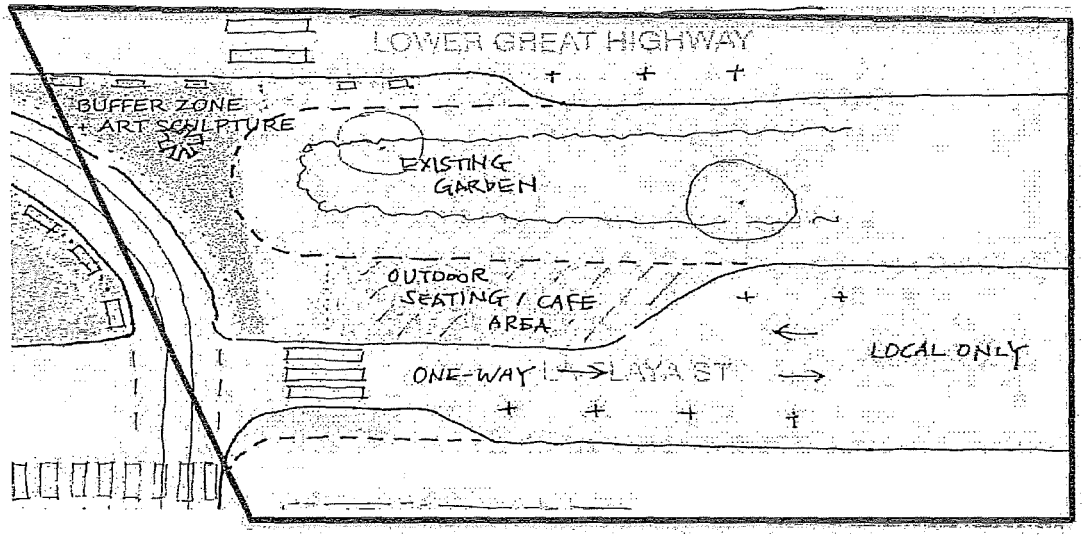

Comments:

- Like the idea of having one way direction
- Possibility of incorporating into design – designated area where there can be a wooden garden shed (keep supplies) / potential to for multi-purpose use (in buffer zone)
- Design comment: in buffer/art zone – incorporate flag pole.

Clarifying question:

- Please confirm, with the existing design there will be a loss of 10 parking spots

GRID B

Section 2

Comments:

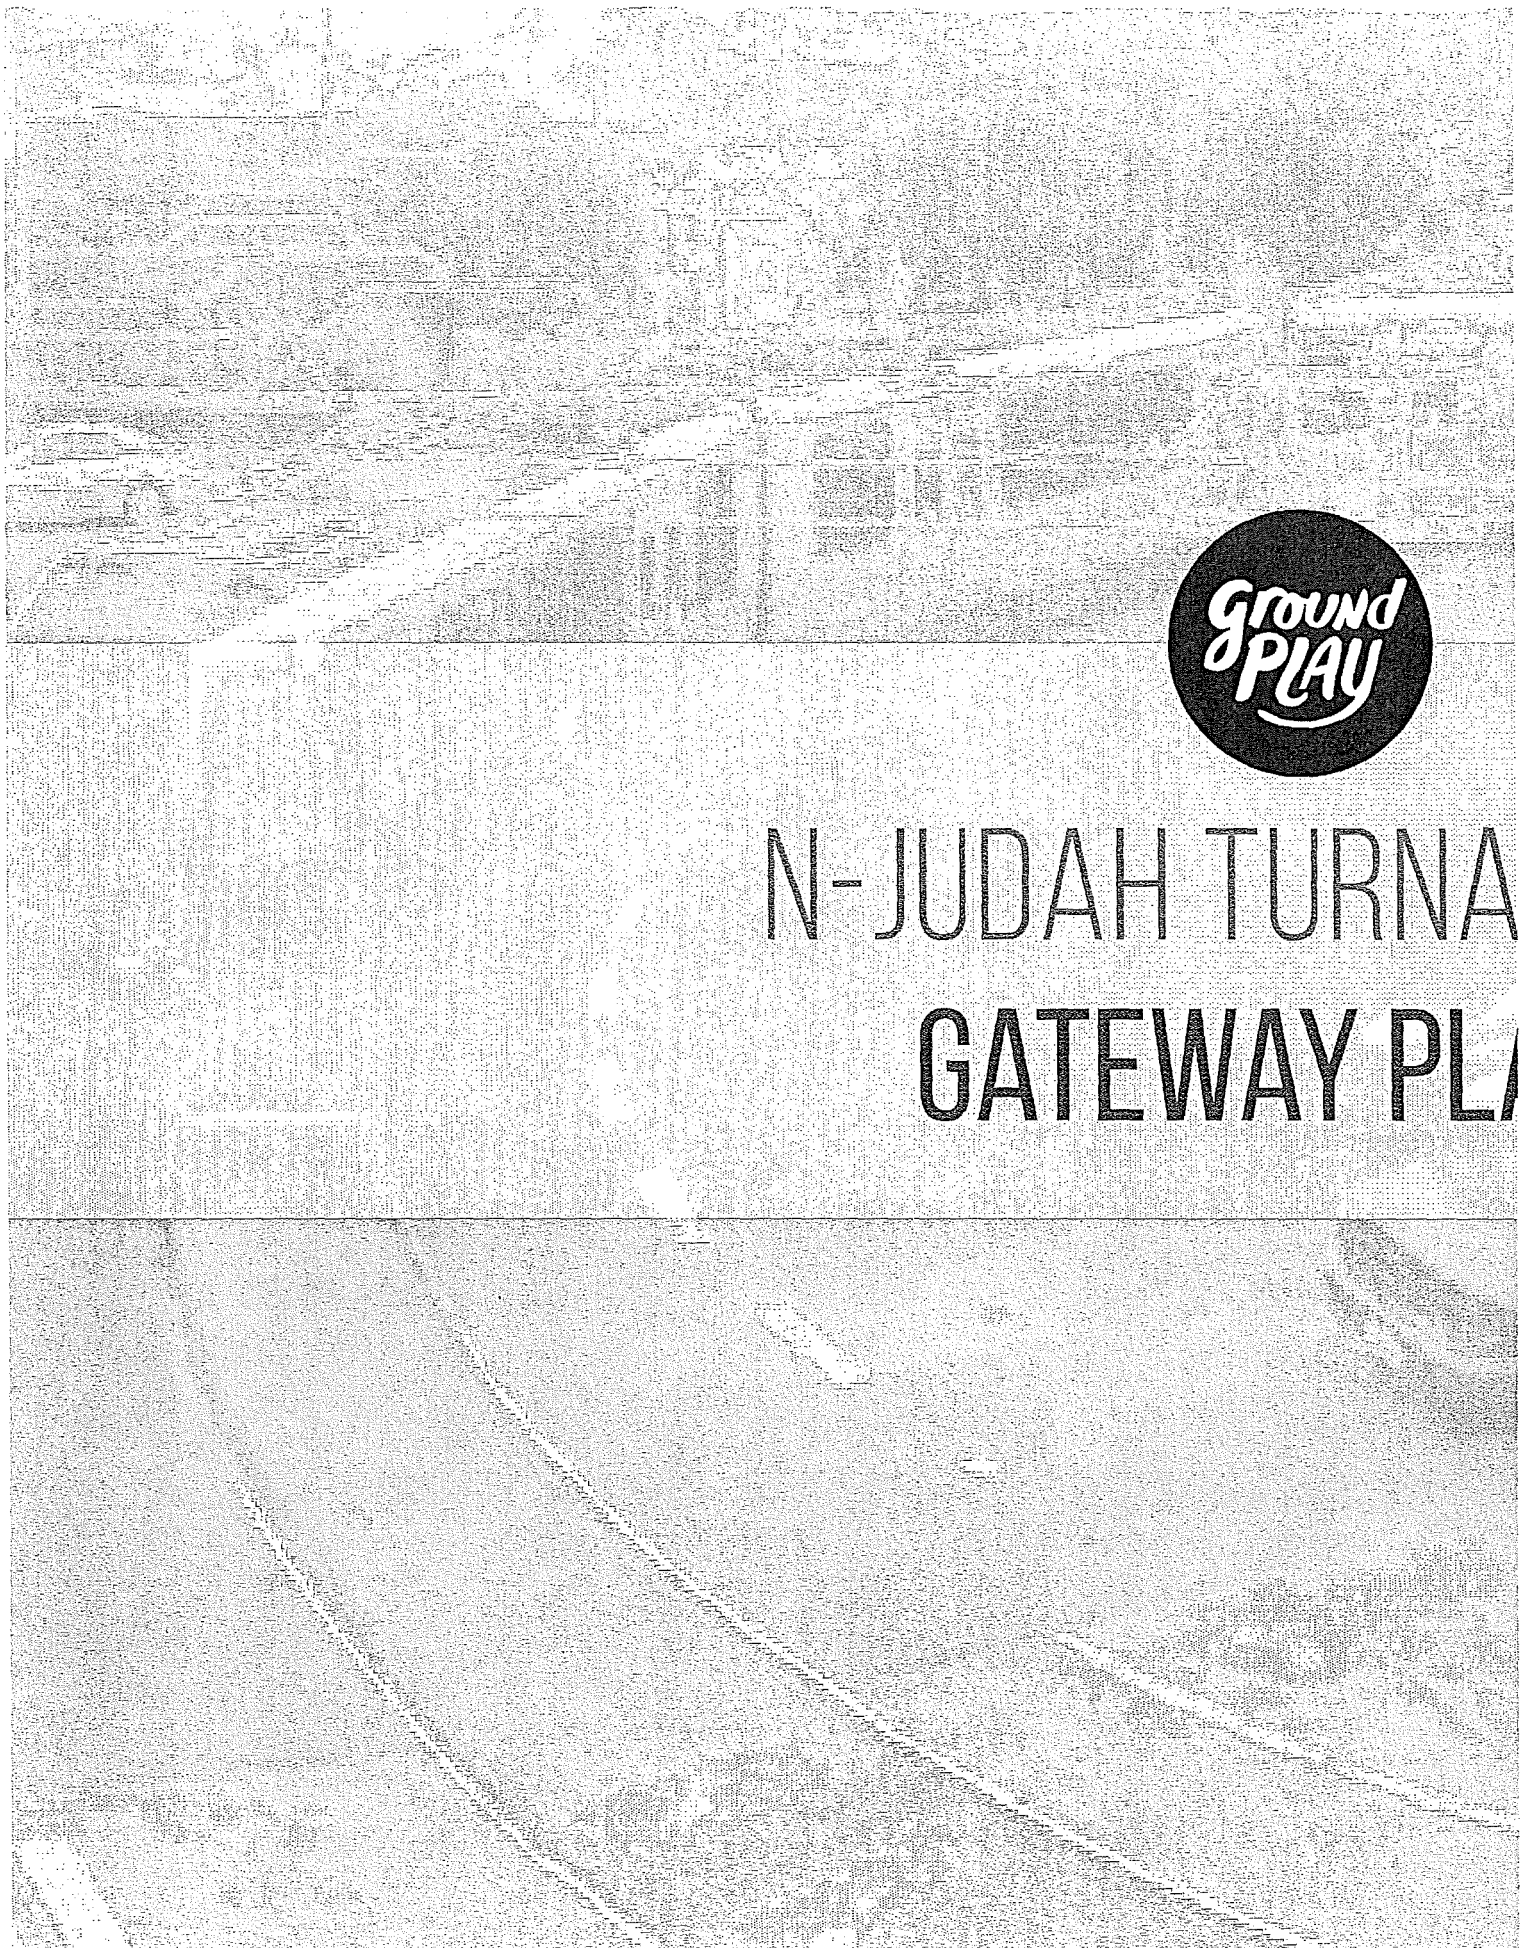

- Keep the space immediately in front of Java Beach as green zone
- Like the outdoor seating /café concept / extension of existing garden
- Add water line to be able to have sprinklers/hose
- Where can we potentially add yellow zone re: delivery trucks

Clarifying questions:

- Please confirm that with the outdoor seating /café concept, there will be a loss of 2 parking spots.

Additional Comments:

- Please provide a working timeline with target dates, so that we can give proper feedback as well as ensure we are able to get feedback from community members which would be most affected by the design concept (neighbors immediately surrounding the area of design).
- Want to ensure that the "design" components e.g. materials, type of barriers, etc... is and will fit with the current neighborhood aesthetic. Use local artists that live in the Outer Sunset. What is the process? Timeline? Bidding process?

Date:	Friday, April 21, 2017 4:57:21 PM
Attachments:	sketch rendering 04212017-01.png

Hello team,
I wanted to explain the design change on the phone, but we couldn't find the time that works for everyone. I talked to Buffy this afternoon and just had a call with Steve. I've attached a quick sketch of what we would present at the open house. The change, compared to the previous proposal, is that La Playa Street north of Judah, in front of Java Beach, will remain as a 2-way traffic street. Initially we proposed one-way, but MTA thinks 2-way is a safer approach because of the following reasons:

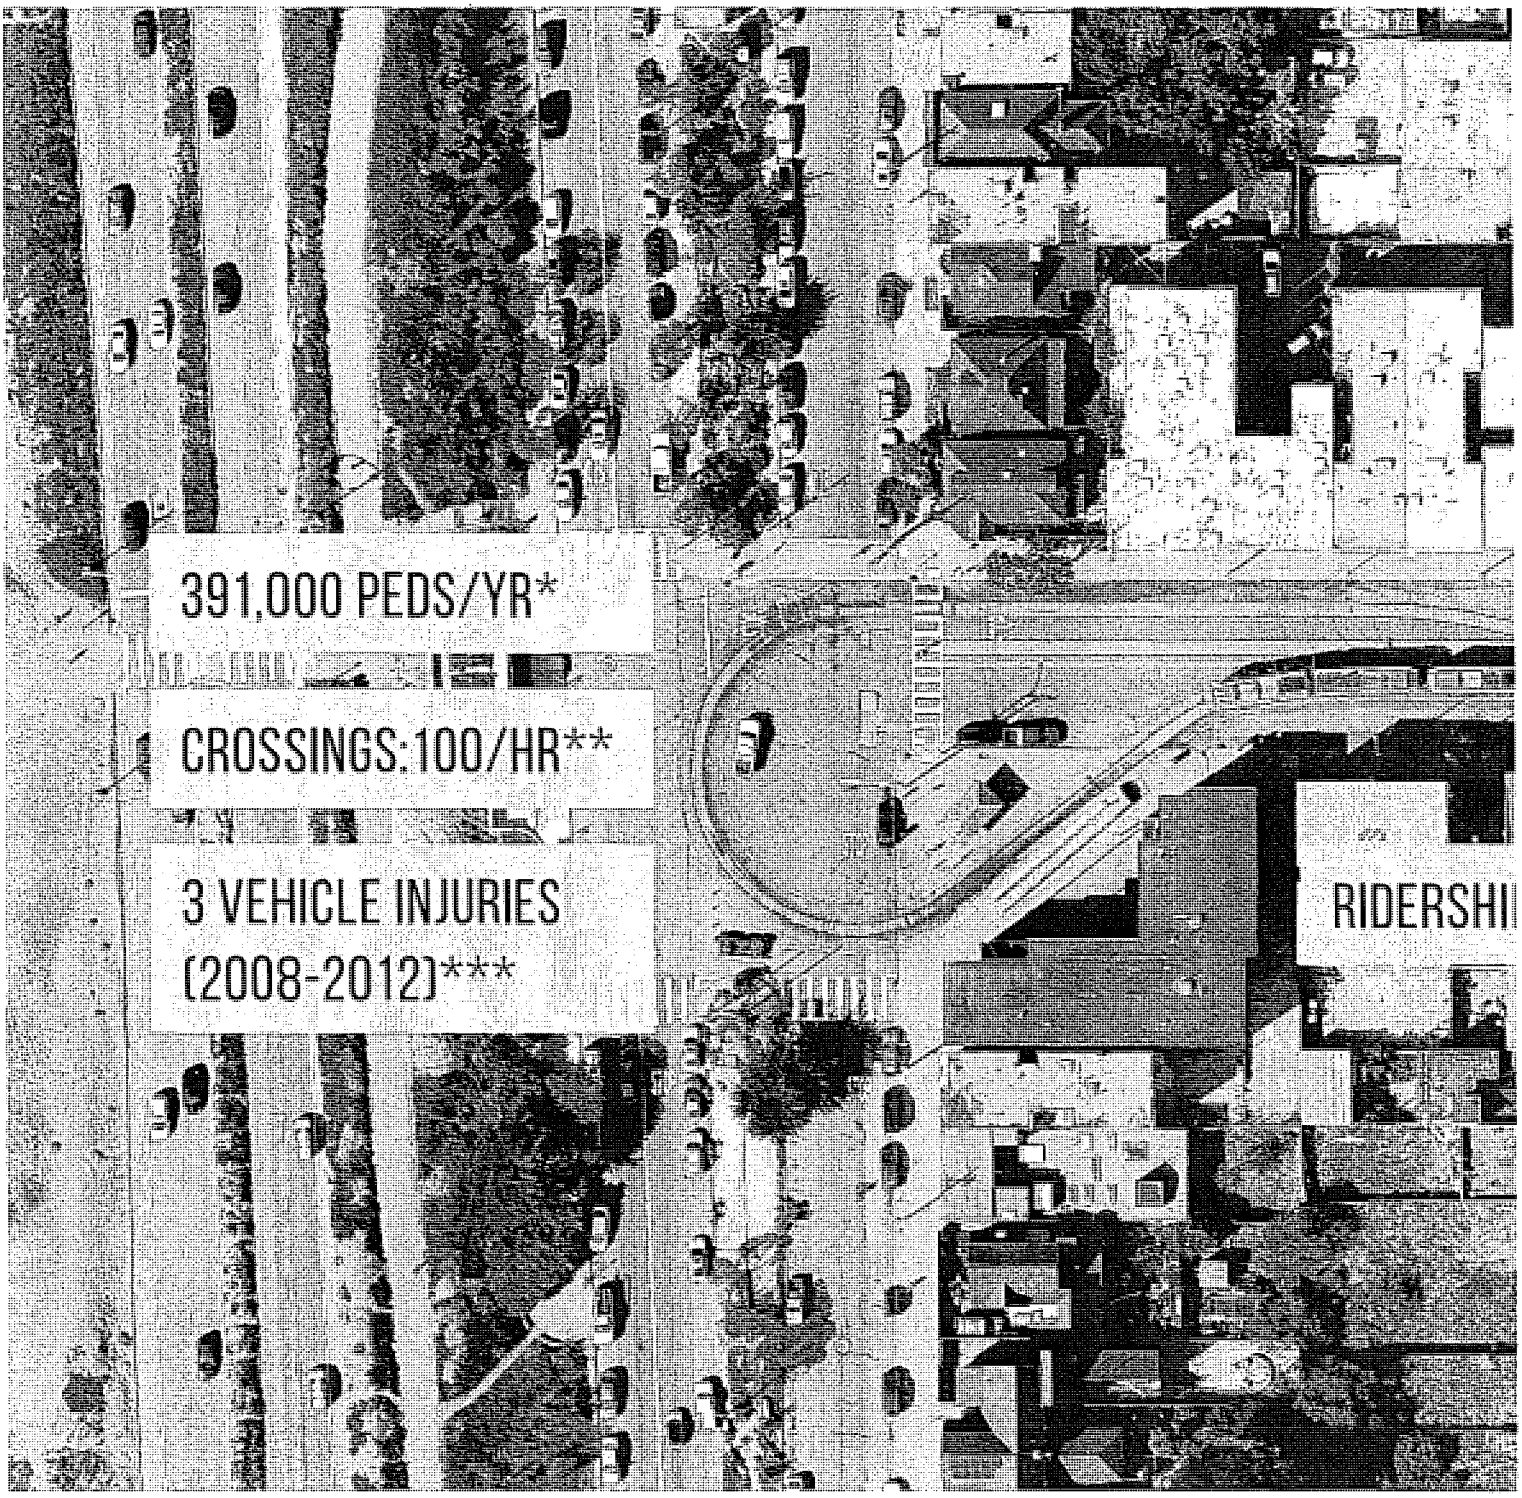

- Keeping it two-way will help traffic flow. In the previous design, southbound traffic on La Playa would have had to turn around before getting to Java Beach. The forced U-turn movement requires a cul-de-sac like design, losing additional 4 parking spaces.
- Southbound La Playa traffic volumes are really low based on our counts. Once people learned that they were forced turn left, thru-traffic on La Playa would decrease. The intersection would be less clustered with this design.
- We will provide new striping, pavement signage and warning signs to ensure all southbound drivers know that they are forced to turn left onto Judah.
- 12-foot wide bulbout space next to the La Playa Park North could have a nice planter buffer to make it a more inviting place for pedestrians.
- Parallel parking on La Playa: We will keep working with MTA to add parking on other streets, like 48th Ave. (total parking loss is 10)

Buffy and I will talk again on Monday or Tuesday to discuss further to strategize what to present at the open house. Please let Buffy know if you want to join the discussion.

Feel free to call or email me if you have any questions about the proposal.

Thank you,
Seung Yen

SHORT-TERM DESIGN

- Replacing the southbound lane at the La Playa Park and Judah Street intersection with temporary plaza space
- Providing temporary demarcation, such as painting and planter boxes, on existing asphalt pavement to delineate pedestrian public space
- Placing barriers around the Muni tracks for increased pedestrian safety
- Installing parklets and outdoor seating where possible (this will require removal of some onstreet parking spaces)
- Installing gateway signage and interpretive signs at specific locations
- Providing an art installation as feasible (location TBD)

Date:	Thursday, August 17, 2017 10:44:28 AM

Hi all,

Wanted to let you know that we have set up a meeting with the property manager (Jeff Jurow) for the parcel that contains the park directly across from Java Beach Café.

September 13 (Wednesday) @ 9:00am
Meet at Java Beach Café

Jeff has committed to not installing a fence until he has a chance to speak with neighbors. In the meantime, he is trying to take other steps to provide SFPD with more enforcement authority.

The goal of the meeting is to have Jeff get to know all of you, all of the work that you put into maintaining the parklet, the safety issues, and what you'd like to see happen short/long-term.

I hope you can attend the meeting. And if not, we're happy to circle back with you on this.

Hi Ashley,
Thanks for taking the time to talk this morning. [redacted]

Below is my email exchange with Marcus as I looked everywhere for the flyers. I heard plural yesterday but in email he said he posted one on the bulletin board--which no one has seen.

More importantly, I asked who was responsible to provide me with a copy of the proposals? Who is? He was very quick with the replies until I asked that. Now there has been no response. Do you know who needed to provide me with that information? Who provided everyone else with their copies of the proposals?

Thank you,

Buffy Maguire

Hi Katy and Ashley,
I hope this finds you well. Katy, Ashley and I spoke about various grants for us opening our Wawona space. Permit has been in since July, but it will be a pricey endeavor and any and all help would be fantastic.

I read about SF Shines in a e-newletter I receive and I reached out to Darcy Bender, who was extremely helpful. Attached is our application which was turned in March 31 (deadline date).

Ashley, I thought you might want to know that we did apply.

Thank you,
Buffy
P.S. great night on Monday, thank you!

Buffy Maguire

Good afternoon Darcy,

Please find attached the necessary supporting documents for-

SF SHINES FACADE AND TENANT IMPROVEMENT PROGRAM APPLICATION.

Documents attached-

- Completed application
- Separate document of supporting answers
- Executive Summary
- Copy of the Workers Comp policy
- Commercial General Liability
- Business Auto Insurance
- Cost Estimate
- Exterior Elicitation
- Business Registration certificate

Please let me know if you require any other information.

Thank you

Oonagh Moore

Date: Wednesday, June 21, 2017 3:47:00 PM

Hi Buffy!

We are piloting a great program with Surfrider in partnership with Public Works. We are installing cigarette butt ash cans in the Sunset and Richmond districts, and will be doing a 6-month pilot where the City actually empties the ash cans. We will be announcing the pilot on Friday 6/30 at Stairwell 17 at Ocean Beach. I am wondering if you would be able to bring the Lady Falcon truck by to make the press event even better! Following the press conference at 10:15, there will be a big butt pickup on Ocean Beach for a couple of hours with a lot of volunteers who will need some caffeine!

Let me know if the truck is available. Thanks Buffy!

Hi Buffy,

I found out the two businesses that will receive the grants are White Cap (opening on Outer Taraval) and Henry's House of Coffee.

Hi Buffy,

I do not know who won the bids – but Ashley can find out if you're curious.

Just so you know, I contacted OEWD about allowing ALL of our District 4 businesses to qualify for the façade improvement funding because our office set the funding aside to benefit all of our merchants – not just those on the Invest in Neighborhoods corridor. I haven't heard back from them yet, but I know you were on their list of those who inquired but "did not qualify."

Subject: Re: Grant Application

Thank you, Katy. Darcy suggested a different grant that I will follow up with when I return from my break. Darcy also said that we lost solely based on our location (I.e. not "Outer Taraval" and not "Outer Noriega"). This was frustrating since I queried her about this prior to engaging in long process. She told me initially my location would not be an issue.

Will it be a matter of public record who won? Do you know who won?

Thank you so much!

Hi Buffy,

Thanks for your email.

Unfortunately, after reviewing your application, we will not be moving forward with an SF Shines grant at this time. We currently have limited funding in this neighborhood and received several applications that better fit the goals of our program because of their location on prioritized commercial corridors.

We may have more funding available in a few months, so feel free to reach out if your business is still interested in making physical improvements this summer.

Until then, here are some programs that might be of assistance in opening your business:

- Outer Sunset Minor Façade Improvement Program – this is a smaller scale version of SF Shines for small businesses in the Outer Sunset. I have attached the application form for that program which is run by Lily Lo at Northeast Community Federal Credit Union.

- Main Street Launch – offers low-interest loans to small businesses. http://www.mainstreetlaunch.org/san-francisco-launch/

- Open in SF – offers case management and technical assistance in navigating the permitting process for food-based businesses. http://oewd.org/open

Thank you for your thoughtful application and dedication to serving San Francisco residents. Please feel free to reach out if you have any questions.

Best,
Darcy

Hi Darcy,
Thank you so much for the opportunity to apply for this grant-- we are grateful! I look forward to answering your questions when you have them. As a note, I will be on vacation from April 10pm to April 17th. Ideally, I would prefer to answer questions before and after this time frame, but, of course, if something is pressing please contact me and I will do my best to respond in a timely manner.

Thank you,
Buffy Maguire

Hi Ashley and Seung Yen,
Hope you are both having a nice day.

I meant to ask you about the Green Zone in front of Java Beach. It is up for a renewal fee (which has gone up really high over the past years to around $1100.00 per year) and I am asking if maybe the City might waive the fee since it is possible the corner will be configured. It is one of those fees that used to be very inexpensive and now it is quite high. Is this request to waive feasible?

Thank you,
Buffy

Date:	Friday, August 18, 2017 9:20:57 AM

Hi Emily -

Director Jeff Kositsky of the Homeless Department informed me that he was going to re-assign two homeless outreach workers to the area given that it would take until November to hire new people for the Sunset. I don't know exact timeline for the re-assignment, but I will ask Ray from my office to find out from him. Ray handles homeless issues and Ashley handles La Playa Park issues - so it's good to include both on these emails. Thanks!

On Aug 18, 2017, at 7:48 AM, Emily S. LaTourrette <[redacted]> wrote:

Thanks, Katy. Dean or I will do our best to be there; I have to work, but I may try to get coverage. This sounds like a great approach and we all appreciate this meeting happening.

What I want to emphasize, again, is that the "in the meantime" is a big deal. It's been awful in the park the past months and it's getting worse. Yesterday one guy chased another guy down the street, there's on off leash pit bull now hanging out in the park, and this morning it's not even 8 a.m. and the crew is out there drinking. September 13 is a ways off, so please let us know how and what is being done in the meantime.

Emily

The goal of the meeting is to have Jeff get to know all of you, all of the work that you put into maintaining the parklet, the safety issues, and what you'd like to see happen short/long-term.

I hope you can attend the meeting. And if not, we're happy to circle back with you on this.

Subject: Re: SF Travel Event with Outer Judah/Irving Businesses
Date: Monday, August 07, 2017 9:22:11 AM

Hi Ashley and Erin,
Thank you! Ideally, I would like both Java Beach and Beachside to participate since they are two different businesses on Judah St, but Beachside closes at 4pm so I guess that won't work? We could extend our hours that day and pull the Lady Falcon truck in front of Beachside and serve our coffee samples out of it? Beachside serves Lady Falcon coffee so this would be kind of cool for us, what do you think?

At Java Beach, we will serve bite sized options of our almost world famous sub sandwiches.

I have cc'd Oonagh, who will get you our high logos. She will send you Java Beach, Beachside and Lady Falcon (if you give us the green light). I have cc'd Kenia and Donna, Java Beach management on La Playa and Judah and Briana, Chelsea and Kaly from Beachside and Lady Falcon respectively.

Thank you very much,
Buffy

> Dear Outer Judah/Irving businesses,
>
> Thank you for agreeing to participate in our September event with San Francisco travel. Our goal is to showcase what we have to offer tourists to San Francisco in the Outer Sunset, and there will be between 30-50 visitors to your business on **September 20th (4:30pm - 6:00pm)**. These individuals work in the travel/hospitality industry and have face-to-face contact with tourists on a daily basis.
>
> Guests to the event will travel between businesses for the 1.5 hour "passport" portion of the event. You should expect small groups of people to arrive over that period who will stay about 5-10 minutes. During that time, please explain a little about your business (history,

fun facts, unique offerings) and if you are able, please offer them something to take (a bite of a food item, a bookmark, a schedule of events, a giveaway - it does not have to be expensive!) that will leave an impression. At about 6:30pm, the guests will head back to 3 Fish Studios for an after party (thank you Annie & Eric!). You should feel free to join the after party if you are able!

SF Travel is going to be sending out a Save-the-date and will also be developing a passport for event guests (an example of the passport from their Valencia event is attached). They would like to send out the passport in the next two weeks.

By Friday August 11th, please send us a one-sentence description of what you will offer passport visitors (use Valencia passport as an example) and a high-resolution copy of your logo for the passport. But the sooner the better! As I will be out of the office, please reply-all to this email so that Erin Rheinschild of SF Travel receives all of your responses.

If you have any questions or if you can no longer participate, please let me know at your earliest convenience. Thank you!

As an FYI, here are the businesses I have participating. If any of your neighbors are interested, please let me know. I did reach out to most businesses on Judah and Irving west of 40th Ave.

3 Fish Studios – 4541 Irving St. (meeting place)
Hook Fish Co – 4542 Irving St.
Avenues Dry Goods – 4120 Irving St.
Outerlands – 4001 Judah St.
Judahlicious – 3906 Judah St.
Beachside and/or Java Beach – 4300 Judah St. / 1396 La Playa St.
Blackbird Books – 4033 Judah St.

Subject:	Reminder: Meeting this Wednesday, 9/13 @ 9am @ Java Beach
Date:	Monday, September 11, 2017 9:36:34 AM

Hello Everyone,

This is a reminder that we have a meeting set with Jeff Jurow, property manager for the building & median in front of Java Beach this Wednesday morning at 9am – meeting at Java Beach Café.

Buffy – I totally understand if you can no longer make this meeting. If you cannot come, we will set up another time for you to meet Jeff, and we can keep you in the loop about everything.

Everyone else – please let me know if you are still confirmed.

Thank you!
Katy

Subject:	SF Travel Event with Outer Judah/Irving Businesses
Date:	Friday, August 04, 2017 10:24:21 PM
Attachments:	Passport_Mission.pdf

Dear Outer Judah/Irving businesses,

Thank you for agreeing to participate in our September event with San Francisco travel. Our goal is to showcase what we have to offer tourists to San Francisco in the Outer Sunset, and there will be between 30-50 visitors to your business on **September 20th (4:30pm - 6:00pm)**. These individuals work in the travel/hospitality industry and have face-to-face contact with tourists on a daily basis.

Guests to the event will travel between businesses for the 1.5 hour "passport" portion of the event. You should expect small groups of people to arrive over that period who will stay about 5-10 minutes. During that time, please explain a little about your business (history, fun facts, unique offerings) and if you are able, please offer them something to take (a bite of a food item, a bookmark, a schedule of events, a giveaway - it does not have to be expensive!) that will leave an impression. At about 6:30pm, the guests will head back to 3 Fish Studios for an after party (thank you Annie & Eric!). You should feel free to join the after party if you are able!

SF Travel is going to be sending out a Save-the-date and will also be developing a passport for event guests (an example of the passport from their Valencia event is attached). They would like to send out the passport in the next two weeks.

By Friday August 11th, please send us a one-sentence description of what you will offer passport visitors (use Valencia passport as an example) and a high-resolution copy of your logo for the passport. But the sooner the better! As I will be out of the office, please reply-all to this email so that Erin Rheinschild of SF Travel receives all of your responses.

If you have any questions or if you can no longer participate, please let me know at your earliest convenience. Thank you!

As an FYI, here are the businesses I have participating. If any of your neighbors are interested, please let me know. I did reach out to most businesses on Judah and Irving west of 40th Ave.

3 Fish Studios – 4541 Irving St. (meeting place)
Hook Fish Co – 4542 Irving St.
Avenues Dry Goods – 4120 Irving St.

Outerlands – 4001 Judah St.
Judahlicious – 3906 Judah St.
Beachside and/or Java Beach – 4300 Judah St. / 1396 La Playa St.
Blackbird Books – 4033 Judah St.

MEMORANDUM

TO: Sunshine Ordinance Task Force

FROM: Nicholas Colla
Deputy City Attorney

DATE: January 18, 2018

RE: Complaint No. 17122 – La Playa Park Neighborhood Association v. Supervisor Katy Tang

COMPLAINT

Complainant La Playa Park Neighborhood Association ("Complainant") alleges the San Francisco Board of Supervisors ("BOS") member Katy Tang ("Supe. Tang") violated public records laws by failing to timely/adequately respond to its July 1, 2017 request for public records.

COMPLAINANT FILES COMPLAINT

On November 11, 2017, Complainant filed this complaint with the Task Force alleging that Supe. Tang failed to timely/adequately respond to its public records request.

JURISDICTION

Supe Tang is a member of the BOS, a City policy body subject to the provisions of the Sunshine Ordinance governing public records. Supe. Tang does not contest jurisdiction to hear this complaint.

APPLICABLE STATUTORY SECTION(S)

Section 67 of the San Francisco Administrative Code:

- Section 67.21 governs responses to a public records request.

APPLICABLE CASE LAW

- ***none***

BACKGROUND

On July 1, 2017, Complainant sent an email to Supe Tang in which it requested the following:

> On behallf of the executive committee,of "La Playa Park Neighborhood Association" we hereby request immediate public disclosure as per San Francisco Sunshine laws; copies all records including e-mails (both public and private accounts), calendars, communications, notes, meetings, and

MEMORANDUM

records from the office of Supervisor Katy Tang pertaining to the following:

food truck(s)

Java Beach

Buffy McGuire

Lady Falcon

SF Planning Department

concession(s)

SF Park and Recreation

between the period of January 1, 2015 and July 1, 2017.

On July 10, 2017, Supe. Tang's Legislative Aide Ashley Summers ("Ms. Summers") emailed Complainant to inform it that Supe. Tang's office had no records responsive to its request.

On November 9, 2017, Complainant filed this complaint with the Task Force.

It is unclear if Supe. Tang's office sent the Task Force a response to the filing of this complaint.

QUESTIONS THAT MIGHT ASSIST IN DETERMINING FACTS

- What efforts did Supe. Tang's office make to search for responsive records?
- Did Complainant eventually locate records responsive to its request?

LEGAL ISSUES/LEGAL DETERMINATIONS

- Did Supe. Tang violate Administrative Code Section 67.21(b) by failing to provide Complainant with records responsive to his request in a timely manner?

MEMORANDUM

TO: Sunshine Ordinance Task Force
DATE: January 18, 2018

RE: Complaint No. 17122 – La Playa Park Neighborhood Association v. Supervisor Katy Tang

CHAPTER 67, SAN FRANCISCO ADMINISTRATIVE CODE (SUNSHINE ORDINANCE)

SEC. 67.21. PROCESS FOR GAINING ACCESS TO PUBLIC RECORDS; ADMINISTRATIVE APPEALS

(a) Every person having custody of any public record or public information, as defined herein, (hereinafter referred to as a custodian of a public record) shall, at normal times and during normal and reasonable hours of operation, without unreasonable delay, and without requiring an appointment, permit the public record, or any segregable portion of a record, to be inspected and examined by any person and shall furnish one copy thereof upon payment of a reasonable copying charge, not to exceed the lesser of the actual cost or ten cents per page.

(b) A custodian of a public record shall, as soon as possible and within ten days following receipt of a request for inspection or copy of a public record, comply with such request. Such request may be delivered to the office of the custodian by the requester orally or in writing by fax, postal delivery, or e-mail. If the custodian believes the record or information requested is not a public record or is exempt, the custodian shall justify withholding any record by demonstrating, in writing as soon as possible and within ten days following receipt of a request, that the record in question is exempt under express provisions of this ordinance.

(c) A custodian of a public record shall assist a requester in identifying the existence, form, and nature of any records or information maintained by, available to, or in the custody of the custodian, whether or not the contents of those records are exempt from disclosure and shall, when requested to do so, provide in writing within seven days following receipt of a request, a statement as to the existence, quantity, form and nature of records relating to a particular subject or questions with enough specificity to enable a requester to identify records in order to make a request under (b). A custodian of any public record, when not in possession of the record requested, shall assist a requester in directing a request to the proper office or staff person.

Sunshine Ordinance Task Force
In re: Complaint 17122

Commissioners:

Members of the La Playa Park Neighbors Association filed Complaint #17122 against Supervisor Katy Tang for failure to respond to requests for public records in a complete manner in accordance with the Sunshine Ordinance.

In cross referencing records requests under the same terms made of the Planning Department, it was noted that a responsive communication from Supervisor Tang was made from an unknown/unlogged electronic device. This correspondence was not provided in the "completed" records request transmitted by Supervisor Tang's office.

Additionally, a search of similar terms on Supervisor Tang's Facebook page yields communications which, in our opinion, should have been provided in response to our request.

Thank you for your consideration of this complaint. Publicly accessible electronic files will be provided to members of the Commission to substantiate this correspondence.

Sincerely yours,

Mike Murphy,

Member, La Playa Park Neighbors

Date: Wednesday, May 03, 2017 5:52:12 PM

Hi Tess,

Following up on the previous conversation about the Muni restroom building, we are wondering who we need to coordinate with to install a temporary mural or signage on the restroom building. In addition, the community is interested in adding some planters and seating next to the restroom building. Our understanding is that the SF Real Estate Division takes care of all of City properties. It would be great if you send us the contact at the Real Estate Division.

Subject: Follow-up from N-Judah Turnaround "La Playa Park" meeting

Hi all,

Thanks very much for taking the time to discuss the La Playa Park project today. (I'm also copying Marcus Davies from the Arts Commission on these notes so that he is aware of what's happening)

Here are the next steps that we discussed today:

- **SFMTA Restroom building** – Ilaria and her Planning Dept team will figure out the technical historic nature of this building, and what can be done to this building on the exterior and interior. However, I cautioned against doing anything to the interior because it will be very difficult to get a replacement restroom built.
    - Community members had originally wanted to either install tile mosaic artwork around the building façade, or install a "La Playa Park" sign above on the roof.
- **Time lapse camera** – I will connect Ilaria with Buffy from Java Beach café so that she can install a time lapse camera to document the movement around the La Playa Park area.
- **Draft proposals** – Planning staff will work from now through the rest of the winter to come up with a few mock-up proposals to present to the community. These mock-ups will go through interagency review first. Ideas would be based on all of the community input already gathered. But a few ideas could incorporate closing off parts of the residential streets along La Playa, as well as pulling up the Muni trains by 48th Avenue
    - This is where the Arts Commission will come into play so that Planning staff can coordinate some designs with them.
    - Ilaria will be circling back with her team at Planning to figure out a better timeline.
    - After all relevant city departments have reviewed the draft proposals, then we will go back out to the Steering Committee to see if there's a vision match. Once there are a couple of proposals that match, then we go out to the larger community and gather feedback.

As a reminder, key short-term improvements that the community members desired:

- Seating
- Landscaping
- Info kiosk/signage for "La Playa Park" (to create sense of identity/gathering space)
- Crosswalk/ground treatments

Attachments:

- La Playa Park Draft Budget (as of May 2016)
- March 22nd Public Workshop Results (best high-level summary of short-term steps)
- Executive Summary from June 2013
- Next Steps document from April 2015 – so that you can see what the group was trying to do, and perhaps where they got stuck

Please chime in if I've missed anything.

Thanks all! I so appreciate your work on this project.

Record Requests

Planning Department, City and County of San Francisco
1650 Mission Street, Suite 400, San Francisco, CA 94103

Website | Hours of Operation | Property Information Map

From: MM [mailto:mm_urizon@yahoo.com]
Sent: Thursday, November 09, 2017 8:55 PM
To: CPC-RecordRequest
Subject: Public Records Request

To Whom It May Concern:

Please send me all available Planning Department communications regarding the following:

1) To and from Buffy Maguire

2) Containing reference to Buffy Maguire

3) Containing reference to La Playa

4) Containing reference to La Playa Park

5) Containing reference to La Playa Park Pedestrian Improvement

6) Containing reference to Lady Falcon

This request is in regards to a number of projects, on both public and private properties.

Projects have commenced, concluded, and are in the planning process over the course of several years and are primarily located in the Outer Sunset and Golden Gate Park. As such, this request, likely, cannot be limited.

Thank you.

Best regards,
Mike Murphy

Mr. Ng,

Thank you for your prompt and courteous reply.

Due to the nature of this inquiry, I cannot add any additional criteria to limit the request. I understand that, as such, it is an expansive request.

Thank you for your assistance in this matter.

Best regards,

Mike Murphy

Dear Mr. Mike Murphy,

Glad to assist you with this request and inquire with District 4 staff. However, the request in its current form is expansive. Would you be able to provide us with additional criteria, such as a specific date range and/or subject, that could help us narrow down the scope of your request? For example, communications within the last 30 days between District 4 staff and Buffy Maguire regarding La Playa Park Pedestrian Improvement.

Sincerely,

Subject: FW: Follow-up from N-Judah Turnaround "La Playa Park" meeting
Date: Wednesday, May 03, 2017 5:52:12 PM

Hi Tess,

Following up on the previous conversation about the Muni restroom building, we are wondering who we need to coordinate with to install a temporary mural or signage on the restroom building. In addition, the community is interested in adding some planters and seating next to the restroom building. Our understanding is that the SF Real Estate Division takes care of all of City properties. It would be great if you send us the contact at the Real Estate Division.

Subject: Follow-up from N-Judah Turnaround "La Playa Park" meeting

Hi all,

Thanks very much for taking the time to discuss the La Playa Park project today. (I'm also copying Marcus Davies from the Arts Commission on these notes so that he is aware of what's happening)

Here are the next steps that we discussed today:

- **SFMTA Restroom building** – Ilaria and her Planning Dept team will figure out the technical historic nature of this building, and what can be done to this building on the exterior and interior. However, I cautioned against doing anything to the interior because it will be very difficult to get a replacement restroom built.
    - Community members had originally wanted to either install tile mosaic artwork around the building façade, or install a "La Playa Park" sign above on the roof.
- **Time lapse camera** – I will connect Ilaria with Buffy from Java Beach café so that she can install a time lapse camera to document the movement around the La Playa Park area.
- **Draft proposals** – Planning staff will work from now through the rest of the winter to come up with a few mock-up proposals to present to the community. These mock-ups will go through interagency review first. Ideas would be based on all of the community input already gathered. But a few ideas could incorporate closing off parts of the residential streets along La Playa, as well as pulling up the Muni trains by 48th Avenue
    - This is where the Arts Commission will come into play so that Planning staff can coordinate some designs with them.
    - Ilaria will be circling back with her team at Planning to figure out a better timeline.
    - After all relevant city departments have reviewed the draft proposals, then we will go back out to the Steering Committee to see if there's a vision match. Once there are a couple of proposals that match, then we go out to the larger community and gather feedback.

As a reminder, key short-term improvements that the community members desired:

- Seating
- Landscaping
- Info kiosk/signage for "La Playa Park" (to create sense of identity/gathering space)
- Crosswalk/ground treatments

Attachments:

- La Playa Park Draft Budget (as of May 2016)
- March 22nd Public Workshop Results (best high-level summary of short-term steps)
- Executive Summary from June 2013
- Next Steps document from April 2015 – so that you can see what the group was trying to do, and perhaps where they got stuck

Please chime in if I've missed anything.

Thanks all! I so appreciate your work on this project.

Dear Mr. Murphy,

Following up on our phone conversation last week, please kindly confirm if your request may be more definitively construed as a, "request for any communications between Buffy McGuire and District 4 staff pertaining to Lady Falcon, Java Beach, food truck(s), SF Planning, SF Parks and Recreation, or concession(s) between January 1, 2015 through present (November 13, 2017)."

To mediate your complaint to the Sunshine Ordinance Task Force, upon your confirmation, I will forward this request to District 4 staff to provide them an opportunity to reasonably produce any communication potentially responsive to your request.

Please feel free to let me know if you have any questions.

Sincerely,

—

Thank you Mr. Ng,

Your explanation makes sense and I will make the corrections. I appreciate your office's patience and offer to answer any further questions. I believe I can shorten the time period request as well.

Thank you and have a wonderful day.

Best Regards,

Tim Murphy

On Tue, Jul 11, 2017 at 3:13 PM Ng, Wilson (BOS) <wilson.l.ng@sfgov.org> wrote:

I think the issue with the list of key words is that it is not immediately clear in your initial request whether they should be construed as related or separate parameters (as delineated by the "OR" operator) – for example, with the key word "concession(s)" – would you be looking for any and everything in the past two years containing the word "concession(s)" irrespective of context, or specifically concession(s) that involve/are pertinent to Java Beach/Buffy McGuire/Lady Falcon? The former criteria would be expansive and voluminous to research and review, whereas the latter would be more definitive and likely relevant to your search. Furthermore with this example, if you search the Legislative Research Center (LRC) here for all legislation within the last two years for the key word, "concession" you will find numerous legislative items that the Board considered on that subject alone – I imagine not all of which would be responsive to the intent of your request.

However, if the intent of your request is indeed for any and all records pertaining to each term as separate parameters irrespective of context (essentially making this seven separate public records requests), the office may need to invoke a rule of reason, as the demands placed on the department to research two years of communications for each term, review, and respond to within the required time frame would unreasonably impinge on the department's ability to perform its public duties.

So that we may coordinate with Supervisor Tang's office to respond to you within a reasonable timeframe, please kindly advise how the key word parameters of your initial request are to be construed and if there is more definitive criteria that you can provide.

Feel free to give me a call at 415-554-7725 if you have further questions.

Sincerely,

—

Subject: Re: Immediate Public Disclosure Request

Good Afternoon Mr. Ng,

Thank you for your reply. I responded in this manner and used "or" because Ms. Ashley Summers, aide to Supervisor Tang wrote, "Our office does not have any records responsive to this request".

I am in complete agreement with you Mr. Ng, that the request should be extensive which is why I was rather surprised by the lack of records stated by Ms. Ashley Summers. I am confused how the first request filed resulted in zero records and the second request, as stated by you would result in expansive and voluminous records.

Would you be so kind to explain this to me? Which is it? No records stated by Supervisor Tang or voluminous records?

Thank you very much.

Best Regards,

Tim Murphy

La Playa Park Neighborhood Association

On Tue, Jul 11, 2017 at 11:13 AM, Ng, Wilson (BOS) <wilson.l.ng@sfgov.org> wrote:

Dear Mr. Tim Murphy,

Thank you for your inquiry. Kindly note that a public records request must specify an identifiable record or category of records sought. Cal. Govt. Code § 6253(b). While the law does not require exactitude in requests, a request must be sufficiently clear and defined that the department can understand what records are the subject of the request.

Your request for any and all communications containing the list of words, spanning a two-year period, is expansive and voluminous. Note that each item on the list of key words delineated by an "OR" operator may be construed as a separate request, and may take our staff and the City Attorney's office weeks – potentially months – to review over two years of communications for potentially privileged and sensitive information before release – an effort that may be futile if it is ultimately not responsive to the subject matter that you are searching for.

Please advise if you can specify the subject of your request further or narrow down the scope/timeframe, so that we can coordinate with district staff to export, review, and provide you with the responsive records within a reasonable timeframe.

Sincerely,

—

Subject: Re: Immediate Public Disclosure Request

Thank you Mr. Ng,

Your explanation makes sense and I will make the corrections. I appreciate your office's patience and offer to answer any further questions. I believe I can shorten the time period request as well.

Thank you and have a wonderful day.

Best Regards,

Tim Murphy

On Tue, Jul 11, 2017 at 3:13 PM Ng, Wilson (BOS) <wilson.l.ng@sfgov.org> wrote:

I think the issue with the list of key words is that it is not immediately clear in your initial request whether they should be construed as related or separate parameters (as delineated by the "OR" operator) – for example, with the key word "concession(s)" – would you be looking for any and everything in the past two years containing the word "concession(s)" irrespective of context, or specifically concession(s) that involve/are pertinent to Java Beach/Buffy McGuire/Lady Falcon? The former criteria would be expansive and voluminous to research and review, whereas the latter would be more definitive and likely relevant to your search. Furthermore with this example, if you search the

Legislative Research Center (LRC) here for all legislation within the last two years for the key word, "concession" you will find numerous legislative items that the Board considered on that subject alone – I imagine not all of which would be responsive to the intent of your request.

However, if the intent of your request is indeed for any and all records pertaining to each term as separate parameters irrespective of context (essentially making this seven separate public records requests), the office may need to invoke a rule of reason, as the demands placed on the department to research two years of communications for each term, review, and respond to within the required time frame would unreasonably impinge on the department's ability to perform its public duties.

So that we may coordinate with Supervisor Tang's office to respond to you within a reasonable timeframe, please kindly advise how the key word parameters of your initial request are to be construed and if there is more definitive criteria that you can provide.

Feel free to give me a call at 415-554-7725 if you have further questions.

Sincerely,

—

Wilson L. Ng

Subject: Re: Immediate Public Disclosure Request

Good Afternoon Mr. Ng,

Thank you for your reply. I responded in this manner and used "or" because Ms. Ashley Summers, aide to Supervisor Tang wrote, "Our office does not have any records responsive to this request".

I am in complete agreement with you Mr. Ng, that the request should be extensive which is why I was rather surprised by the lack of records stated by Ms. Ashley Summers. I am confused how the first request filed resulted in zero records and the second request, as stated by you would result in expansive and voluminous records.

Would you be so kind to explain this to me? Which is it? No records stated by Supervisor Tang or voluminous records?

Thank you very much.

Best Regards,

Tim Murphy

La Playa Park Neighborhood Association

On Tue, Jul 11, 2017 at 11:13 AM, Ng, Wilson (BOS) <wilson.l.ng@sfgov.org> wrote:

Dear Mr. Tim Murphy,

Thank you for your inquiry. Kindly note that a public records request must specify an identifiable record or category of records sought. Cal. Govt. Code § 6253(b). While the law does not require exactitude in requests, a request must be sufficiently clear and defined that the department can understand what records are the subject of the request.

Your request for any and all communications containing the list of words, spanning a two-year period, is expansive and voluminous. Note that each item on the list of key words delineated by an "OR" operator may be construed as a separate request, and may take our staff and the City Attorney's office weeks – potentially months – to review over two years of communications for potentially privileged and sensitive information before release – an effort that may be futile if it is ultimately not responsive to the subject matter that you are searching for.

Please advise if you can specify the subject of your request further or narrow down the scope/timeframe, so that we can coordinate with district staff to export, review, and provide you with the responsive records within a reasonable timeframe.

Sincerely,

—

Hi all,

Wanted to let you know that we have set up a meeting with the property manager (Jeff Jurow) for the parcel that contains the park directly across from Java Beach Café.

September 13 (Wednesday) @ 9:00am
Meet at Java Beach Café

Jeff has committed to not installing a fence until he has a chance to speak with neighbors. In the meantime, he is trying to take other steps to provide SFPD with more enforcement authority.

The goal of the meeting is to have Jeff get to know all of you, all of the work that you put into maintaining the parklet, the safety issues, and what you'd like to see happen short/long-term.

I hope you can attend the meeting. And if not, we're happy to circle back with you on this.

Hi Ashley,
Thanks for taking the time to talk this morning. [redacted]

Below is my email exchange with Marcus as I looked everywhere for the flyers. I heard plural yesterday but in email he said he posted one on the bulletin board--which no one has seen.

More importantly, I asked who was responsible to provide me with a copy of the proposals? Who is? He was very quick with the replies until I asked that. Now there has been no response. Do you know who needed to provide me with that information? Who provided everyone else with their copies of the proposals?

Thank you,

Buffy Maguire

Hi Katy and Ashley,
I hope this finds you well. Katy, Ashley and I spoke about various grants for us opening our Wawona space. Permit has been in since July, but it will be a pricey endeavor and any and all help would be fantastic.

I read about SF Shines in a e-newletter I receive and I reached out to Darcy Bender, who was extremely helpful. Attached is our application which was turned in March 31 (deadline date).

Ashley, I thought you might want to know that we did apply.

Thank you,
Buffy
P.S. great night on Monday, thank you!

Date: Wednesday, June 21, 2017 3:47:00 PM

Hi Buffy!

We are piloting a great program with Surfrider in partnership with Public Works. We are installing cigarette butt ash cans in the Sunset and Richmond districts, and will be doing a 6-month pilot where the City actually empties the ash cans. We will be announcing the pilot on Friday 6/30 at Stairwell 17 at Ocean Beach. I am wondering if you would be able to bring the Lady Falcon truck by to make the press event even better! Following the press conference at 10:15, there will be a big butt pickup on Ocean Beach for a couple of hours with a lot of volunteers who will need some caffeine!

Let me know if the truck is available. Thanks Buffy!

Hi Buffy,

I do not know who won the bids – but Ashley can find out if you're curious.

Just so you know, I contacted OEWD about allowing ALL of our District 4 businesses to qualify for the façade improvement funding because our office set the funding aside to benefit all of our merchants – not just those on the Invest in Neighborhoods corridor. I haven't heard back from them yet, but I know you were on their list of those who inquired but "did not qualify."

Subject: Re: Grant Application

Thank you, Katy. Darcy suggested a different grant that I will follow up with when I return from my break. Darcy also said that we lost solely based on our location (I.e. not "Outer Taraval" and not "Outer Noriega"). This was frustrating since I queried her about this prior to engaging in long process. She told me initially my location would not be an issue.

Will it be a matter of public record who won? Do you know who won?

Thank you so much!

Hi Buffy,

Thanks for your email.

Unfortunately, after reviewing your application, we will not be moving forward with an SF Shines grant at this time. We currently have limited funding in this neighborhood and received several applications that better fit the goals of our program because of their location on prioritized commercial corridors.

We may have more funding available in a few months, so feel free to reach out if your business is still interested in making physical improvements this summer.

Until then, here are some programs that might be of assistance in opening your business:

- Outer Sunset Minor Façade Improvement Program – this is a smaller scale version of SF Shines for small businesses in the Outer Sunset. I have attached the application form for that program which is run by Lily Lo at Northeast Community Federal Credit Union.

- Main Street Launch – offers low-interest loans to small businesses. http://www.mainstreetlaunch.org/san-francisco-launch/

- Open in SF – offers case management and technical assistance in navigating the permitting process for food-based businesses. http://oewd.org/open

Thank you for your thoughtful application and dedication to serving San Francisco residents. Please feel free to reach out if you have any questions.

Best,
Darcy

Subject: Green Zone in front of Java Beach (La Playa)

Hi Ashley and Seung Yen,
Hope you are both having a nice day.

I meant to ask you about the Green Zone in front of Java Beach. It is up for a renewal fee (which has gone up really high over the past years to around $1100.00 per year) and I am asking if maybe the City might waive the fee since it is possible the corner will be configured. It is one of those fees that used to be very inexpensive and now it is quite high. Is this request to waive feasible?

Thank you,
Buffy

I'll have to trust Captain Flaherty on this one! I'll check in again tomorrow to see how we can help move this along or if Supervisor Tang knows more and was maybe already working on it. With Dyanna gone I'm playing catch up on her projects. I'll be in touch!

I captain clarity –

I am at a meeting at Java Beach tonight and the homeless encampment is growing by the minute. Can you please send somebody out here tonight – and let us know how you guys have been addressing it over the past few weeks? Thank you!

Hi Emily -

Director Jeff Kositsky of the Homeless Department informed me that he was going to re-assign two homeless outreach workers to the area given that it would take until November to hire new people for the Sunset. I don't know exact timeline for the re-assignment, but I will ask Ray from my office to find out from him. Ray handles homeless issues and Ashley handles La Playa Park issues - so it's good to include both on these emails. Thanks!

On Aug 18, 2017, at 7:48 AM, Emily S. LaTourrette <[redacted]> wrote:

Thanks, Katy. Dean or I will do our best to be there; I have to work, but I may try to get coverage. This sounds like a great approach and we all appreciate this meeting happening.

What I want to emphasize, again, is that the "in the meantime" is a big deal. It's been awful in the park the past months and it's getting worse. Yesterday one guy chased another guy down the street, there's on off leash pit bull now hanging out in the park, and this morning it's not even 8 a.m. and the crew is out there drinking. September 13 is a ways off, so please let us know how and what is being done in the meantime.

Emily

The goal of the meeting is to have Jeff get to know all of you, all of the work that you put into maintaining the parklet, the safety issues, and what you'd like to see happen short/long-term.

I hope you can attend the meeting. And if not, we're happy to circle back with you on this.

Subject:	Re: SF Travel Event with Outer Judah/Irving Businesses
Date:	Monday, August 07, 2017 9:22:11 AM

Hi Ashley and Erin,
Thank you! Ideally, I would like both Java Beach and Beachside to participate since they are two different businesses on Judah St, but Beachside closes at 4pm so I guess that won't work? We could extend our hours that day and pull the Lady Falcon truck in front of Beachside and serve our coffee samples out of it? Beachside serves Lady Falcon coffee so this would be kind of cool for us, what do you think?

At Java Beach, we will serve bite sized options of our almost world famous sub sandwiches.

I have cc'd Oonagh, who will get you our high logos. She will send you Java Beach, Beachside and Lady Falcon (if you give us the green light). I have cc'd Kenia and Donna, Java Beach management on La Playa and Judah and Briana, Chelsea and Kaly from Beachside and Lady Falcon respectively.

Thank you very much,
Buffy

Subject:	La Playa Park concerns/updates
Date:	Monday, November 20, 2017 12:59:40 PM
Attachments:	17.11.20 Steering Committee check in.pdf

Hello Everyone,

Following a community meeting this weekend, I have heard from several of you about concerns over the latest proposals for the traffic re-configuration and parking changes on La Playa. I am looping everyone from the La Playa Park steering committee in on this discussion as well given that not everyone was able to make Saturday's meeting.

First, I want to let you know that our office and city departments are not interested in implementing any changes that the community does not support. We are here to facilitate and bring to life **the community's** ideas. We also understand that, sometimes, ideas sound great conceptually – until they are fully vetted and the trade-offs come to light.

As a reminder, the key goals from community members from the start of the project included:

- Safety around N-Judah turnaround for pedestrians, bicyclists & motorists
- Activation of area around N-Judah turnaround
- Improvement to SFMTA restroom facility
- Placemaking and creating a sense of identity in this area

With that said, we hear you. The SFMTA will **not** be moving forward with bringing a proposal to the SFMTA Board on December 5th as originally planned.

Please see the attached PDF with renderings and a series of questions below that I have for all of you. I am attaching the PDF because I believe the renderings are key to this conversation and I do not want the message/renderings to be distorted based on different email formats.

After you have looked at the PDF, I would like for you to discuss amongst yourselves (however you wish to do so) the following and please share with our office what you have collectively decided on. Again, this is YOUR project – we are not here to impose upon you any idea you do not wish to see implemented. Please also feel free to discuss the proposals with other neighbors who may not have been able to attend the community meetings.

- Would you like to move forward with a traffic re-configuration along La Playa Street?
  - If so, do you prefer the two-way or one-way traffic flow?
- Did you know that the traffic re-configuration is a pilot that would last 18 months? Are you comfortable with a pilot that would be studying the impacts? Or no pilot at all?
- What are the trade-offs that you are comfortable/not comfortable with?
  - Parking loss?
  - Re-routing of the Nx onto 48th Avenue?

    - Improved pedestrian safety?
    - Parklet in front of Java Beach?
- Do you want the parklet in front of the SFMTA restroom facility?
    - If yes, would you be okay with the parking loss that would result?

Here are the components of the La Playa Park project that will indeed move forward unless we hear otherwise:

- Mural on SFMTA restroom facility
- Painted safety zones at the N-Judah turnaround area
- Functional art/seating throughout the plaza, as per the Arts Commission process

And lastly, please keep in mind that this office and former Supervisor Chu's office has spent over 6 years of staff time on this project and dedicated at least $130,000 to it without having implemented anything yet. At this juncture, with all the time, staffing, and resources spent on this project, we need to know what exactly you all collectively support/don't support us moving forward with.

I know many of you have worked so hard for many, many countless years to make this area safer, more inviting to community members, and more. It is incredible to see this community come together and make these amazing improvements on your own over the years. I thank you for all of your efforts, time, stamina, and the deep care you have for this community.

I look forward to hearing back from you as a collective voice so that we have a better sense of direction on how to move forward. Given the Thanksgiving holiday, our office will circle back with you during the first two weeks of December if we haven't heard from you.

Thank you and have a wonderful Thanksgiving with your loved ones!

Re: Complaint No. 17122

Dear Honorable Members of the Sunshine Ordinance Task Force:

On July 1, 2017, Tim Murphy, on behalf of the La Playa Park Neighborhood Association, made an immediate public disclosure request of my office pertaining to the following terms:

- food truck(s) or
- Java Beach or
- Buffy McGuire or
- Lady Falcon or
- San Francisco Planning Department or
- concession(s) or
- SF Park and Recreation

The dates specified were January 1, 2015 - July 1, 2017. California Govt. Code § 6253(b) requires that requests must be sufficiently clear and defined that the department can understand what records are the subject of the request. Mr. Murphy's request for any and all communications containing that list of words, spanning a two-year period, was determined to be expansive and voluminous. Each item was delineated by an "OR" operator, which indicated that each item was a separate request, and would therefore could take weeks or months to review for potentially privileged and sensitive information before release – and ultimately may not have been responsive to the subject matter that Mr. Murphy was seeking.

Wilson Ng, Records and Project Manager at the Board of Supervisors, stated this to Mr. Murphy in an email dated July 11, 2017. Mr. Murphy ultimately did not narrow down the request. When my office sought advice from Mr. Ng on how to proceed, Mr. Ng suggested that we should take a look at the entirety of Mr. Murphy's request to produce documentation that may be related to what he was seeking. Our office took that to mean communications regarding Buffy Maguire's business Lady Falcon Coffee Club and any interactions on that matter with the Planning Department or Recreation and Park Department. Our office did not have any communications that matched that description, and we responded to Mr. Murphy stating that we did not have any records.

In an email to Mr. Ng on July 11, 2017, Mr. Murphy stated "I am in complete agreement with you Mr. Ng, that the request should be extensive which is why I was rather surprised by the lack of records stated by Ms. Ashley Summers. I am confused how the first request filed resulted in zero records and the second request, as stated by you would result in expansive and voluminous records. Would you be so kind to explain this to me? Which is it? No records stated by Supervisor Tang or voluminous records?"

City and County of San Francisco

KATY TANG

Mr. Ng responded to Mr. Murphy's email the same day, stating, "I think the issue with the list of key words is that it is not immediately clear in your initial request whether they should be construed as related or separate parameters (as delineated by the "OR" operator) – for example, with the key word "concession(s)" – would you be looking for any and everything in the past two years containing the word "concession(s)" irrespective of context, or specifically concession(s) that involve/are pertinent to Java Beach/Buffy McGuire/Lady Falcon? The former criteria would be expansive and voluminous to research and review, whereas the latter would be more definitive and likely relevant to your search. Furthermore with this example, if you search the Legislative Research Center (LRC) here for all legislation within the last two years for the key word, "concession" you will find numerous legislative items that the Board considered on that subject alone – I imagine not all of which would be responsive to the intent of your request." To which Mr. Murphy replied, "Your explanation makes sense and I will make the corrections. I appreciate your office's patience and offer to answer any further questions. I believe I can shorten the time period request as well."

Mr. Murphy did not make corrections to the request. Nearly four months later Mr. Murphy made an additional request for the same key terms, but expanded the dates from January 1, 2015 to November 13, 2017 which was nearly 35 months of communications that included any of the terms aforementioned. At that time, our office spent many hours going over communications that included these terms and included 46 pages of emails. This was in addition to a document that included over 321 pages of emails and calendar appointments on the "N-Judah Turnaround Beautification Project" that he requested also in July 2017 which may have contained similar key words. The reason that this request produced results whereas the initial one did not was because after consulting with Mr. Ng, it was recommended that we include any records we had irrespective of the fact that Mr. Murphy decided not to narrow down the search with any joining operators such as "and." Mr. Ng also advised us not to include every single communication with the Planning Department or Recreation and Park Department because it would have resulted in the production of voluminous and irrelevant records. Thus, with the most recent request from Mr. Murphy, our office narrowed down the records to the best of our ability and submitted those records to him.

Our office takes the requirements of the Sunshine Ordinance very seriously and we hold ourselves to the utmost standards when it comes to ethics, transparency, and good government. We will continue to make a good faith, reasonable effort to assist requesters in identifying the information or records they seek. Any and all suggestions you may have as to how to be responsive in a timely, thoughtful, and transparent manner will be taken seriously by our office. Thank you for your consideration, and we thank the members of the Task Force in ensuring public participation is of the highest importance.

Sincerely,

Katy Tang
Supervisor, District 4
City and County of San Francisco
