12. **Project Catalytic** will be centered by the category of the actual, initial request made by the complainant. Meaning, the stated request will be the same for multiple complaints despite being to different respondents. *(For all other existing and future complaints, multiple complaints of the same request to the same respondents for different periods of time shall continue to follow our current procedure to combine the files at the discretion of SOTF.)* If the results of this pilot are positive, we will move to add other complainants of the same subject matter in the requests into this process.

The goal of this pilot program is:

- a) to reduce substantially, by batch, a number of backlogged complaints in anticipation of affirmative responses to be 20-30% which should result in an entire meeting's worth of hearings
 - b) to address multiple complaints by the same complainant or possibly different complainants based on the same subject matter of the request
