Please find attached a new version of a recently sent letter from the nonprofit, nonpartisan citizens organization San Franciscans for Sunshine urging that you recommend retaining the Sunshine Ordinance Task Force as a stand-alone body. The text in the new version is identical to that in the earlier version, but we have added to the list of co-signatories at the bottom of the letter.

Re: [Sunshine Ordinance Task Force](#) (SOTF): compelling reasons to retain it

Dear Commission Streamlining Task Force Members:

San Franciscans for Sunshine (SF4S), and the persons and organizations listed below as co-signatories strongly urge that you recommend retaining the Sunshine Ordinance Task Force as a stand-alone body. SF4S is an all-volunteer, nonprofit organization of citizens who hold that government transparency is a pillar of democracy. Our Steering Committee comprises current and former members of the SOTF. Please consider:

**1. The SOTF operates on a minuscule budget.** Its eleven voting members receive no pay or expense reimbursement for their SOTF-related work. Members may enroll in health insurance offered to City employees, which costs the City about \$300 per member per year. The SOTF does not have its own paid staff; legal and administrative functions are performed by a deputy city attorney and a clerk who is assigned by the clerk of the Board of Supervisors, respectively.

**2. The SOTF saves the City money.** In a 2011-2012 study requested by then-Supervisor Scott Wiener, the Budget and Legislative Analyst estimated that the total cost for City agencies to comply with local and state sunshine laws amounted to less than 0.7% of the City's General Fund budget. And the analyst pointed out that it is difficult to gauge how much the SOTF saves the City in legal expenses by obviating the need for members of the public to take sunshine scofflaws to court.

But this anecdote might offer a clue: In 2016, the State Superior Court ordered the City Ethics Commission to provide requested documents that administrative aides had for no reason withheld from local resident Allen Grossman, and to reimburse his legal expense of \$24,000. Multiply that amount by the 100 to 150 complaints that citizens file with the SOTF each year; if the SOTF – the people's sunshine court – did not exist, sunshine-related lawsuits could cost the City upward of \$3.5 million a year.

**3. The SOTF is a model of efficiency,** notwithstanding claims to the contrary by its anti-sunshine critics. SOTF meetings, which normally start at 4 p.m., often last late into the evening. Meeting lengths vary with the number of cases before it each month, the level of legal complexity of those cases and the number of people making public comment. In addition, legal analysis provided to the SOTF has at times been minimal, creating extra work for SOTF members.

**4. The SOTF is law-born,** established in Article IV, Section 30, of the [Sunshine Ordinance](#) (Administrative Code Chapter 67), which the Board of Supervisors unanimously passed and Mayor

Frank Jordan signed in 1993, and citizens voted, 58% to 42%, to strengthen in November, 1999. A provision in the City Charter empowers the Board of Supervisors to amend the Ordinance to the extent it would not conflict with the Ordinance's original purpose and intent. Dissolving the SOTF or consolidating it with another policy body would indeed flout that original purpose and intent: The only other policy bodies authorized to adjudicate and act on sunshine-related matters – the Board of Supervisors and the Ethics Commission – have almost invariably shown apathy or antipathy toward holding sunshine-law violators to account.

San Francisco needs the SOTF. Please e-mail me with any questions.

Sincerely,  
Allyson M. Washburn, Ph.D., Chair

RE: Sunshine Ordinance Task Force – OPPOSE its elimination, consolidation, or revision

Dear Commission Streamlining Task Force Members and Staff,

Please accept this correspondence on behalf of Matt Yankee and David Pilpel regarding your consideration of the Sunshine Ordinance Task Force (SOTF). We have both volunteered for many years on the SOTF and collectively have decades of experience with the issues of citizen access and participation in local government. The SOTF is one of the few bodies in the United States solely focused on ensuring access to open meetings and public records, and it serves a vital role in upholding the San Francisco value of local government transparency.

Over the past several years, the Sunshine Ordinance Task Force has made significant progress in becoming more effective and efficient in its work, despite having only a single full-time City employee assigned to it. The SOTF has issued regular annual reports with comprehensive data, analysis, and suggestions. It provides thoughtful comments to the Board of Supervisors regarding pending legislation and other matters which affect government transparency, and it provides a forum for robust public participation on those issues. Perhaps most importantly, it has essentially eliminated its backlog of complaint petitions. Thus, we strongly suggest that the Commission Streamlining Task Force recommend **no substantial changes to the Sunshine Ordinance Task Force**.

The Sunshine Ordinance Task Force was first established by ordinance in 1993 with approval of the Board of Supervisors and Mayor. San Francisco voters then approved Proposition G in 1999 which amended numerous portions of the Sunshine Ordinance, including sections related to the SOTF's composition and duties. Therefore, pursuant to Charter Section 4.100.1(e), any recommendations related to the elimination, consolidation, or revision of the SOTF are subject to voter approval.

Commission Streamlining Task Force staff has already classified the Sunshine Ordinance Task Force primarily as a regulatory body. We agree with that assessment. Indeed, Administrative Code Section 67.1(e) states that “Only a strong Open Government and Sunshine Ordinance, **enforced by a strong Sunshine Ordinance Task Force**, can protect the public's interest in open government.” The SOTF has specific regulatory duties under Administrative Code Sections 67.21(e) and 67.30(c), among them:

- Members of the public who have been denied access to a public record “may petition the Sunshine [Ordinance] Task Force for a determination whether the record requested is public.”

- The SOTF “shall inform [a] petitioner, as soon as possible and within 2 days after its next meeting but in no case later than 45 days from when a petition in writing is received, of its determination whether [a] record requested, or any part of [a] record requested, is public.”
- “Upon the determination that [a] record is public, the Sunshine [Ordinance] Task Force shall immediately order the custodian of the public record to comply with [a] person's request.”
- The SOTF is empowered to “conduct a public hearing concerning [a] records request denial” and an “authorized representative of the custodian of the public records requested shall attend any hearing and explain the basis for its decision to withhold the records requested.”
- Finally, the SOTF “shall make referrals to a municipal office with enforcement power under this ordinance or under the California Public Records Act and the Brown Act whenever it concludes that any person has violated any provisions of this ordinance or the Acts.”

However, the Sunshine Ordinance Task Force also has several advisory duties. For example:

- Under Administrative Code Section 67.30(c), the SOTF advises the Board of Supervisors and provides information to other City departments on appropriate ways in which to implement the Sunshine Ordinance; reports to the Board of Supervisors at least once annually on any practical or policy problems; receives and reviews the annual report of the Supervisor of Records; and issues public reports evaluating compliance with the Sunshine Ordinance and related California laws
- Under Administrative Code Section 67.33, the SOTF assists the City Attorney’s Office with preparing the Sunshine Training required for City department heads, management employees, and all employees or officials who are required to sign an affidavit of financial interest.
- Under Administrative Code Section 12L.5(b), the SOTF provides advisory opinions when disputes arise over the disclosure of certain information from non-profit organizations contracting with the City.

Because of its unique role as both a regulatory and advisory body, the SOTF does not fit neatly into one of the templates designed by the Commission Streamlining Task Force, and **it should be exempted from the constraints of those templates**. In fact, by serving as a dual regulatory and advisory body, the SOTF has essentially been “streamlined” since its inception. Its eleven voting seats (and two non-voting seats) represent the specialized background and experience necessary to fulfill its mission. Furthermore, access to City health benefits appropriately reflects the long hours SOTF members voluntarily contribute – work that cannot easily be done by paid City employees – and it ensures participation from members in occupations often lacking access to these benefits, such as independent journalists.

If the Sunshine Ordinance Task Force were to be eliminated entirely, complaints related to the Sunshine Ordinance, Brown Act, or California Public Records Act would need to be litigated in court, as they are in most other California municipalities. Using the already overwhelmed court system is a slow and expensive process for both petitioners and the City. While the SOTF now resolves many, if not most, complaints in a matter of weeks, litigation often takes months or even years. Moreover, under Government Code Section 7923.115, if a petitioner prevails in litigation against the City, the court shall award court costs and reasonable attorney’s fees to the petitioner – and those fees can be significant. For example, the City of San Jose approved a \$500,000 payout<sup>1</sup> in 2023 after they were found to have violated the California Public

---

<sup>1</sup> <https://sanjosespotlight.com/san-jose-approves-hefty-pay-out-for-california-public-records-lawsuit/>

Records Act. We are lucky in San Francisco to have generally avoided this type of costly litigation, and that is in large part due to the Sunshine Ordinance Task Force.

As a body empowered to resolve constituent complaints regarding government transparency, the SOTF's regulatory functions cannot be realistically transferred to City staff – doing so would create a classic “fox guarding the hen house” conflict of interest scenario. For instance, the Sunshine Ordinance outlines a role for a “Supervisor of Records” in the City Attorney’s Office to help resolve public records disputes, but that Office has announced<sup>2</sup> that it will not issue orders for the release of public records when petitioned, as doing so would be inconsistent with the City Attorney’s duties under the Charter to serve as the attorney for City agencies to which petitions pertain.

At first glance, the Ethics Commission may seem like a potential body to assume responsibility for SOTF functions; however, it has become abundantly clear that they have little to no interest in doing so and lack the necessary resources. For example, on June 13, 2025, the Ethics Commission refused to take action on a public records complaint<sup>3</sup> that had been referred to them for enforcement, and an August 4, 2025 memorandum<sup>4</sup> authored by the Ethics Commission’s Director of Enforcement states that the Ethics Commission has “legal limits placed on its enforcement powers regarding the Sunshine Ordinance.” In addition, that memorandum mischaracterizes Sunshine complaints as involving “minor or unintentional open government infractions” which “dilutes the limited staff and legal resources and diverts attention from matters with systemic impact or greater public harm.” San Franciscans voted for and deserve access to a dedicated oversight body for the Sunshine Ordinance; the Ethics Commission is certainly not that body.

In conclusion, we feel that the Sunshine Ordinance Task Force is the appropriate regulatory body to ensure government transparency, it adds substantial value to the City, and it saves the City significant expenses. We urge the Commission Streamlining Task Force to keep it in its current form.

Respectfully submitted,

Matt Yankee and David Pilpel

RE: Recommendations regarding the Sunshine Ordinance Task Force

Dear Commission Streamlining Task Force Members,

Your staff recently released a memorandum regarding general administrative and finance bodies, including a summary of and recommendations for the Sunshine Ordinance Task Force (SOTF). I generally agree with the memorandum; however, I believe two of the recommendations are very problematic: the recommendations to reclassify the SOTF as an “Advisory Committee” and to include a sunset date for the SOTF.

The Commission Streamlining Task Force created the “Advisory Committee” template earlier this year to apply to bodies with “no decision-making authority.” While the Sunshine Ordinance Task Force is responsible for many advisory duties, it is primarily *a decision-making body*. As noted in a previous correspondence<sup>1</sup> to the Commission Streamlining Task Force, San Francisco voters entrusted the SOTF to *enforce* the Sunshine Ordinance, including the ability to *order* – not merely advise – City departments and officials to comply with requests for public records. The City Attorney’s Office has long recognized<sup>2</sup> that the Sunshine Ordinance Task Force has decision-making authority and has included it among the minority of boards and commissions whose members are required to file Statements of Economic Interest. This recognition has also been routinely reaffirmed by the Board of Supervisors and the Mayor through the SOTF’s inclusion in Section 3.1-103 of San Francisco’s Campaign and Governmental Conduct Code. Therefore, reclassifying the Sunshine Ordinance Task Force as an “Advisory Committee” with “no decision-making authority” would not only be improper, but it would also suggest that the SOTF does not have the ability to enforce the Sunshine Ordinance as intended by San Francisco voters.

Equally concerning is staff’s recommendation to automatically sunset the Sunshine Ordinance Task Force after three years unless it is reauthorized by the Board of Supervisors. In its memorandum, staff correctly states that the “SOTF plays a well-known role in ensuring Sunshine Ordinance compliance that San Franciscans trust and rely on.” Government transparency requires an ongoing commitment and should not expire. A sunset date would allow a future Board of Supervisors to dissolve the SOTF by simply not taking action to reauthorize it. The SOTF’s well-known role in upholding government transparency should be allowed to continue unless the *voters* decide otherwise.

I urge the Commission Streamlining Task Force to carefully consider the points above when it makes its final recommendation for the Sunshine Ordinance Task Force.

Respectfully submitted,

Matt Yankee
