[Addressing West Portal Traffic Safety Changes]

Resolution supporting plans and highlighting concerns for a *Welcoming West Portal* which includes safety and community space improvements.

WHEREAS, Recent traffic incidents, specifically the tragic accident on March 16th at West Portal Avenue and Ulloa Street that resulted in the deaths of two children, have highlighted an urgent need for enhanced traffic safety measures; and

WHEREAS, These incidents are indicative of broader traffic and public safety issues within the West Portal community; and

WHEREAS, Motor vehicle collisions are the second-leading cause of death for young people behind firearms, making the crash on March 16th part of a larger pattern of traffic-related violence; and

WHEREAS, Young people from schools within the area are some of the most frequent users of the West Portal corridor and utilize MUNI, the West Portal Library, and other local resources on the weekends and after school; and

WHEREAS, The initial proposal draft includes the creation of transit only lanes, protected community space, and only allowing right turns on certain streets to reduce the amount of risk for pedestrians; and

WHEREAS, 40% of traffic deaths in San Francisco occur after drivers make left turns; the proposal would remove two left turns and reduce the risk of collisions; and

WHEREAS, There is substantial community support for continued improvements in traffic safety and public spaces, particularly in areas frequented by pedestrians and cyclists; and

1 WHEREAS, Many businesses have expressed concern over the decrease in
2 private vehicle traffic that would result from the proposed changes; and

4 Elementary School, have noted that the proposed changes could impact school drop-
5 offs and pickups, among other potential unforeseen traffic disruptions; and

6 WHEREAS, The current survey that the SFMTA released to the public is
7 convoluted and does not adequately give place for community members to fully
8 understand and provide feedback on the proposal; now, therefore be it

Re: Support youth civic engagement in California local governments by allowing cities and counties to establish a youth commission.

Dear Chair Wicks,

On behalf of the San Francisco Youth Commission, I write to express our support for Assembly Bill 2591 (Quick-Silva). AB 2591 would enhance youth civic engagement in California local governments by allowing youth to petition cities and counties to establish a Youth Commission.

The Youth Commission is a body of 17 youth from San Francisco between the ages of 12 and 23. Created by the voters under a 1995 amendment to the City Charter, the Commission is responsible for advising the Board of Supervisors and the Mayor on policies and laws related to young people. The Youth Commission is also charged with providing comments and recommendations on all proposed laws that would primarily affect youth before the Board of Supervisors takes final action.

The Youth Commission has been successful in engaging youth in local government advocacy and establishing efforts such as free public transportation initiatives for youth under the age of 19, lowering the voting age to 16 in municipal elections, and working with city departments on transitional youth efforts. The Youth Commission has been the main bridge-builder between youth-serving organizations and elected officials in San Francisco. Over the last 29 years, the Commission has grown into a hub of civic engagement and youth power in government.

The Youth Commission further encourages other areas across California to start their own commission and get more youth civically engaged in local government.

Sincerely,

Ewan Barker Plummer

[Support for AB 1858: Trauma-Informed Best Practices for Active Shooter Drills]

Motion supporting Assembly Bill 1858: Trauma-informed best practices for active shooter drills and urging the Mayor, Board of Supervisors, and San Francisco’s members of the State Legislature to support.

WHEREAS, Assembly Bill 1858, introduced by California Assemblymember Christopher Ward (Assembly District 78), will require a standard process for active shooter drills in schools and require the State Department of Education to curate and share best practices for active shooter drills in schools; and

WHEREAS, Active shooter drills range in intensity and realism, with extreme examples being reported where realistic-looking fake weapons were used, educators were not made aware of drills ahead of time, individuals attempted to gain entry to locked-down classrooms while posing as an active threat, and more; and

WHEREAS, These extreme drills can cause long-lasting trauma for students, educators, and families and do not improve the response to real emergency situations; and

WHEREAS, Currently there is debate among experts on the effectiveness and necessity of active shooter drills for schools, yet widespread agreement that they should not include traumatizing practices as aforementioned; and

WHEREAS, The Youth Commission has supported, through its adoption of the FY 2024-2025 and 2025-2026 Youth Commission Budget and Policy Priorities, trauma-informed practices for lockdown drills; and therefore be it

MOVED, That the San Francisco Youth Commission supports Assembly Bill 1858: Trauma-informed best practices for active shooter drills, and be it

1 FURTHER MOVED, That the San Francisco Youth Commission urges the San
2 Francisco Board of Supervisors, Mayor London Breed, California Senator Scott Wiener,

RE: Support for AB 1858 (Ward): Comprehensive school safety plans: active shooters: armed assailants: drills.

Dear Chair Wicks,

On behalf of the San Francisco Youth Commission, I am writing to support AB 1858 (Ward), which would require a standard process for active shooter drills in schools and require the State Department of Education to curate and share best practices for active shooter drills in schools.

The Youth Commission is a body of 17 youth from San Francisco between the ages of 12 and 23. Created by the voters under a 1995 amendment to the City Charter, the Commission is responsible for advising the Board of Supervisors and the Mayor on policies and laws related to young people. The Youth Commission is also charged with

providing comment and recommendation on all proposed laws that would primarily affect youth before the Board takes final action.

Alarming instances of poor judgment and traumatizing drills have put a light on the unregulated structure of guidance that schools and local educational agencies have to navigate when devising these types of drills. It has been observed that extreme versions of these drills cause trauma for students and have questionable benefits in active shooter situations. It is essential that active shooter drills serve the purpose of preparing students and educators for emergencies, not create fear and trauma which can make these drills ineffective.

AB 1858 would create a permissive and structured procedural guidance to be available through the California Department of Education that is focused on preparedness, open communication, and minimizing the trauma that currently is caused by school shooter drills.

For these reasons, the San Francisco Youth Commission supports AB 1858.

Sincerely,

Ewan Barker Plummer, Chair
